### **CHAIRMAN'S STATEMENT**

I hereby present to the shareholders the annual report of Shenwan Hongyuan (H.K.) Limited (the "Company") and its subsidiaries (the "Group") for the year ended 31 December 2021.

### **RESULTS**

For the year ended 31 December 2021, the revenue of the Group was HK\$730 million, representing a decrease of 13% as compared with HK\$835 million in 2020. The Group recorded loss before taxation of HK\$118 million in 2021, while profit before taxation of HK\$209 million in 2020; and recorded loss attributable to shareholders of HK\$95.75 million, while profit attributable to shareholders of HK\$176 million in 2020, which was mainly due to a further increase in expected credit loss provision of fixed income products in institutional services and trading business based on prudent consideration. This expected credit loss provision is not a realized loss. This accounting adjustment has little impact on the Company's financial position and the Company's business operates as normal. Loss per share in 2021 was HK6.13 cents, while earnings per share was HK11.25 cents in 2020.

### **DIVIDEND**

The board of directors (the "Board") of the Company has resolved not to recommend the payment of a final dividend for the year ended 31 December 2021 (2020: HK4 cents per ordinary share).

### **2021 MARKET REVIEW**

From the perspective of the global environment, the most important issues in 2021 have been the high global inflation and the repeated resurgence of COVID-19 pandemic. The emergence of the Delta variant at the beginning of the year, followed by the Omicron variant at the end of the year, has rapidly led to a more complicated situation of the global pandemic with no sign of its complete recovery and it remains difficult for the global service industry to recover, whereas the policy of the "monetisation of fiscal deficits" adopted by overseas developed countries in response to the pandemic hit has caused a rapid overheating of demand. The repeated resurgence of the pandemic has weakened the recovery of the manufacturing industry, resulting in an increasingly severe "stagflation" in overseas economies in general and thus accelerating the tightening of overseas monetary and fiscal resonances. The Federal Reserve has started the QE Taper at the end of the year and expects it to end in March 2022.

From the perspective of macro economy of Chinese Mainland, the overseas stagflation reflected the strength of supply in Chinese Mainland, where an expanding external demand gap drove high export growth, making Chinese Mainland the country with the strongest recovery in industrial production among the world's major economies for two consecutive years. The gross domestic product (GDP) grew by 8.1% year-on-year in 2021, with an average growth rate of 5.1% over two years. The tightening of the long-term control mechanism for real estate has led to a cooling down of financing for real estate enterprises, dragging down the growth rate of real estate investment. The strengthening of the "monetization regulation" of special bonds, overlapping with the high inflation of industrial products to dampen demand, led to the sluggish growth of infrastructure investment and the strong transmission of industrial product inflation to the Consumer Price Index (CPI), which slowed down the growth rate of consumption. However, the overseas environment with intensified stagflation drove a strong export performance and provided a stronger support to the macro economy.

### **CHAIRMAN'S STATEMENT** (Cont'd)

#### **2021 MARKET REVIEW** (Cont'd)

Capital market in Chinese Mainland showed a clear structural pattern throughout 2021, in which the SSE Composite Index rose by 4.8% for the year, the Growth Enterprise Index rose by 12%, while the SSE 50 Index, reflecting the large cap blue chip market, fell nearly 10%. Benefitted from the recovery of the local economy and the further development of the registration-based listing process in Chinese Mainland, the A share IPO market was active in 2021, with a total of 493 IPOs listed throughout the year and the financing amount of up to RMB547.8 billion, representing an increase of 25% and 17% year-on-year respectively, both hitting record highs.

In Hong Kong, the development of the pandemic and the Sino-US rivalry in early 2021 have led to a downturn in the Hong Kong economy, while the global economic recovery and the gradual advancement of the "internal and external dual circulation" in Chinese Mainland in the middle of the year have provided a strong driving force for Hong Kong's economic recovery. At the same time, the Central government's further clarification of Hong Kong's position has further strengthened Hong Kong's competitive advantages in the world. Due to the impact from the Chinese Mainland's increased regulation of certain industries, the performance of Hong Kong stock indexes was worse than expected at the beginning of the year, in which the Hang Seng Index fell by 14.1% throughout the year. Southbound capital net inflow was HK\$454.4 billion for the year, representing a slight decrease from 2020. The Hong Kong IPO market has also gone from exuberance in the first half of the year to a weak second half, with only 98 listings throughout the year and the total fund-raising amount of HK\$331.4 billion, representing a drop of 36% and 17% year-on-year respectively from 2020.

In 2021, credit events dominated the China's offshore dollar bond market. The volatility of investment grade bonds in the first half of the year and the cliff-like decline of high yield bonds in the second half of the year due to the outbreak of credit crises of Chinese Mainland's real estate enterprises caused a severe impact on market confidence, severely hampering the financing of Chinese Mainland's real estate enterprises in the overseas primary market and posing constant pressure on the secondary market due to the continuous emergence of defaulting real estate enterprises.

### **FUTURE PLANS & PROSPECTS**

From the perspective of the global financial market environment, the overseas monetary environment in 2022 will see accelerated tightening. With high overseas inflation, major overseas central banks will gradually accelerate tightening, which will have a certain impact on financial markets. Meanwhile, the geopolitical risks caused by the Russia-Ukraine war bring uncertainties to the global economy. Global vaccination, which is still highly unbalanced, may lead to greater differences in the recovery of countries around the world. Together with the tightening of global liquidity, emerging market risks should not be neglected.

### **CHAIRMAN'S STATEMENT** (Cont'd)

### **FUTURE PLANS & PROSPECTS** (Cont'd)

In Chinese Mainland, under the guidance of the new development pattern of "dual circulation", double carbon goals and long-term strategic planning for common prosperity, the economy in Chinese Mainland is expected to initiate a round of comprehensive optimisation of demand structure in 2022. Coupled with a proper mix of monetary and fiscal policies with ample potential policy space, the economy in Chinese Mainland will focus on stable growth. Against this backdrop, A-shares are expected to fluctuate upward, with an expectation of better performance of value stocks in financial and real estate sectors and the switch of style of the growth sector outperforming the value sector in 2022.

In Hong Kong, at the beginning of 2022, the Omicron variant continues to rage and is still far from subsiding, casting a dark shadow over the economic outlook. As global central banks begin their tightening process, Hong Kong stocks will tend to face a tightening macro liquidity environment. With the Holding Foreign Companies Accountable Act coming into effect in the United States and the relaxation of the listing system, more China concept stocks are expected to return. From the market perspective, given that "low valuation" is purely not a sufficient and solid reason for a market turnaround, the potential recovery in beta ( $\beta$ ) may be more moderate. Afterwards, the market will be profitable, and it is still more important for alpha ( $\alpha$ ) to be aggressive.

In the China's dollar bond market, market confidence remains weak after going into 2022, with the high yield bond market bottoming out again. With the Federal Reserve entered an interest-rate hiking cycle, it is expected that the primary market for issuance of China's dollar bonds will remain volatile. In the secondary market, despite positive signals being constantly released from Chinese Mainland, market confidence is unlikely to recover in a short period of time and it is expected that the high yield bond market will still be under downward pressure.

In 2022, given that the global development of the pandemic is not yet clear, and the macro economy remains uncertain, the Group will continue to closely monitor the changes in the pandemic and the development trends of the macro economy and regulations, promptly respond, adopt proactive development strategies, accelerate the pace of business expansion and strive for stable and rapid development of each of its businesses. Under the new development pattern of "dual circulation", the Group, as the most important business center and execution platform based in Hong Kong for Shenwan Hongyuan Group's overseas and cross-border business, will continue to fully leverage the advantages and competitiveness of resources abroad, actively respond to serve the national development strategies, vigorously expand its cross-border business and further enhance market influence. The Group will further strengthen risk management, optimise its asset-liability structure, improve its operation coordination capability, strengthen talent team and infrastructure construction, create a wealth management platform, strengthen product platform for asset management, accelerate the expansion of the integrated capital intermediary business towards institutional clients, leverage the resources of the domestic parent company, expand its cross-border business, consolidate the competitive strategy of the "investment + investment bank" and provide clients with integrated domestic and overseas corporate financial services. With adherence to risk control and compliance as the bottom line, strengthened foundational management as the support, and development of financial technology as the guide, the Group strives to become an integrated financial services provider with market recognition and international competitiveness by comprehensively enhancing the level of professional services.

# **CHAIRMAN'S STATEMENT** (Cont'd)

### **FUTURE PLANS & PROSPECTS** (Cont'd)

During the year, Mr. Fang Qingli resigned as the Chairman of the Board, Executive Director, Chairman of the Nomination Committee, Chairman of the Environmental, Social and Governance Committee and Chairman of the Executive Committee of the Company on 26 October 2021, as he required to devote more time to the business of Shenwan Hongyuan Securities Co., Ltd., a controlling and substantial shareholder of the Company. In addition, Mr. Qiu Yizhou resigned as the Chief Executive Officer, Executive Director, Chairman of the Management Committee, member of each of the Risk Committee, Environmental, Social and Governance Committee and Executive Committee of the Company on 12 June 2021 due to work adjustment. On behalf of the Board and all staff of the Group, I would like to express our heartfelt gratitude and tribute to Mr. Fang Qingli and Mr. Qiu Yizhou for their contributions to the Group.

**Wu Meng** *Chairman* 

Hong Kong 28 March 2022

#### **REVIEW OF OPERATIONS**

In 2021, the Group continued to push forward and consolidate business transformation, actively explore new business models, continuously enhance the professional level of each of its businesses and enrich the means to serve clients, in an effort to actively maximise the synergetic effects within the Group and those with the parent company and to provide clients with comprehensive and diversified integrated financial services. On the one hand, in face of huge fluctuations in the China's offshore dollar bond market, the Group proactively and calmly responded to the situation, effectively conducted risk management and took various risk mitigation measures to minimise the impact of systemic risks from the China's dollar bond market on the Group. On the other hand, in face of the intensifying market competition and increasing regulatory efforts, plus the recurrence of COVID-19 pandemic, the Group has promptly studied the development trend of the market and the pandemic, actively sought development opportunities amidst the challenges, effectively conducted risk and compliance management, improved infrastructure construction, strengthened the backing for development and continuously improved the business continuity plan to ensure overall operations remained stable.

In 2021, the revenue of the Group decreased by 13% year-on year to HK\$730 million from HK\$835 million in 2020, which was mainly due to the weak performance of the China's offshore dollar bond market in the second half of the year, resulting in dragging down the performance of the institutional services and trading business. The Group recorded loss before taxation of HK\$118 million in 2021, while profit before taxation of HK\$209 million in 2020; and recorded loss attributable to shareholders of HK\$95.75 million, while profit attributable to shareholders of HK\$176 million in 2020, which was mainly due to a further increase in expected credit loss provision of fixed income products in institutional services and trading business. This expected credit loss provision is not a realized loss. This accounting adjustment has little impact on the Company's financial position and the Company's business operates as normal.

	2021		(Restated) 2020	
	HK\$'000	%	HK\$'000	%
Fee and commission income	409,191	56%	304,444	36%
Interest income	205,822	28%	188,260	23%
Income from investment business	115,274	16%	342,613	41%
	730,287	100%	835,317	100%

During the year under review, with the improvement of the number and the quality of debt and equity underwriting business, as well as the steady growth of the stock business of institutional services and trading business, the fee and commission income increased by 34% year-on-year to HK\$409 million. Benefitted from timely business strategies, the interest income increased by 9% year-on-year to HK\$206 million. The fixed income trading business was affected by the huge volatility in the China's dollar bond market, which dragged down income from investment business to decrease by 66% year-on-year to HK\$115 million.

### **REVIEW OF OPERATIONS** (Cont'd)

### **Wealth Management Business**

The wealth management business mainly provides a series of comprehensive financial services including securities, futures and options brokerage, the sale of financial products such as wealth management, over-the-counter, as well as securities margin financing to individual clients and non-professional institutional investors through a combination of online and offline methods.

	2021 HK\$'000	(Restated) 2020 HK\$'000	%
Fee and commission income	181,092	200,874	(10%)
Interest income	185,471	180,745	3%
<ul> <li>Loans from clients</li> </ul>	174,692	148,153	18%
— Others	10,779	32,592	(67%)
Income from investment business	136	8,722	(98%)
	366,699	390,341	(6%)

In 2021, the stock market was increasingly volatile under the impact of various factors, including the spread of the global pandemic and macroeconomic uncertainty, as well as the strengthening of the regulatory environment and the Federal Reserve's early signal to raise interest rates. Downturn of the Hong Kong IPO market and sluggish trading volumes of Hong Kong stocks dragged down the fee and commission income from the wealth management business. The fee and commission income from the wealth management business for the year amounted to HK181 million, representing a slight decrease as compared with HK\$201 million in 2020. As for interest income, the interest income from loans to clients for the year accumulated to HK\$175 million, representing an increase of 18% as compared with HK\$148 million in 2020; meanwhile, other interest income, including interest income from banks, decreased to HK\$10.78 million due to the decrease in market interest rates.

### **REVIEW OF OPERATIONS** (Cont'd)

### **Wealth Management Business** (Cont'd)

Despite the challenging market conditions, the Group continued to accelerate the deepening and development of the wealth management business, offering a diversified product portfolio and enhancing the level of professional services to cater for the needs of different clients. Through the integration of service resources of other businesses, the Group strived to create unique products and services to attract high-net-worth clients while actively fighting against the pandemic, and the income from sales of wealth management products increased significantly as compared with the previous year due to the smooth operation of the high-net-worth client introduction programme throughout the year. As for financial technology development, the Group focused on upgrading and improving its information platform, creating a full context experience for clients through complementary online and offline services, and devoting to providing global asset allocation and integrated services. The launch of a new generation of online trading platform has significantly increased trading functions and reduced network delays in cross-border trading and is supplemented with financial information that suits clients' needs to meet their demand for online trading and financial management.

The Group will continue to strive to build competitive advantages in the wealth management business, intensify the application of financial technology, continuously improve the wealth management platform and service system and fully promote the transformation of service model, in an effort to satisfy clients' multi-layer demand, enhance their experience and provide them with global asset allocation and integrated services.

### **Enterprise Finance Business**

The enterprise finance business consists of corporate finance business and investment business. The corporate finance business provides corporate clients with stock underwriting sponsorship, bond underwriting and financial advisory services, while investment business mainly includes self-financing equity investment, debt investment and other investments.

	2021 HK\$'000	2020 HK\$'000	%
Fee and commission income Income from investment business	99,488 1,320	38,840 5,934	156% (78%)
	100,808	44,774	125%

In 2021, after the significant impact of the pandemic in 2020, the sponsorship and underwriting business of the Group rebounded with increasing reserve projects on hand. The debt capital market business maintained strong development momentum thanks to the abundant accumulation of resources. During the year under review, the fee and commission income from the enterprise finance business increased by 156% year-on-year to HK\$99.49 million. In addition, the Group used its own funds to make investments and recorded income from investment business of HK\$1.32 million.

### **REVIEW OF OPERATIONS** (Cont'd)

### **Enterprise Finance Business** (Cont'd)

Sponsorship and underwriting and financial advisory

During the year under review, the sponsorship and underwriting business of the Group rebounded slightly. As the Sole Sponsor, Sole Global Coordinator, Joint Bookrunner and Joint Lead Manager, the Group successfully assisted in the initial public offering and listing of Desun Real Estate Investment Services Group Co., Ltd. on the Main Board of the Hong Kong Stock Exchange. Meanwhile, the Group unwaveringly implemented its strategies on internationalisation and domestic-overseas integration with the support of its parent company, gradually restored the reserve of certain sponsorship and underwriting projects, and also maintained the development and follow-up of various types of financial advisory projects. The Group will actively increase the reserve of sponsorship and underwriting projects and be more involved in financial advisory projects in relation to mergers and acquisitions. It will also strengthen collaboration with the domestic team of its parent company in order to increase the potential client coverage of the corporate finance business.

### Equity capital market

In 2021, the equity capital market team actively deployed in selected key industries with increasing number and quality of underwriting projects involved. During the year under review, the Group completed 9 IPO underwriting projects, of which one was sole sponsored projects and 8 were non-sponsored underwriting projects. In accordance with the latest regulatory policy changes, the Group will continue to strengthen the construction of the equity capital market team, explore business opportunities in depth, expand sales network and enhance cooperation between domestic and overseas business teams to provide better and more comprehensive services to clients.

### Debt capital market

Benefitted from the collaboration between both domestic and overseas teams and the project accumulation in 2021, the Group completed a total of 64 bond issuance projects (including 62 underwriting projects and 2 financial advisory projects) during the year under review, including 47 state-owned enterprise and local government financing platform projects, 5 real estate projects, 9 financial institutional projects and 3 industrial projects, which assisted in the financing of US\$9,437 million, US\$840 million, US\$3,406 million and US\$620 million for clients, respectively. In face of the challenges and opportunities arising from the ever-changing offshore dollar bond market, the Group will continue to explore overseas bond issuance projects for quality enterprises, such as large-scale government-controlled enterprises and state-owned conglomerates, and continuously enhance the collaboration capabilities of domestic and overseas teams in an effort to increase its market share and revenue. In the meantime, the Group will continue to recruit professional personnel to keep on expanding the development of such an important business, the debt capital market.

### **REVIEW OF OPERATIONS** (Cont'd)

### **Institutional Services and Trading Business**

The institutional services and trading business mainly provides one-stop integrated financial services for institutional clients, such as global stock brokerage and trading, sales and trading of fixed income bonds, currencies and commodities, research advisory, and investment and financing solutions. It also uses its own funds or acts as a counterparty to institutional clients to engage in the trading of fixed income bonds, currencies and commodities, equity and equity-linked securities for proprietary and client orders, and provides sales, trading, hedging and over-the-counter derivative services to institutional clients.

	Fee and				Income from				
	commission income		Interest	Interest income investment business		Total			
	2021 HK\$'000	(Restated) 2020 HK\$'000	2021 HK\$'000	(Restated) 2020 HK\$'000	2021 HK\$'000	2020 HK\$'000	2021 HK\$'000	(Restated) 2020 HK\$'000	%
Fixed income, currencies and									
commodities	_	_	_	_	34,555	280,416	34,555	280,416	(88%)
Structured products	-	_	_	_	79,263	47,541	79,263	47,541	67%
Stock business	99,802	52,517	20,351	7,515	_	_	120,153	60,032	100%
	99,802	52,517	20,351	7,515	113,818	327,957	233,971	387,989	(40%)

In 2021, the China's dollar bond market was weak and volatile due to the impact from macro policies, industry regulation and frequent credit incidents of real estate enterprises in Chinese Mainland. In particular, the black swan incident of default by Fantasia Holdings in the third quarter triggered a crisis of investor confidence, resulting in a market crash and the largest drop in the history of the high yield bond market. After consideration of the capital cost and rate of return, high yield bonds, especially real estate bonds, were at a dominant position in the Group's trading portfolio, which was therefore subject to market volatility significantly. Under unfavorable conditions, the fixed income trading team has gained insight into market dynamics, adopted defensive strategies in advance, flexibly and dynamically adjusted positions, and actively reduced investment risks. Given the downturn performance of the China's dollar bond market in general, it dragged down the performance of the trading portfolio; however, the rate of return on investment of the trading portfolio still outperformed the annualised rate of return of China's high yield dollar bond market indicator of Bloomberg. At the same time, the Group also continued to expand its business scope by adding products such as currencies and repurchase/reverse repurchase and developing new business models such as currency-linked notes to enhance its risk hedging capabilities, better serve its clients, and meet the hedging and other transaction needs of various clients.

### **REVIEW OF OPERATIONS** (Cont'd)

### **Institutional Services and Trading Business** (Cont'd)

In 2021, the financial products team, which was established less than two years ago, continued to accelerate the pace of business development and became a new business profit highlight. The scale of leveraged notes financing nearly doubled year-on-year with continuously diversified product variety and business sources. During the year, the Group launched the back-to-back hedging over-the-counter business and continued to cooperate and collaborate with its domestic securities companies to open up a two-way north-south cross-border channel, and continuously enriched the types of underlying assets, covering overseas funds, China's offshore dollar bonds, A shares, Hong Kong shares, US ADRs and Chinese government bonds, etc., making it an important platform for the Group's cross-border business. The cross-border business expanded rapidly with significant results after the launch of northbound fixed income cross-border return swap transactions with Morgan Stanley and other foreign companies in the third quarter. In face of the credit turmoil of domestic real estate enterprises and the volatile China's high yield dollar bond market, the financial products team took active risk mitigation measures and maintained steady growth in business revenue. The Group will continue to actively promote the development and sales of structured products, explore structured notes projects with local government investment and financial bonds as underlying assets, at the same time carefully select other targets and underlying assets, increase the scale of low-risk back-to-back notes and return swap business to diversify its revenue sources and further expand the revenue contribution of the business.

During the year under review, the institutional services and trading business recorded income from investment business of HK\$114 million, representing a year-on-year decrease of 65%, mainly influenced by the performance of trading portfolio, but the rapid development of the capital intermediary business made up for part of the decline.

In terms of stock sales and trading, the Group continued to strengthen team building and promote trading system upgrade, deepen the collaboration with domestic resources and further leverage the complementary advantages domestically and overseas to explore and secure new clients, providing more diversified and comprehensive research resources, investment products and trading experience to new and existing clients. During the year under review, the fee and commission income from the institutional services and trading business amounted to HK\$99.8 million, representing a year-on-year increase of 90%, and interest income amounted to HK\$20.35 million, representing a year-on-year increase of 171%.

### **REVIEW OF OPERATIONS** (Cont'd)

### **Asset Management Business**

The asset management business mainly provides public fund management, private fund management, investment advisory and entrusted discretionary managed account services.

	2021 HK\$'000	2020 HK\$'000	%
Fee and commission income	28,809	12,213	136%

In 2021, the Group paid close attention to the latest regulatory policies and changes in demand for the Hong Kong asset management business of Chinese securities firms, so as to grasp the advantages of such policies in advance and develop innovative businesses. With outstanding cross-border product design capability, the Group has launched a number of cross-border innovative businesses which have received positive market response, showing remarkable results in optimising its layout and model transformation in the asset management business. During the year under review, the size of assets under management rose significantly, reaching HK\$12.497 billion as at the end of December, representing a year-on-year growth of 51%. The fee and commission income from the asset management business amounted to HK\$28.81 million, representing a year-on-year increase of 136%.

The Group will continue to consolidate its business development model with a focus on both fixed income and equity and leverage Hong Kong as the hub to push forward the development of the Greater Bay Area, while actively opening up various sales channels to expand the size of assets under management. The Group will seize the policy opportunities, expand the scope of the business, optimise its operating mechanism, improve management efficiency, coordinate with various businesses, make good use of the advantages of cross-border business and place an emphasis on developing actively managed products, so as to meet the needs of clients from different markets and strive to become the preferred cross-border asset management service provider for its clients.

#### **CAPITAL STRUCTURE**

As at 31 December 2021, the total number of the issued ordinary shares was 1,561,138,689 shares and total equity attributable to ordinary equity holders was approximately HK\$3.855 billion (31 December 2020: HK\$4.039 billion).

#### **DEBENTURES ISSUED**

On 27 January 2022, the Company issued unsecured and unguaranteed bonds in a principal amount of US\$200 million which is listed on The Stock Exchange of Hong Kong Limited. The bond carries a fixed interest rate of 1.5% per annum with a maturity period of 364 days. The principal will be fully repayable on the maturity date on 26 January 2023.

Please refer to the Company's announcement on 21 January 2022, 27 January 2022 and 28 January 2022 for details of the issuance of bonds.

#### TREASURY POLICIES

The Group generally finances its business operations with internally generated cash flow and bank borrowings. The Group's banking facilities are mainly renewable on a yearly basis and are on floating interest rates basis. In addition, it has been the policy of the Group to maintain adequate liquidity at all times to meet its liabilities as and when they fall due.

### LIQUIDITY, FINANCIAL RESOURCES AND GEARING RATIO

As at 31 December 2021, the Group had a cash holding of HK\$577 million (2020: HK\$415 million) and financial assets at fair value through profit or loss of HK\$6,106 million (2020: HK\$3,618 million). As at 31 December 2021, the Group's total unutilised banking facilities amounted to HK\$7,353 million (2020: HK\$4,417 million), of which HK\$7,353 million (2020: HK\$4,417 million) could be drawn down without the need of notice period or completion of condition precedent.

As at 31 December 2021, the Group had outstanding short-term bank borrowings amounting to HK\$3,501million (2020: HK\$4,272 million). The liquidity ratio (current assets to current liabilities) and gearing ratio (borrowings to net asset value) as at 31 December 2021 were 115% (2020: 125%) and 91% (2020: 106%) respectively.

The Group has sufficient financial resources for its day to day operations as well as spare capacity to take advantage of any investment opportunities when they arise.

### SIGNIFICANT INVESTMENT HELD, MATERIAL ACQUISITION AND DISPOSAL

During the year, the Group did not hold any significant investment and did not have any material acquisition or disposal.

### **CHARGES ON THE GROUP'S ASSET**

No asset of the Group was subject to any charge as at 31 December 2021.

#### **RISK MANAGEMENT**

The Group has properly put in place credit management policies which cover the examination of the approval of clients' trading and credit limits, regular reviews of facilities granted, monitoring of credit exposures and the follow up of credit risks associated with overdue debts. The policies are reviewed and updated regularly.

The management closely monitors the market condition so that precautionary measures will be taken to eliminate any risk that the Group may encounter. As at 31 December 2021, the advances to customers were overdue accounts receivable from cash clients, margin financing and structured products.

As at 31 December 2021, the balance of overdue accounts receivable from cash clients and margin financing amounted to HK\$27 million (2020: HK\$28 million) and HK\$2,556 million (2020: HK\$2,356 million), respectively.

43% (2020: 27%) of margin financing was attributable to corporate customers with the rest attributable to individual customers.

### **EXPOSURE TO FLUCTUATIONS IN EXCHANGE RATES AND ANY RELATED HEDGES**

The Group's exposure to fluctuations in exchange rates arises from its dealings in overseas share markets. Such dealings are entered into on behalf of clients of the Group and accounted for a small portion of the Group's revenue. A material portion of such overseas transactions is denominated in United States dollars. The pegged exchange rate between United States dollars and Hong Kong dollars kept the Group's exchange risk exposure to a minimum and thus, no hedging was required. Exchange gains and/or losses are dealt with in the consolidated statement of profit or loss. The Group has endeavored to closely monitor its foreign currency positions and take measures when necessary.

### **CONTINGENT LIABILITIES**

There were no material contingent liabilities as at 31 December 2021.

#### **FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS**

Except the future plans as disclosed in the paragraph of "Future Plan & Prospects", the Group had no other future plans for material investments or capital assets as at 31 December 2021.

### **EMPLOYEES**

As at 31 December 2021, the total number of full-time employees was 303 (2020: 269). The total staff costs for the year amounted to approximately HK\$266 million (2020: HK\$280 million).

The Group maintains policies for the recruitment, compensation, promotion and training of staff. Pay surveys are conducted periodically by independent consultants appointed by the Group to maintain the Group's competitiveness in the market. With reference to market conditions, the Group will formulate relevant and proper remuneration and incentive plans to attract and retain talent. The Group supports equal opportunities and recruits competent candidates globally.

#### 1. ABOUT THIS REPORT

The Group came and commenced business in the financial industry of Hong Kong in 1993. Our continuous development and delivery of positive financial outcomes since then are not possible without the past unfailing contribution and support from our stakeholders, including shareholders, employees, customers and suppliers. Our sustainable development in future will also continue to rest on these valued stakeholders. Their concerns are also our concerns. We have been working hard on social and governance issues in the past few years. As environmental issues and climate change become imminent global concerns too, we shall commence to address them too in this year report.

We need to run our business in a responsible and sustainable way, by taking into account the long-term impact of environmental, social and governance ("ESG") issues on our company, our people, our supply chains, the communities and environment in which we and our customers work and live.

In this report, you will find out how we identify important ESG issues, how we formulate initiatives to minimize the impact of these ESG issues, and how we measure our performance against pre-set quantitative goals wherever appropriate and necessary.

The reporting period is from 1 January 2021 to 31 December 2021 (the "Reporting Period").

### 1.1 Principles of Reporting

The following principles have been adopted in the preparation of this Report:

**Materiality:** This Report covers ESG information that the Group considers important, and the ESG Committee has conducted screening and materiality assessment in order to identify the material ESG issues.

**Quantitative:** This Report provides the relevant calculation criteria, methods as well as assumptions used in preparing the quantifiable key performance indicators have been disclosed appropriately.

**Consistency:** Unless otherwise specified, the Group has applied consistent statistics compilation methods to prepare and disclose the ESG data for comparison by readers.

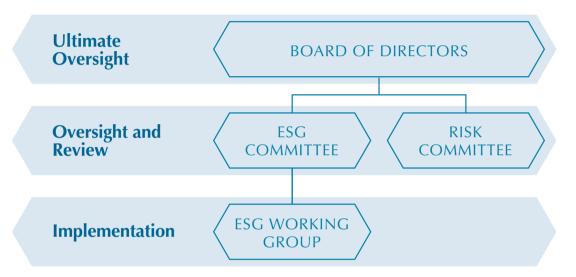

#### 1.2 Reporting Boundary

Unless otherwise specified, the scope of this Report covers the operations of the Company and its subsidiaries (with the exception of those Segregated Portfolio Companies and overseas representative offices) in their offices located in Hong Kong, including brokerage business, corporate finance business, asset management business, financing and loans business, and investment and other business. The respective assets under management ("AUM") and scale of operation of the Segregated Portfolio Companies and overseas representative offices are small as compared with those of the Group. The Group will consider expanding the scope of this Report when necessary.

### 2. HOW WE APPROACH ESG CONCERNS

### 2.1 Governance Structure

In 2021, the Board took the initiatives to delegate different level of taskforces specialized in handling ESG related matters. In this regards, the following ESG governance structure was established:

The Board has overall responsibility for the oversight of the Group's ESG-related issues. It delegates the ESG Committee to oversee and review important strategies and policies. The ESG Committee is currently composed of three executive directors and two independent non-executive directors.

An ESG Working Group is formed to implement and execute the Group's ESG-related strategies and policies. It is composed of heads of related functional departments.

ESG-related risks have been included/to be included into the Group's risk management system. The Risk Committee is responsible for identifying and reviewing from time to time the ESG-related risks, to ensure the Group has appropriate and effective risk management and internal control systems.

### 2.2 Identification of Material Agenda

### **IDENTIFY**

### Shortlist and identify material ESG issues from:

- a. ESG Reporting Guide issued by HKEx
- b. Sustainability Accounting Standards Board's Materiality Map®
- c. industry trends
- d. peer benchmarking
- e. opinions of the Group's stakeholders
- f. the Group's ESG approach, corporate values and development strategies
- g. previous materiality assessments, if any

### **PRIORITIZE**

### Sending questionaires to internal and external stakeholders

### Shorten the list by evaluating the results through:

- a. using the matrix of importance rating by internal and external stakeholders
- **b.** aligning with the Group's strategies and targets

### **CONFIRM**

### **Engage the Board in:**

- a. finalising the material ESG issues
- b. embedding the impacts of identified ESG issues in strategy formulation process

There are vast numbers of ESG issues require the world to deal with urgently. With limited resources, the Group prioritized those issues which we and our stakeholders agree to be more important. We shortlisted the candidates of ESG agenda by referring to the Appendix 27 of the Hong Kong Listing Rules, the Environmental, Social and Governance Reporting Guide ("ESG Reporting Guide"), the Sustainability Accounting Standards Board's Materiality Map®, industry trends, peer benchmarking, the opinions of stakeholders of the Group, and the Group's ESG approach, corporate values and development strategies, etc.. As a result, we identified and defined the following 33 ESG agenda:

Area	ESG Agenda Candidates
	1. Paper consumption
	Waste generation and management
Environmental	3. Energy conservation
	4. Greenhouse gas emissions
	5. Climate change initiatives
Climate Change	6. Green finance/responsible investment
C	7. Caring for society
Social	8. Targeted poverty alleviation
	9. Employee health and safety
	10. Work-life balance
	11. Diversity and equal opportunities
Fundamos	12. Employee relations and communications
Employees	13. Employee benefits
	14. Labour standards
	15. Employee development and training
	16. Improvement of working environment
	17. Customer privacy
	18. Customer services
	19. Customer complaints/enquiries
Customore	20. Fair and responsible marketing communication and information
Customers	21. Advertising, labelling and sales
	22. Information security
	23. Products and services
	24. Product responsibility
	25. Supply chain management
Suppliers	26. Protection of intellectual property rights
	27. Anti-corruption
	28. Corporate governance
Composate	29. Entrepreneurship
Corporate Governance	30. Innovation
	31. Compliance with laws and regulations
	32. Corporate culture development
Others	33. Stakeholders communication

Then we sent out questionnaires to our selected external stakeholders, asking them to rate each of these 33 ESG agenda according to their perceived importance. Our management was also requested to do the same exercise.

After collecting all these ratings, we further shorten the list from 33 to 7 agenda issues by using the matrix of importance rating by these internal and external stakeholders. Some minor adjustments were made after considering the need to align it with the Group's strategies and targets. Finally, besides the standard "comply or explain" disclosures issues as listed in Appendix 27 of the Listing Rules, we also identified the following 7 agenda issues for ESG Committee's review, and 4 of which were confirmed by the Board as "material ESG issues" to be addressed by the Group in the coming years:

Shortlisted ESG agenda issues	Material ESG Issues confirmed by the Board
Fair and responsible marketing communication and information	✓
Information security	✓
Employee benefits	✓
Compliance with laws and regulations	✓
Customer services	
Work-life balance	
Advertising, labelling and sales	

In the following chapters of Chapter 3: Our Environment, Chapter 4: Our Workforce, Chapter 5: Operating Practices and Chapter 6: Our Community, we shall list out the abovementioned ESG issues one by one and then report how we formulate initiatives to minimize the impact of these ESG issues and measure our performance against pre-set quantitative goals wherever appropriate and necessary.

#### 3. OUR ENVIRONMENT

In 2021, the Group committed to manage its operations in an efficient and sustainable manner, and we continually look for opportunities to improve our environmental performance by reducing our use of energy and other resources.

Being a financial services institution, our direct environmental impacts overwhelmingly result from energy use and associated greenhouse gas ("GHG") emissions by our offices. Other environmental impacts result from the use of company car, paper consumption and disposal of information technology ("IT") equipment.

In 2021, the Board set the 2021 target(s) for GHG emissions, energy consumption as well as paper consumption and disposal. The targets are aggressive as they are arrived at by comparing the projected 2021 performance figures based on the year-on-year growth rate for 2020 with the projected full year performance figures based on the actual figures for the first four months of 2021, whichever is lower (the "2021 Target(s)").

### 3.1 Efficient Use of Resources and Waste Management

### 3.1.1 GHG Emissions

Our Group generates GHG directly through the Group's company car and indirectly through electricity and paper consumption in our office facilities. We have committed to reduce our GHG emissions by way of setting target(s) for 2021. Striving for achieving the target(s), we have monitored the energy use of the Company regularly, identified the areas of energy reduction, and provided energy consumption reports to all departments to encourage emission reductions.

In 2021, the direct GHG emissions generated by the Group's company car amounted to 6 tonnes of carbon dioxide<sup>1</sup>, approximately 21% increase from last year. It was higher than the 2021 Target(s) of 1.66 tonnes. This target is aggressive as it was arrived at by projecting the abnormally low figure of 2020 due to the outbreak of COVID-19 to 2021.

Calculated on the basis of the "Guidelines to Account for and Report on Greenhouse Gas Emissions and Removals for buildings in Hong Kong", as drawn up by the Electrical and Mechanical Services Department and the Environmental Protection Department.

For indirect GHG emissions generated by the Group's electricity consumption and paper consumption amounted to 603.2 and 31.3 tonnes of carbon dioxide<sup>1</sup> respectively. We have reduced the total amount of GHG emissions of Group's electricity consumption by about 1.4% compared with the 2021 Target(s) due to consolidation of server facilities. For non-recycling paper consumption, we have reduced the total amount of GHG emissions by about 14.4% as compared with 2021 Target(s) as result of an increase in recycling of paper in 2021.

	2021		
GHG Emissions <sup>a,b</sup>	Target(s)	2021	2020
Total GHG emissions <sup>c</sup> (Scope 1 and 2)			
(tonnes)		609.20	628.94
Total GHG emissions (Scope 1 and 2)			
per unit floor area (tonnes/m²)		0.142	0.140
Total GHG emissions (Scope 1 and 2)			
per employee (tonnes/employee)		1.48	1.62
Total GHG emissions (Scope 1, 2 and 3)			
(tonnes)		640.50	666.05
Total GHG emissions (Scope 1, 2 and 3)			
per unit floor area (tonnes/m²)		0.150	0.148
Total GHG emissions (Scope 1, 2 and 3)			
per employee (tonnes/employee)		1.55	1.72
Direct GHG emissions (Scope 1) (tonnes)			
Company car	1.66	6.00	4.94
Indirect GHG emissions (Scope 2) (tonnes)			
Electricity	612.00	603.20	624.00
Indirect GHG emissions <sup>d</sup> (Scope 3) (tonnes)			
Paper waste (deducted recycling of paper)		31.30	37.11
GHG emissions avoided by recycling of			
paper (tonnes)		11.66	9.44

- a Unless otherwise specified, the environmental data covers the Group's operation in Hong Kong region only.
- b Due to the Group's business nature, the most significant airborne emissions are GHG emissions, arising mainly from the use of electricity and fuels derived from fossil fuels.
- c GHG emissions data is presented in carbon dioxide equivalent and was based on the reporting requirements of the "Guidelines to Account for and Report on Greenhouse Gas Emissions and Removals for Buildings (Commercial, Residential or Institutional Purposes Hong Kong)" issued by the Electrical and Mechanical Services Department and the Environment Protection Department in Hong Kong.
- d The Group currently does not report on emission data relating to air travel. We plan to disclose this information in future reports.

### 3.1.2 Energy Consumption

Energy consumption accounts for a major part of the Group's GHG emissions. Various energy saving measures were implemented in 2021 to improve operational efficiency and to reduce energy consumption of the Group. Further to the energy saving measures of 2020, the Group continued to adopt high energy efficient office equipment for its departments.

In order to achieve the target to improve the efficiency of electricity consumption and reduce the GHG emissions, we have installed the energy efficient system, such as motion sensor lighting devices in the new office to improve the efficiency of usage of energy.

Energy Consumption <sup>a,e</sup>	2021 Target(s)	2021	2020
Total energy consumption <sup>f</sup> (MWh)	905.76	890.15	933.19
Total energy consumption per floor area			
$(MWh/m^2)$		0.210	0.207
Total energy consumption per employee			
(MWh/employee)		2.16	2.41

e Energy consumption data is based on the amount of electricity and fuels consumed.

### 3.1.3 Water Consumption

In Hong Kong, the Group operates in leased office premises in which both the water supply and discharge are solely controlled by the building management offices which considers the provision of water withdrawal and discharge data or sub-meter for individual occupant not feasible. As such, our water consumption figures are unable to obtain and be monitored.

### 3.1.4 Paper Consumption and Disposal

The Group continues to use FSC (Forest Stewardship Council) certified printing paper, i.e. paper made of responsibly sourced wood fibre wherever possible. In 2021, approximately 99% of the paper we used was FSC certified printing paper.

The Group continues to strive to reduce the use of paper for statement of clients by encouraging clients to opt for electronic statements instead of paper statements. For office paper, we continue to implement smart printing and photo-copying methods in our workplaces.

f Energy consumption is calculated in megawatt-hours, or MWh.

In 2021, the office paper consumption amounted to 7.3 tonnes, approximately 5.5% increase from last year. It is slightly higher than the 2021 Target(s) of 6.78 tonnes. The paper for statement of clients amounted to 1.66 tonnes, approximately 40% decrease from last year. It exceeds the 2021 Target(s) of 1.05 tonnes. Presently, the actual paper usage figures are still not available. As such, such targets were set on the basis of the total volume of paper purchased, rather than used, during the first four months of 2021. For this reason, the 2021 Target(s) were under-estimated. On the other front, during the Reporting Period, there is an increase in waste paper collected for recycling purpose by approximately 23% from 1.97 tonnes in 2020 to 2.43 tonnes in 2021.

In 2021, we continued to arrange vendors to collect our used paper for recycle purpose. The Group was awarded the "Wastewise Certificate" issued by the Hong Kong Green Organization Certification (HKGOC) in recognition of our contribution on waste reduction.

In order to achieve the target to increase the total amount of recycle for non-hazardous waste, we have set up waste paper recycling bins for collection of waste paper in each office to encourage colleagues to recycle and turn waste into materials. The vendor will collect the waste paper on a regular basis.

Paper Consumption <sup>a</sup>	2021 Target(s)	2021	2020
Total paper consumption <sup>g</sup> (tonnes)	7.83	8.96	9.70
Office paper	6.78	7.30	6.92
Paper for statement of clients	1.05	1.66	2.78
Recycling of paper		2.43	1.97
FSC certified paper used (%)		99%	99%

g Includes paper used for printing customer financial statements, proposals and office documents.

### 3.1.5 Hazardous Waste

No hazardous waste was generated in connection with the Group's business.

However, the use and disposal of IT equipment such as computers and servers is another focus of our operational sustainability efforts. IT hardware has a range of potential environmental impacts across its life cycle from production and use to eventual disposal. The Group has again committed to extend the lifespan of IT equipment by donating the unused equipment to non-profit making organisations. All IT equipment we recycled or donated has passed our strict data security tests. All hardware and software used for business or operational purpose are copyrighted and in accordance with the requirements of protection of intellectual properties.

Going forward, we will adopt different energy and paper conservation measures as well as other initiatives to reduce GHG emissions and non-hazardous wastes.

### 3.2 Climate Change Risk and Mitigation

The climate change risk that the Group is exposed to is overwhelmingly transformation risk. From now on towards 2060, major global economies will make tremendous efforts to strive for carbon neutrality. It means very significant changes going to take place in a lot of areas such as regulatory requirements, shift from fossil based energy consumption, technology developments and industry practices. The extent of these changes may not been seen in human history. The impact on our real economy and financial markets may also be huge and cannot afford to be underestimated. For example, high-carbon emitting industry will suffer from higher production and compliance cost, resulting in lower return and asset devaluation. As investment and lending are two of the principal businesses of the Group, the Group will enhance its analysis on climate change risks as one of the prioritized objectives in its risk management agenda. Moreover, it will endeavor to monitor and evaluate the impact on the financial position of the Group brought along by the climate change.

To address climate change, we will step up efforts in green finance. The Group when making its investment or lending or other business activities decisions, it will put more emphasis on green and low-carbon industries. The green and low-carbon industries including clean energy, low carbon technology, green building, green traffic and transformation of high-carbon industry to a low one will be our focus.

This year, the Group began to implement its strategies and objectives regarding climate change by participation in green finance. In 2021, the Group invested in 98 green bonds for approximately HK\$1.325 billion equivalent.

### 4. OUR WORKFORCE

### 4.1 Employee Composition

The Group maintains policies for the recruitment, compensation, promotion and training of staff. Pay surveys are conducted periodically by independent consultants appointed by the Group to maintain the Group's competitiveness in the market. With reference to market conditions, the Group will formulate relevant and proper remuneration and incentive plans to attract and retain talent. The Group supports equal opportunities and recruits competent candidates globally.

The Group was awarded the "Family-Friendly Employers" designation by the Family Council in recognition of our value and continues to provide a pro-family culture and environment to our employees.

<b>Employees Composition</b>	2021	2020
Total number of employees <sup>h</sup>	303	269
By gender

Total number of employees includes employees stationed in Hong Kong, Chinese Mainland and other regions.

### 4.2 Employee Benefits

The Group shows great concerns on employees' remuneration and benefit package, pay and benefit surveys are conducted periodically by independent consultants appointed by the Group to maintain the Group's competitiveness in the market. With reference to market conditions, the Group will formulate relevant and proper remuneration and incentive plans to attract and retain talent.

The Group has formulated employee dismissal or voluntary termination policy which is stipulated in our HR Policies and Procedural Manual. The policy strictly complies with the termination/dismissal requirements of Employment Ordinance in Hong Kong.

Employee performance review is an important part of the Group's talent development. The Group will conduct performance review for each employee every year. The result will be an important factor for formulating employees' incentive plan, learning & development, promotion and retention of talents.

The Group cares employees' opinion, it encourages employees to express their opinions at work to promote effective and two-way communication channels. In addition, the Group regularly holds team building activities, to increase communication channels between the Group and its employees, and to enhance their sense of belonging towards the Group.

### 4.3 Health and Safety

The Group is committed to providing a healthy and appropriate workplace for employees. We conducted an assessment on our offices with regard to the "Code of Practice for Working with Display Screen Equipment" in order to ensure compliance with the "Occupational Safety and Health (Display Screen Equipment) Regulations".

In response to the outbreak of the COVID-19 pandemic, the Group is aware of the importance of the health of employees. The Group has taken actions to strengthen the health and safety precautionary measures in the offices, to ensure its employees to work in a healthy and safety workplace. Apart from increasing the frequency of office cleaning and sterilization in office areas, all employees and guests are required to wear surgical face masks at the office and check their body temperature every day, the Group provides sufficient sterilized materials to its employees, such as surgical face masks and hand sanitizer.

2021	2020	2019

### 4.4 Development and Training

Development and training is an ongoing process to ensure the continued enhancement of the skills and knowledge of employees. The Group has training policies and organises various training programmes to improve the skills of its employees and to increase the professionalism and efficiency of the Group. Employees are provided with on-the-job training throughout their employment with the Group. The Group also has policies for employee development. In compliance with the requirements of the Securities and Futures Commission, the Group organised a total of 18 Continuous Professional Training seminars for all licensed staff members for the year ended 31 December 2021.

<b>Development and Training</b>	2021	2020

### 4.5 Labour Standards

To maintain good employee relations, the Group is committed to providing a workplace free from discrimination and harassment in any form and to providing equal opportunities for all employees. All employees are made aware of the Group's employment policies and guidelines, which are in compliance with relevant laws and regulations. Staff regulations, employment terms and staff benefits can be accessed by all staff members in the Human Resources Manual put on the Group's intranet.

The Group regularly reviews its recruitment practices to ensure complying with the Employment Ordinance and other regulations on child and forced labor. As at 31 December 2021, the Group has no relevant issue.

#### 5. OPERATING PRACTICES

### 5.1 Supply Chain Management

The Group selects reliable vendors, agencies and third party financial institutions (each a "Supplier" and collectively, the "Suppliers") to support its business operations, and is committed as much as possible to conducting business only with Suppliers that act in a socially responsible manner and within ethical expectations. The Group will take into account, among other things, reputation, track record of high corporate standards, expertise and capacity in the process of selecting the qualified Supplier. In addition, appropriate management approval is required to obtain before entering into any contracts with a Supplier. Such procedures aim at promoting operational efficiency, implementing segregation of duties and to ensure making the best decision.

The Group adopts the Authorized Vendor Evaluation Procedures to establish the cooperative partnership with Suppliers. Those Suppliers who provide environmentally friendly products, or operate their business in an environmentally friendly manner, will become one of our evaluation criteria. In the vendor selection process, only approved Suppliers can participate in tender or quotation exercises, and all authorized vendors will be assessed by the vendor evaluation regularly.

Moreover, in order to reduce the negative impacts on the environment and society, the Group will purchase and use more sustainable and efficient products and services. For example, we will procure the electrical appliances with higher energy efficiency and eco-friendly toner cartridges. Those Suppliers with environmental certifications or caring company qualifications will win priority consideration.

Supply Chain Management	2021	2020
Number of key suppliers <sup>i</sup>	207	175
By region	140	110
Hong Kong Chinese Mainland	142 10	118
Others	55	48

i The definition of "key suppliers" refers to suppliers of products and/or services to the Group whose contract sum exceeded HK\$1,000 (or its equivalent)

### 5.2 Responsibilities Towards Products and Services

5.2.1 Fair and Responsible Marketing Communication and Information

As a financial business operator, the Group's objective is to provide transparent and unbiased disclosure in our products and services to customers, which is in line with the regulatory requirements and market practices.

Prior to tendering products or services, staff shall study the relevant product materials and documents, and clearly understood the structure and risks associated with the product. These materials and information must be clearly communicated to customers before accepting the orders. Also, staff shall ensure the suitability of the recommendation or solicitation for the customer is reasonable in all the circumstances.

All fees and charges relating to securities services are clearly disclosed on the Company's website and in the relevant documents. Other required disclosure such as risk disclosure statements and conflict of interests (if any) as well as marketing materials on the products or services are reviewed by the Legal Department and the Compliance Department to ensure accuracy and reliability.

These procedures, from preparation of marketing materials and relevant documents to accepting customers' orders, are set out in our internal policies and guidelines, and in line with the regulatory requirements.

The Group has various means of communication channels to manage customers' enquiries, such as a toll-free customer service hotline and FAQs on operational matters on its website. Any complaint lodged will be handled by the Compliance Department and it will conduct investigation if necessary. Complaint with material regulatory compliance implication, if any, will be assessed and referred to relevant regulatory authorities for further investigation.

### 5.2.2 Client Information Security

In recent years, the business diversification of the Group has enhanced. With business processes becoming more complex and diverse, data volumes has expanded rapidly and data sensitivity has increased, placing higher demands on the physical security and network security of information systems and posing challenges to the planning, development, operation and continuous upgrade of information systems.

- 1. Establish a comprehensive enterprise information security system: The Group continues to carry out information technology construction development, covering various businesses, control processes and links, and has implemented data security links among each system through integration to ensure data security during collection, storage, transmission, processing and use. At the same time, the Group actively promotes the planning, design and implementation of information security and also establishes a complete information security system by formulating information security policies, policies on the use of end-user computers and operating regulations for various systems.
- 2. Establish a comprehensive information security technology system: The Group adopts intelligent security protection devices and mechanisms for automatic detection of threats and enhances lower layer network security through infrastructure construction such as intrusion detection, security prevention and physical isolation; increases the security audit level by strengthening user authentication, authorization and audit security granularity; and continuously optimizes the Group's information security management system to ensure effective implementation. Through the centralized information security technology control mechanism, we have strengthened the security protection of customers' personal sensitive information, prevented external malicious intrusion, reduced information security risks and protected the security of the Group's information systems and information assets.
- 3. Enhance staff's awareness on information security: The Group regularly conducts network security training and assessment for staff to enhance their understanding and awareness of network security risks.

### 5.2.3 Product Responsibility

During the year, the Group was not aware of any incidents of non-compliance with relevant regulations and codes concerning advertising and privacy matter for the provision and use of the Group's products and services.

The Group has in place procedures relating to the services and products provided. To suit the client's needs, the financial services or products provided to clients are based on their financial background, trading experience and risk tolerance level after the "Know Your Clients" procedures and assessment processes were performed. We are committed to providing clear and balanced information to clients. Product features, terms and conditions, and any associated risks are clearly communicated to ensure clients can make an informed decision. Moreover, the Group has set standards for advertising and sales literature which require information contained in all advertising and sales literature must be factual and which prohibit the use of false, misleading or inaccurate statements in any forms of communication.

In addition, the Group emphasises the importance of protecting the privacy of its clients and complies with the provisions of the Personal Data (Privacy) Ordinance in the collection, processing and use of client's personal data. Specific processes for the handling and protection of client data are set out in the relevant internal procedure manual. The Group will, where appropriate, include terms about the confidentiality of client data to avoid disclosure of client information and protect client privacy. During the year, the Group did not receive complaints from clients in relation to disclosure of information.

The Group has established policies to provide guidance to customer complaints handling procedures. At present, the Compliance Department is responsible for handling customer complaints.

<b>Product Responsibility</b>	2021	2020
Number of complaint(s) handled	1	1

### 5.3 Compliance with Laws and Regulations

### 5.3.1 General

The Group recognises that compliance with applicable laws and regulations with regard to the ESG issues are of great importance to its operations and the Group is also aware that any breaches of laws and regulations would have a significant impact on the operations, performance, financial position and reputation of the Group. Hence, the Group has in place stringent internal policies and monitoring measures to ensure compliance with applicable laws and regulations. The Group also keeps abreast of the latest regulatory development and provides relevant trainings for relevant staff and employees from time to time.

During 2021, the Group was not aware of any material breach, infringement of or non-compliance with, the applicable laws and regulations that have a significant impact on the businesses and operation of the Group.

### 5.3.2 Anti-corruption

The Group maintains and effectively implements a comprehensive system of internal control and stringent policies, which include Compliance Manual and Employee Whistleblowing Procedures on Financial Reporting and Internal Control Improprieties, for anti-corruption and anti-fraud, and is committed to promoting integrity and preventing unethical behaviour. We encourage the reporting of suspected business irregularities by providing easily accessible channels specifically for this purpose.

When suspected wrongdoings are identified, such as breach of duty, abuse of power, receiving bribes, staff can report to the Chairman of Audit Committee or Head of Internal Audit for investigation and resolution. The Internal Audit Department will then carry out an investigation and verification, and report to the regulator or law enforcement authority when considered necessary.

Moreover, the Group has policy sets forth procedures for client's acceptance by conducting "Know Your Clients" procedures to understand the background and financial status of the clients. We will perform name searches to check whether a client is or is related to a politically exposed person who may present a higher bribery and corruption risk. Procedures are put in place to identify and mitigate the aforementioned risks. Clients will be refused of our services when considered to be suspicious.

The Group is committed to adhering to the highest ethical standards. During the year, no significant risks relating to corruption were identified. There were no confirmed incidents of corruption or public legal cases brought against the Group or its employees concerning corruption. The Group will continue to comply with ethical requirements and upholds its reputation to prevent corruption.

During the year, the Group has provided anti-corruption seminar covering relevant anti-corruption legislations to the board of directors.

Anti-Corruption	2021	2020
Number of concluded legal cases regarding corrupt		
practices brought against the issuer or its employees	0	0

### 6. OUR COMMUNITY

### 6.1 Social Services

In terms of community involvement, the Group is committed to contributing to the community and fulfilling its corporate social responsibility undertakings. We support long-term community investment by establishing community partnerships and supporting lower-income families.

In 2021, the Group continued its cooperation with Chinese Young Men's Christian Association (YMCA) of Hong Kong during Covid-19 epidemic, participated in various charitable and care activities, including organizing Achievement Progress Award to the Primary Students and donating face masks and other protective items to the moderately mentally handicapped persons.

We hope not only to help people in need through our social activities, but also to cultivate in our employees the spirit of care and community contribution.

In 2021, the Group was once again awarded the "5 Years Plus Caring Company" designation by the Hong Kong Council of Social Service in recognition of our approach and continuous contribution to the community.

Going forward, we will continue to join charitable events for helping people in need as well as environmental purpose.

<b>Community Engagement</b>	2021	2020

### CORPORATE GOVERNANCE REPORT

To improve the Company's transparency and accountability to the shareholders, the Company is, so far as practicable, committed to maintaining high standard of corporate governance. The Company has met all the code provisions stipulated in Appendix 14, Corporate Governance Code and Corporate Governance Report (the "Code"), of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") throughout the year ended 31 December 2021.

#### CORPORATE GOVERNANCE PRINCIPLES AND SHENWAN HONGYUAN'S PRACTICES:

#### A.1 The Board of Directors

Principle: An issuer should be headed by an effective board which should assume responsibility for its leadership and control and be collectively responsible for promoting its success by directing and supervising its affairs. Directors should take decisions objectively in the best interests of the issuer.

The board should regularly review the contribution required from a director to perform his responsibilities to the issuer, and whether he is spending sufficient time performing them.

Six board meetings and one general meeting, being the annual general meeting held on 21 May 2021, were held by the Company in the financial year ended 31 December 2021. Attendance record of each individual director is as follows:

Name of Directors	Number of board meeting(s) attended/held	Number of general meeting(s) attended/held
Executive Directors		
Fang Qingli (Chairman)		
(resigned on 26 October 2021)	5/5	1/1
Wu Meng (Chairman)	6/6	1/1
Guo Chun (Deputy Chairman)	6/6	1/1
Zhang Jian	5/6	0/1
Qiu Yizhou (Chief Executive Officer)		
(resigned on 12 June 2021)	4/4	1/1
Liang Jun (Chief Executive Officer)		
(appointed on 12 June 2021)	2/2	N/A
Non-executive Director		
Zhang Lei	4/6	1/1
Independent Non-executive Directors		
Ng Wing Hang Patrick	6/6	1/1
Kwok Lam Kwong Larry	6/6	1/1
Chen Liqiang	6/6	1/1

Drafts of the agenda were sent to directors for comments before the meetings were held. They could include matters in the agenda for board meetings.

Notice of at least 14 days were given of a regular board meeting to give all directors an opportunity to attend. For all other board meetings, reasonable notice was given.

Minutes of the board meetings, and meetings of the Audit Committee, the Remuneration Committee, the Nomination Committee, the Risk Committee and Environmental, Social and Governance Committee are kept by the Company Secretary. Minutes of other board committees (as listed under D.2 Board Committees) are kept by the appointed Secretary of each committee. Such minutes are open for inspection during office hour by any director by giving at least 2 days' notice to the Company Secretary.

Minutes of the board meetings and meetings of board committees have recorded in sufficient detail the matters considered and decisions reached, including any concerns raised by directors or dissenting views expressed. Draft and final versions of minutes were sent to all directors for their comment and records respectively, normally within one month after the board meeting was held.

The Company established a policy for any director to seek independent professional advice in appropriate circumstances, at the Company's expenses. The director is required to submit a request in writing to the Chairman stating the grounds for seeking the independent professional advice. The Chairman shall either approve the director's request directly, or if thinks fit, convene a board meeting to resolve the matter.

If a substantial shareholder or a director has a conflict of interest in a matter to be considered by the Board which the Board has determined to be material, the matter shall be dealt with by a physical board meeting rather than a written resolution. Independent non-executive directors who, and whose close associates, have no material interest in the transaction should be present at that board meeting.

The Company has arranged appropriate insurance cover in respect of legal actions against its directors. The coverage and the amount insured under such policy are reviewed annually by the Company.

#### A.2 Chairman and Chief Executive

Principle: There are two key aspects of the management of every issuer — the management of the board and the day-to-day management of business. There should be a clear division of these responsibilities to ensure a balance of power and authority, so that power is not concentrated in any one individual.

To ensure a balance of power and authority, the role of Chairman is separate from that of Chief Executive Officer. Mr. Fang Qingli acted as the Chairman until he resigned on 26 October 2021 and was succeeded by Ms. Wu Meng since then. Mr. Guo Chun acts as Deputy Chairman. Mr. Qiu Yizhou acts as Chief Executive Officer until he resigned on 12 June 2021 and Mr. Liang Jun acted as the Chief Executive Officer since then.

The respective responsibilities of the Chairman, Deputy Chairman and Chief Executive Officer are clearly established. The Chairman is responsible for providing leadership for and the management of the Board, the Deputy Chairman is responsible to assist the Chairman in leading and managing the Board whilst the Chief Executive Officer is responsible for the day-to-day management of the Group's business including the implementation of significant strategies formulated by the Board.

The Chairman ensured that all directors were properly briefed on issues arising at board meetings.

The Chairman is responsible for ensuring that directors receive, in a timely manner, adequate information which must be accurate, clear, complete and reliable.

The Chairman ensured that the Board works effectively and performs its responsibilities, and that all key and appropriate issues are discussed by it in a timely manner. The Chief Executive Officer and Company Secretary assisted the Chairman in preparing agenda for each board meeting and all directors have been consulted about any matters proposed for inclusion in the agenda.

The Chairman ensured that the Board and the management of the Company are committed to the maintenance of good corporate governance practices and procedures.

Directors are encouraged to express their viewpoints to the Board's affairs and voice their concerns, if any, and are provided sufficient time for discussion of issues in the meetings and the Chairman directs discussions towards the emergence of a consensus view and then sum up discussions so that all directors understand what has been agreed.

During the financial year ended 31 December 2021, the Chairman held a meeting with the independent non-executive directors without the presence of other directors.

The Chairman ensured that appropriate steps are taken to provide effective communication with shareholders and that their views were communicated to the Board as a whole. The Board has established a shareholders communication policy which is available on the Company's website.

### A.3 Board Composition

Principle: The board should have a balance of skills, experience and diversity of perspectives appropriate for the requirements of the issuer's business. It should ensure that changes to its composition can be managed without undue disruption. It should include a balanced composition of executive and non-executive directors (including independent non-executive directors) so that there is a strong independent element on the board, which can effectively exercise independent judgement. Non-executive directors should be of sufficient calibre and number for their views to carry weight.

During the financial year, the composition of the Board of the Company with their respective names and titles are set out below:

#### **Executive Directors**

Fang Qingli (Chairman) (resigned on 26 October 2021)
Wu Meng (Chairman)
Guo Chun (Deputy Chairman)
Zhang Jian
Qiu Yizhou (Chief Executive Officer) (resigned on 12 June 2021)
Liang Jun (Chief Executive Officer) (appointed on 12 June 2021)

#### **Non-executive Director**

Zhang Lei

#### **Independent Non-executive Directors**

Ng Wing Hang Patrick Kwok Lam Kwong Larry Chen Liqiang

All directors were expressly identified by categories of executive directors, non-executive directors and independent non-executive directors in all corporate communications that disclose the names of directors of the Company.

An updated list of the directors of the Company identifying their role and function and whether they are independent non-executive directors is maintained on the websites of the Hong Kong Exchanges and Clearing Limited ("HKEx") and the Company.

To the best knowledge of the directors, none of the directors has any financial, business, family or other material/relevant relationship with each other.

### A.4 Appointments, Re-election and Removal of Directors

Principle: There should be a formal, considered and transparent procedure for the appointment of new directors. There should be plans in place for orderly succession for appointments. All directors should be subject to re-election at regular intervals. An issuer must explain the reasons for the resignation or removal of any director.

All directors (including non-executive directors and independent non-executive directors) are appointed for a specific term, subject to retirement by rotation at least once every three years.

According to the Articles of Association of the Company, at each annual general meeting, one-third of the Directors for the time being or, if their number is not three or a multiple of three, then number nearest to but not less than one-third, shall retire from office by rotation, provided that every director shall be subject to retirement by rotation at least once every three years. Further, any director newly appointed shall hold office only until the first general meeting of the Company after his appointment and shall then be eligible for re-election.

The Board can appoint new director(s) either to fill a casual vacancy or as an addition to the Board between general meetings. Nomination Committee will make recommendation to the Board on such matter (see A.5 below). The director so appointed, however, shall retire and eligible to be reelected in the coming general meeting. In addition, shareholder can also propose a candidate for election as director at a general meeting in accordance with the Articles of Association of the Company. The nomination procedures by shareholders are published on the website of the Company. All successful candidates must possess the necessary skills, knowledge and experience which can help the Board to direct the Company's business. In addition, all candidates must be able to meet the criteria stipulated in Rules 3.08 and 3.09 of the Listing Rules. A candidate who is to be appointed as an independent non-executive director should also meet the independence criteria set out in Rule 3.13 of the Listing Rules. To further enhance accountability, any further appointment of an independent non-executive director who has served the Board for more than 9 years will be subject to a separate resolution to be approved by shareholders.

#### **A.5** Nomination Committee

Principle: In carrying out its responsibilities, the nomination committee should give adequate consideration to the Principles under A.3 and A.4.

The Nomination Committee of the Company was established in March 2012. The functions of the Nomination Committee are mainly to review the structure, size and composition (including the skills, knowledge, experience and diversity of perspective) of the Board, to identify individuals suitably qualified to become board members and select or make recommendations to the Board on the selection of individuals nominated for directorships, to assess the independence of independent non-executive directors, to make recommendations to the Board on the appointment or re-appointment of directors and succession planning for directors as well as to monitor the implementation of the Board Diversity Policy and review the Board Diversity Policy, as appropriate. Details of terms of reference of the Nomination Committee are published on the websites of HKEx and the Company.

The Nomination Committee comprises the Chairman of the Company, Mr. Fang Qingli until he resigned on 26 October 2021 and was succeeded by Ms. Wu Meng since then, and three independent non-executive directors, namely Mr. Ng Wing Hang Patrick, Mr. Kwok Lam Kwong Larry and Mr. Chen Liqiang. Mr. Fang Qingli acted as the chairman of the Nomination Committee until he resigned on 26 October 2021 and was succeeded by Ms. Wu Meng since then.

The Nomination Committee held two meetings in the financial year ended 31 December 2021. The following is an attendance record of the meeting held by the Nomination Committee for the financial year:

Name of Committee Members	Number of meeting(s) attended/held
Fang Qingli (Chairman) (resigned on 26 October 2021)	2/2
Wu Meng (Chairman)	N/A
Ng Wing Hang Patrick	2/2
Kwok Lam Kwong Larry	2/2
Chen Liqiang	2/2

During the financial year, the Nomination Committee reviewed the structure, size, composition and diversity of the Board; assessed the independence of each independent non-executive director; made recommendation to the Board on the re-election of the retiring directors at the 2021 annual general meeting; and considered and made recommendation to the Board on the appointment of Mr. Liang Jun as Executive Director, Chief Executive Officer, Chairman of the Management Committee, and member of each Risk Committee, Environmental, Social and Governance Committee and Executive Committee of the Company to succeed Mr. Qiu Yizhou. In addition, the Nomination Committee has resolved by way of written resolutions in October 2021 to make recommendation to the Board on the appointment of Ms. Wu Meng as Chairman of the Board, Chairman of the Nomination Committee, Chairman of the Environmental, Social and Governance Committee and Chairman of the Executive Committee of the Company to succeed Mr. Fang Qingli.

The Nomination Committee was provided with sufficient resources to perform its duties and it can seek independent professional advice at the Company's expense if necessary.

The Company adopted the Board Diversity Policy which sets out the approach to achieve diversity on the Board. When determining the composition of the Board, it will take into consideration a number of factors, including but not limited to, skills, knowledge, professional experience, gender, age, cultural and educational background, and other qualities of Directors. All Board appointments will be made on a merit basis and candidates will be considered against objective criteria, with due regard for the benefits of diversity on the Board. The Nomination Committee will monitor the implementation of the Board Diversity Policy and review the Board Diversity Policy, as appropriate, to ensure its effectiveness.

In addition, the Company also adopted the Director Nomination Policy which sets out the key selection criteria and procedures of the Nomination Committee in making any recommendations to the Board on the appointment or re-appointment of directors and succession planning of directors with a view to ensuring that the Board maintains a balance of skills, experience and diversity of perspective appropriate to the requirement of the Company's business. In assessing the suitability of a proposed candidate, the Nomination Committee will consider a number of factors which include the proposed candidate's integrity, skills, experience and diversity of perspective, time commitment, and independence. The Director Nomination Policy also lays down the following nomination procedures for (i) appointment of new or replacement Director; (ii) re-election of Director at general meeting; and (iii) nomination of new director by shareholders.

### A.6 Responsibilities of Directors

Principle: Every director must always know his responsibilities as a director of an issuer and its conduct, business activities and development. Given the essential unitary nature of the board, non-executive directors have the same duties of care and skill and fiduciary duties as executive directors.

Every newly appointed director of the Company shall receive guidance materials from the Company Secretary upon his appointment so as to enable the director having a proper understanding of the Company's operations and business and to ensure him to be fully aware of his responsibilities under statue and common law, the Listing Rules, applicable legal and other regulatory requirements and the Company's business and governance policies. A director can also request the Company Secretary to arrange him to attend any relevant course and seminar.

The functions of non-executive directors have included the functions as specified in Code Provision A.6.2(a) to (d).

The Company adopted the Model Code for Securities Transactions by Directors of Listed Issuers ("Model Code") as set out in Appendix 10 of the Listing Rules as its own code of conduct for dealings in securities of the Company by the directors or relevant employees as defined in the Model Code. The Company made specific enquiry of all directors. According to their replies, all the directors complied with the requirements set out in the Model Code during the financial year ended 31 December 2021. The Company also complied with the other requirements stipulated in the Model Code.

Directors confirmed that they have complied with the Code Provision A.6.5 on directors' training. During the year, the directors have participated in continuous professional development by the following means to develop and refresh their knowledge and skills and provided a record of training to the Company.

Name of Directors	Training Received(Note)
<b>Executive Directors</b>	
Fang Qingli (Chairman) (resigned on 26 October 2021)	_
Wu Meng (Chairman)	D
Guo Chun (Deputy Chairman)	A, D
Zhang Jian	A, B, D
Qiu Yizhou (Chief Executive Officer) (resigned on 12 June 2021)	_
Liang Jun (Chief Executive Officer) (appointed on 12 June 2021)	A, D, E
Non-Executive Director	
Zhang Lei	A, D
Independent Non-Executive Directors	
Ng Wing Hang Patrick	Α
Kwok Lam Kwong Larry	A, D
Chen Liqiang	A, D, E

#### Notes:

- A Attending classes and/or seminars and/or forums
- B Attending in-house briefings
- C Giving talks at classes and/or seminars and/or forums
- D Attending training relevant to the Company's business conducted by lawyers
- E Reading materials and/or participate in activities relevant to the Company's business or to the directors' duties and responsibilities

Each director is aware that he should give sufficient time and attention to the affairs of the Company. Upon reviewing (i) the annual confirmation of time commitment given by each director as well as the directorship and major commitments of each director held in public companies or organisations; and (ii) the attendance rate of each director on board meetings and committee meetings, it is satisfied that all directors have spent sufficient time in performing their responsibilities during the year.

### A.7 Supply of and Access to Information

Principle: Directors should be provided in a timely manner with appropriate information in the form and quality to enable them to make an informed decision and perform their duties and responsibilities.

For regular board meetings, and as far as practicable in all other cases, an agenda and accompanying board papers were sent in full to all directors in a timely manner and at least 3 days before the intended date of a board meeting and board committee meeting.

As mentioned in D.1 below, there are matters reserved to be approved by the Board. Management is aware of the obligation to supply the Board and its committees with adequate information, in a timely manner, to enable it to make informed decisions. The information supplied must be complete and reliable. The Board and individual directors have separate and independent access to the Company's senior management.

All directors are entitled to have access to board papers, minutes and related materials.

#### B.1 The Level and Make-up of Remuneration and Disclosure

Principle: An issuer should disclose its directors' remuneration policy and other remuneration related matters. The procedure for setting policy on executive directors' remuneration and all directors' remuneration packages should be formal and transparent. Remuneration levels should be sufficient to attract and retain directors to run the issuer successfully without paying more than necessary. No director should be involved in deciding his own remuneration.

The Remuneration Committee of the Company was established in April 2005. The functions of the Remuneration Committee are mainly to review and make recommendations to the Board on the Company's policy and structure for all remunerations of directors and senior management. The terms of reference of the Remuneration Committee include the specific duties set out in Code Provision B.1.2(a) to (h), with appropriate modifications where necessary. The Remuneration Committee is delegated with responsibility to determine the remuneration packages of individual executive directors and senior management. Details of terms of reference of the Remuneration Committee are published on the HKEx's and Company's websites.

The Remuneration Committee presently consists of three independent non-executive directors, namely, Mr. Kwok Lam Kwong Larry, Mr. Ng Wing Hang Patrick and Mr. Chen Liqiang. Mr. Kwok Lam Kwong Larry acts as the chairman of the Remuneration Committee.

The Remuneration Committee held three meetings in the financial year ended 31 December 2021. The following is an attendance record of the meeting held by the Remuneration Committee for the financial year:

Name of Committee Members	Number of meeting(s) attended/held
Kwok Lam Kwong Larry (Chairman)	3/3
Ng Wing Hang Patrick	3/3
Chen Liqiang	3/3

During the financial year, the Remuneration Committee reviewed and considered the remuneration policy, packages and fringe benefits of the directors and senior management of the Group. In addition, the Remuneration Committee also reviewed the remuneration policies of the Group and compared with companies of similar scale as benchmark. Furthermore, the Committee made recommendations to the Board for the reward system of the Group, the remuneration of the executive directors of the Company and senior management of the Group and the salary increment of employees in 2021. None of the directors of the Company participated in the determination of the remuneration of their own. The Remuneration Committee was satisfied with the current remuneration policy and packages of the Group.

The Remuneration Committee shall consult the Chairman and/or Chief Executive Officer about their remuneration proposals for the directors. The Remuneration Committee shall have access to independent professional advice if necessary.

The Remuneration Committee was provided with sufficient resources to perform its duties.

For the financial year ended 31 December 2021, the remuneration of the members of the senior management by band is set out below:

Niconalis and a C

Remuneration bands	senior management*
Nil-HK\$3,000,000	2
HK\$3,000,001-HK\$5,000,000	2
HK\$5,000,001-HK\$7,000,000	1

<sup>\*</sup> The evaluation of the performance of the employees has not been completed. Thus, the amount of bonus has not yet been determined and the final amount will be disclosed in due course.

Details of the directors' remuneration and five highest paid employees for the financial year ended 31 December 2021 as required to be disclosed pursuant to Appendix 16 of the Listing Rules are provided in notes 8 and 9 to the financial statements.

### C.1 Financial Reporting

Principle: The board should present a balanced, clear and comprehensible assessment of the issuer's performance, position and prospects.

Management provided sufficient explanation and information to the Board to enable it to make an informed assessment of financial and other information put before it for approval.

Management provided all members of the Board with monthly updates giving a balanced and understandable assessment of the Company's performance, position and prospects in sufficient detail to enable the Board as a whole and each director to discharge their duties under Rule 3.08 and Chapter 13 of the Listing Rules.

Directors have acknowledged their responsibility for preparing accounts of the Company.

A statement by the external auditors about their reporting responsibilities is included in the Independent Auditor's Report.

For the basis on which the Company generates or preserves value over the longer term and the strategy for delivery its objectives, please refer to Chairman's Statement and Management Discussion & Analysis respectively.

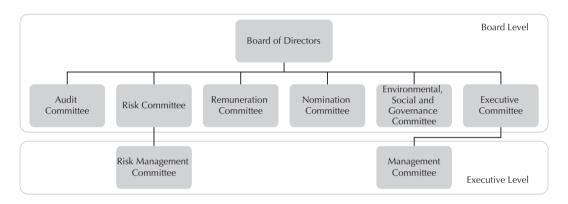

The Board presented a balanced, clear and understandable assessment of the Company in annual and interim reports and other financial disclosures required by the Listing Rules, and also for the reports to regulators and information disclosed under statutory requirements.

### **C.2** Risk Management and Internal Control

Principle: The board is responsible for evaluating and determining the nature and extent of the risks it is willing to take in achieving the issuer's strategic objectives, and ensuring that the issuer establishes and maintains appropriate and effective risk management and internal control systems. The board should oversee management in the design, implementation and monitoring of the risk management and internal control systems, and management should provide a confirmation to the board on the effectiveness of these systems.

### (a) Group's Risk Governance Structure

The Group's risk governance structure is shown as follows:

#### (b) Three Lines of Defence Model

The Group has adopted a "three lines of defence" model to establish an effective risk management and internal control systems:

First line of defence — Risk management (All business departments)

Each of the Group's departments has the primary responsibility of managing its business risk, and serves as the first line of defence for the risk management and internal control systems. Its major risk management measures include:

- Implements the Group's established policies, procedures and guidelines, as well as laws, regulations and industry practices, ensuring proper controls are in place.
- Implements the "Employee Whistle blowing Procedures on Financial Reporting and Control Improprieties" to ensure employees are able to report any suspected wrongdoings or improprieties through appropriate and established procedures.

Carried out risk and control self-assessment regularly using standardized method and
process according to "The Implementation Guide for Risk and Control Self-Assessment"
established by the Group. Each department must identify and evaluate the risk of
responsible business activities, evaluate effectiveness of the relevant internal controls, and
formulate action plans for potential issues and control weakness. According to the results
of the internal control effectiveness evaluation performed in 2021, the overall
performance of internal control implementation in each department is satisfactory.

Second line of defence — Risk control (Middle and back office departments particularly including Risk Management, Compliance and Legal)

Middle and back office departments particularly including Risk Management, Compliance and Legal form the second line of defence for the risk management and internal control systems. These departments are independent of the business units and perform the following major risk control duties:

- Assist the management in formulating the Group's policies, procedures, guidelines, risk
  management principles and risk tolerance levels, and revise them in response to any
  changes in laws, regulations, industry practices or other internal and external factors.
- Provide advisory services, guidance and training for all staff on risk management.
- Assist in regulatory authorities' investigations and enquiries.
- Maintain the "Risk and Internal Control Monitoring Register", which covers Group's key risk areas, for identification of the key risks that affect business operations along with the relevant internal control activities and measures. The "Risk and Internal Control Monitoring Register" facilitates departmental ongoing assessment and compilation of riskbased internal audit plan.
- Maintain the comprehensive set of key risk indications with reporting thresholds which
  clearly defines the reporting mechanism. When a trigger event arises, the incident will be
  reported to the respective level of management according to the pre-defined threshold,
  and where appropriate, remedial actions will be taken. This facilitates departments'
  defining roles and responsibilities, and strengthening their controls and accountability.
- Reported twice in 2021 the risk management and internal controls related matters (except
  those related to financial controls and reporting, which are within the terms of reference
  of Audit Committee) to the Risk Committee, which in turn reported to the Board
  accordingly.

Third line of defence — Independent risk assurance (Internal Audit Department)

- Internal Audit Department serves as the third line of defence for the risk management and internal control systems. It conducts systemic review of the Group's risk management and internal control systems independently on a regular basis. The Internal Audit Department's role as the third line of defence is independent of the first and second lines of defence, and is responsible for monitoring their compliance with policies and procedures. The Head of Internal Audit Department reports directly to the Audit Committee at least semi-annually, and reports regularly to the Board through the Audit Committee.
- Internal Audit Department conducts independent review of the design and implementation of the Group's internal controls on a regular basis.
- Internal Audit Department reported twice in 2021 the risk management and internal controls related matters to the Audit Committee, which in turn reported to the Board accordingly.

#### (c) Audit Committee

The Audit Committee is delegated by the Board with the responsibilities to monitor the Group's overall management and effectiveness, and to advise the Board accordingly.

On behalf of the Board, the Audit Committee carries out regular review on business processes and operations, considers findings on major risk management and internal control related matters and the management's response to these findings. The Audit Committee also reviews financial controls and reporting related risk management and internal control systems of the Group with the management to ensure that the management has performed its duty to put in place an effective system.

In addition, the Audit Committee reviews and monitors the effectiveness of the function of the Internal Audit Department, ensures it is adequately resourced and has appropriate status within the Group. For the external auditor, the Audit Committee reviews and monitors the external auditor's independency and objectivity and the effectiveness of their audit in accordance with applicable standards. The Audit Committee also discusses the nature and scope of the audit and reporting obligations with the external auditor before the commencement of the audit. External auditor also reports their audit findings and the internal control matters identified during the audit to the Audit Committee. After a detailed review of the effectiveness of the Group's internal control systems, the Audit Committee will report their findings to the Board.

The Audit Committee is currently composed of three independent non-executive directors; it has held two meetings in the financial year ended 31 December 2021. List of the Audit Committee members and the attendance record of the meeting held by the Audit Committee are set out in C.3 below.

### (d) Internal Audit Department

The Group has an independent Internal Audit Department to support the Board to monitor the Group's corporate governance compliance and to ensure a sound and effective internal control system is established. The Internal Audit Department independently evaluates and reviews departments' compliancy with the policies, procedures and guidelines of the Group, as well as the applicable rules and regulatory requirements.

In addition, the Internal Audit Department also carries out specific audits on particular areas as directed by the Audit Committee. During the audit, the Internal Audit Department will assess the suitability and effectiveness of the Group's current operational processes and internal control systems. If weaknesses are identified, the Internal Audit Department will provide recommendations to the relevant departments, monitor the remediation progress, and report to the Audit Committee on the key findings and the rectification status on a regular basis.

#### (e) Risk Committee

Risk Committee is delegated by the Board, responsible for reviewing the risk management and internal control systems (except those related to financial controls and reporting, which are within Audit Committee's scope), ensuring that management has discharged its duties, has effective systems in place, and reviewing the risk principles and risk tolerance levels as proposed by Risk Management Committee, etc. The detailed terms of reference of Risk Committee are published on the websites of the HKEx and the Company.

Risk Committee is currently composed of three independent non-executive directors and two executive directors: the independent non-executive directors are Mr. Ng Wing Hang Patrick, Mr. Kwok Lam Kwong Larry and Mr. Chen Liqiang; the executive directors are Mr. Guo Chun and Mr. Liang Jun. Mr. Ng Wing Hang Patrick acts as the chairman of the Risk Committee.

The Risk Committee held two meetings in the financial year ended 31 December 2021. The following is an attendance record of the meeting held by the Risk Committee for the financial year:

Name of Committee Members	Number of meeting(s) attended/held
Ng Wing Hang Patrick (Chairman)	2/2
Guo Chun	2/2
Qiu Yizhou (resigned on 12 June 2021)	1/1
Liang Jun (appointed on 12 June 2021)	1/1
Kwok Lam Kwong Larry	2/2
Chen Liqiang	2/2

A summary of the work performed by the Risk Committee during the financial year is listed below:

- (1) reviewed and recommended the Board's approval on the revision of the Group's Risk Appetite Statement and risk limit table;
- (2) reviewed the implementation of the Group' risk management and internal control systems (except those related to financial controls and reporting, which are within the terms of reference of Audit Committee);
- (3) reviewed and approved the revised Terms of Reference of the Risk Management Committee; and
- (4) discharged its responsibilities related to risk management and internal control system, as delegated by the Board.

### (f) Risk Management Committee

Risk Management Committee is established under Risk Committee to coordinate, facilitate and manage important executive matters and risk management activities.

Risk Management Committee's major responsibilities include formulation of risk strategies, risk management infrastructure and risk policies; planning for a comprehensive risk management system and implementation of risk governance activities; recommendation of risk tolerance levels to Risk Committee and the Board as well as implementation upon their approval, and review and approval of risk policies, risk limits and key risk indicators; and assessment of the impacts of and provision of guidance on risks and risk events reported to the Committee, etc.

### (g) Risk Management Department

The Group has established a Risk Management Department, which is independent of business departments, for management of the overall risk governance, liquidity and funding risk, credit risk, market risk, and operational risk.

Risk Management Department formulates risk management basics, including the organisational structure, management framework, risk tolerance levels and related policies; provides business departments with guidance and assistance in identification, assessment, monitoring and reporting of risks arising from the usual course of business; and provides business departments with advisory services, including the risk assessments on new products, etc.

### (h) Group's Key Risk and Management Measures

The Group upholds the philosophy of prudent operation, it strives to strengthen the existing businesses on one hand and continues to develop new businesses and new products on the other, so as to command trust from shareholders, clients, regulators, business partners, other investors, as well as all employees. Based on the subjective and objective conditions of the regulatory environment, financial resources, business environment, operating model, etc., the Group determines the Risk Tolerances of the six major risk categories in these areas which serves as the foundation of risk management.

#### (1) Compliance Risk and Legal Risk

Compliance Risk refers to the risk of the Group suffering from any financial or non-financial loss as a result of being advised, warned, reprimanded, fined, etc or even prosecuted by the government or any regulatory authority due to violating or breaching the laws, rules or industry practices ranging from business related areas to financial crime and general ordinances.

Legal risk refers to the risk of the Group suffering from any financial or non-financial loss as a result of being involved in a legal dispute or litigation, no matter whether or not it is triggered by a compliance risk event.

The regulated activities of the Group, including brokerage business, corporate finance business, asset management business and securities research business, has developed relevant compliance policies and procedures in accordance with applicable laws, regulations, industry practices (such as codes and guidelines). These include due diligence on clients, anti-money laundering checking, client suitability testing towards products, segregation of duties, as well as prevention of conflict of interest. All these are recorded in the Group's Compliance Manual and Operational Manual for relevant staff's adoption.

The Group has a Compliance Department and a Legal Department, which are independent of the business units. The Compliance Department is responsible for compliance risk management, and conducting compliance monitoring and review. The Legal Department is responsible for providing legal advisory services, drafting and examination of legal documents.

### (2) Liquidity and Funding Risk

Liquidity risk refers to the risk of the Group suffering from any financial loss as a result of failure to or a higher funding cost to fulfil its financial obligations due to cash flow mismatch, despite the Group's healthy financial standing.

Funding risk refers to the risk of the Group suffering from limited and insufficient source of fund and funding amount to sustain the Group's business development.

Certain subsidiaries of the Group are subject to the local country's regulatory liquidity requirements. Currently, a monitoring system is in place to ensure the relevant licensed subsidiaries maintain adequate liquid capital to support their business commitments and comply with the relevant applicable Financial Resource Rules. Finance Department also closely monitors the Group's cash flow and the Group's assets and liabilities position. Moreover, Credit Control Department carries out regular review of the margin ratios of the pledged securities to ensure they have sufficient liquidity, thereby to manage liquidity risk.

#### (3) Credit Risk

Credit Risk refers to the risk of the Group suffering from any financial loss as a result of the debtor (including clients, guarantors or related parties), counterparties (including trading counterparties, brokers, banks and custodians) or asset issuers (including guarantors or related parties) failing to fulfil their obligations to repay, pay, settle, etc on time.

Business relating to credit should be run on the principle of risk diversification, dealt with creditworthy debtors, counterparties and asset issuers, and secured the Group's position with collateral or guarantee from the transactions as far as possible.

The Group has authorisation policies and procedures in place for stock financing, merger and acquisition financing, margin loan, client's or counterparty's credit and trading limits, as well as the margin ratios of stocks.

The Group's Credit Control Department is responsible for monitoring the positions of client's accounts (including the stock, futures and stock options) and the level of financing on a daily basis. Credit Control Department strictly enforces margin call and executes forced sale in accordance with the Group's established policies and procedures. When any breach of the Group's financing or credit policy is identified, the Credit Control Department will report it to the management immediately. In addition, the Credit Control Department conducts regular stress tests on client's repayment capability, so as to identify those client's accounts that may have margin deficits under volatile market conditions.

To avoid excessive concentration of credit risk, the Group has set limits on single client or counterparty credit exposure, stock and bond concentration risk.

#### (4) Market Risk

Market risk refers to the risk of the Group suffering from any financial loss as a result of adverse market movements of exchange rate, interest rate, price of financial instruments, etc. The Group's investment trading business should be run on the principle of risk diversification. Each of its portfolios, investments and transactions should be managed within the approved limits.

The Group has procedures and risk indicators in place to monitor the market exposure of the investment business regularly, ensuring the business is run within the Group's risk appetite.

#### (5) Operational Risk

Operational risk refers to the risk of the Group suffering from any financial or non-financial loss resulting from inadequacy or failure of internal processes, staff or systems, or from external events.

The Management Committee of the Group supervises the daily operations of the Group, and manages the risks according to the actual situation of the businesses. Operational Manuals once approved are published on the Group's intranet for relevant departments and staff's compliance and implementation. The existing business operating procedures and the risk management measures are reviewed and updated from time to time to ensure that they are consistent with the actual operations of the Group.

### (6) Reputational Risk

Reputational Risk refers to the risk of the Group's suffering from any damage to its goodwill as a result of its operation, or external events, leading to negative comment from regulators, customers, partners and other investors. Such damage could be in the form of, for example, criticism from the media or drop in the stock price. Reputational risk events may stand alone or result from other risk events.

The Group strives to maintain its reputation and acts in the Group's long-term interest, and timely handle in accordance with the established requirements in case of a risk event.

The Group also formulates other documents and measures, such as risk policies and risk limits, in accordance with the above-mentioned Risk Tolerances, that serves as specific measures for the Group to manage risks.

### (i) Handling and Dissemination of Inside Information

To ensure inside information of the Group is to be disclosed to the public in a timely manner in accordance with the Listing Rules, applicable laws and regulatory requirement, a framework has been established to set out the procedures and internal controls for the handling and dissemination of inside information. The framework and its effectiveness are subject to review on a regular basis according to established procedures.

### (j) Review of Effectiveness of the Risk Management and Internal Control Systems

The Board acknowledges their responsibility to review the effectiveness of the risk management and internal control systems adopted. Such risk management and internal control systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board reviews the effectiveness of the Group's risk management and internal control systems on an ongoing basis. Through the structure and measures mentioned above, the Board ensures that appropriate and effective risk management and internal control systems are in place. The Board has also reviewed the adequacy of resources, staff qualifications and experience, training programmes and budgets of the Group's compliance, risk management, accounting, internal audit and financial reporting functions. For the financial year ended 31 December 2021, the Risk Management Committee and the Internal Audit Department had submitted reports on the effectiveness of the Group's risk management and internal control systems to the Risk Committee and Audit Committee respectively.

#### C.3 Audit Committee

Principle: The board should establish formal and transparent arrangements to consider how it will apply financial reporting, risk management and internal control principles and maintain an appropriate relationship with the issuer's external auditors. The audit committee established under the Listing Rules should have clear terms of reference.

The Audit Committee was set up in 1999. The roles of the Audit Committee are mainly to ensure integrity of financial statements, to oversee financial reporting system, risk management and internal control procedures as well as to provide advice and recommendations to the Board. The details of the terms of reference of the Audit Committee are published on the websites of the HKEx and the Company.

The Audit Committee is currently composed of three independent non-executive directors, namely, Mr. Ng Wing Hang Patrick, Mr. Kwok Lam Kwong Larry and Mr. Chen Liqiang. Mr. Ng Wing Hang Patrick acts as the chairman of the Audit Committee.

The Audit Committee held two meetings in the financial year ended 31 December 2021. The following is an attendance record of the meeting held by the Audit Committee for the financial year:

Name of Committee Members	Number of meeting(s) attended/held
Ng Wing Hang Patrick (Chairman)	2/2
Kwok Lam Kwong Larry	2/2
Chen Ligiang	2/2

A summary of the work performed by the Audit Committee during the financial year is listed below:

- (1) reviewed the financial statements and the independent auditor's report before their submission to the Board;
- (2) reviewed the results of the audit on the Company's system of internal controls;
- (3) reviewed the results of the audit on the connected or continuing connected parties transactions;
- (4) nominated external auditors for re-appointments at the annual general meeting held in 2021, and considered the proposed remuneration and terms of engagement of external auditors;
- (5) assessed the effectiveness of the Group's risk management and internal control systems; and
- (6) performed corporate governance functions delegated by the Board.

The work and findings of the Audit Committee were reported to the Board. During the year, no issues brought to the attention of management and the Board were of sufficient importance to require disclosure in the Annual Report.

The Board agreed with the Audit Committee's proposal for the re-appointment of Messrs. KPMG as the Company's external auditors for 2022. The recommendation will be put forward for the approval of shareholders at the forthcoming annual general meeting.

Full minutes of Audit Committee meetings are kept by the Company Secretary. Draft and final versions of minutes of the meetings were sent to all committee members for their comment and records, normally within one month after the meeting.

No member of the Company's Audit Committee was a former partner of the Company's existing external auditors.

During the financial year ended 31 December 2021, the remuneration to the external auditors, Messrs. KPMG, was as below:

Nature of services	HK\$'000
Audit services	2,680
Tax advisory services	183

The Audit Committee was provided with sufficient resources, including the advice of external auditors and Internal Audit Department, to perform its duties.

The Audit Committee established an employee whistleblowing procedures on financial reporting and internal control improprieties of the Group. Under the employee whistleblowing procedures, the employees can report any concerns relating to the possible financial reporting improprieties to the chairman of Audit Committee.

### **D.1** Management Functions

Principle: An issuer should have a formal schedule of matters specifically reserved for board approval. The board should give clear directions to management on the matters that must be approved by it before decisions are made on the issuer's behalf.

The Board is responsible for formulating overall strategy, monitoring and controlling the performance of the Company whilst managing the Company's day-to-day business is the responsibility of the management.

When the Board delegates aspects of its management and administration functions to the management, it has given clear directions as to the management's powers, in particular, where management shall report back and obtain prior Board approval before making decisions or entering into any commitments on the Company's behalf.

Directors are clearly understood delegation arrangements in place. The Company has issued formal letter of appointment to each director (including non-executive director and independent non-executive director) setting out the key terms and conditions of the appointment.

Matters reserved to be approved by the Board include:

- (1) Appointment of directors;
- (2) Significant strategies and business plans of the Company;
- (3) Proposal for selection of external auditors;
- (4) Financial statements and budgets;
- (5) Substantial investments other than those arising in the ordinary course of Company's businesses; and
- (6) Formation of board committees.

#### **D.2 Board Committees**

Principle: Board committees should be formed with specific written terms of reference which deal clearly with their authority and duties.

Where board committees are established to deal with matters, the Board shall give them sufficiently clear terms of reference to enable them to perform their functions properly.

Apart from the Audit Committee (particulars are disclosed under C.3), Remuneration Committee (particulars are disclosed under B.1), Nomination Committee (particulars are disclosed under A.5) and Risk Committee (particulars are disclosed under C.2), the Board also established an Executive Committee and a Management Committee with specific terms of reference. The Executive Committee consists of all the executive directors and is responsible for formulating and reviewing the Company's important strategies on business and operations. The Management Committee consists of the Chief Executive Officer, deputy general manager(s), chief operating officer and assistant general manager(s). The Management Committee usually meets bi-weekly for making policy(ies) relating to the Company's day-to-day management and business. In addition, Risk Committee established a Risk Management Committee with specific terms of reference. Risk Management Committee consists of Chief Executive Officer, chief risk officer, chief operating officer, chief financial officer, director of compliance, and heads of the respective business segments. The Risk Management Committee usually meets quarterly and is responsible for co-ordinating, facilitating important business management related matters and risk management activities.

In addition, the Environmental, Social and Governance ("ESG") Committee was established by the Board on 19 March 2021 to assist the Board in overseeing the Group's ESG-related matters. The ESG Committee is currently composed of three executive directors, being Ms. Wu Meng, Mr. Guo Chun and Mr. Liang Jun, and two independent non-executive directors, being Mr. Kwok Lam Kwong Larry and Mr. Chen Liqiang. Ms. Wu Meng acts as the chairman of the ESG Committee. For details of ESG of the Group, please refer pages 17 to 43 to the ESG report of this annual report.

The Audit Committee, the Remuneration Committee, the Nomination Committee, the Risk Committee and Environmental, Social and Governance Committee are required to report back to the Board on their decisions and recommendations. Material matters will be reported to the Board by the other board committees according to their respective terms of reference.

### **D.3** Corporate Governance Functions

The Board has delegated the responsibility for performing corporate governance functions to the Audit Committee, with the functions as specified in Code Provision D.3.1(a) to (e).

#### **E.1 Effective Communication**

Principle: The board should be responsible for maintaining an on-going dialogue with shareholders and in particular, use annual general meetings or other general meetings to communicate with them and encourage their participation.

At the annual general meeting held in 2021, a separate resolution was proposed by the Chairman for each substantially separate issue.

The annual general meeting held on 21 May 2021 was attended by the Chairman of the Board, the chairmen of the Audit Committee, Remuneration Committee, Nomination Committee and Risk Committee or members of the respective Committees, and the representative of the external auditor, Messrs. KPMG, to answer questions from the shareholders.

The Company arranges for the notice to shareholders to be sent for annual general meetings at least 20 clear business days before the meeting and to be sent at least 10 clear business days for all other general meetings.

The Board has established a shareholders communication policy and was published on the Company's website. The policy is subject to review on a regular basis to ensure its effectiveness.

Pursuant to the disclosure requirements under the Listing Rules and the Code, the Company is required to disclose the following information on shareholders' rights:

Set out below are procedures by which shareholders of the Company may (a) convene an extraordinary general meeting; (b) put enquiries to the Board; (c) put forward proposals at shareholders' meetings; and (d) propose a person for election as a director. These procedures are generally governed by the Articles of Association of the Company and applicable laws, rules and regulations, which prevail over what is stated below in case of inconsistencies.

(a) How shareholders can convene an extraordinary general meeting

Pursuant to Article 67 of the Articles of Association of the Company, extraordinary general meeting(s) shall be convened as provided by the Companies Ordinance.

Pursuant to the Companies Ordinance (Chapter 622 of the Laws of Hong Kong), shareholder(s) representing at least 5% of the total voting rights of all the shareholders having a right to vote at general meetings may request in writing to call an extraordinary general meeting.

### The written request:

- (i) must state the general nature of the business to be dealt with at the meeting and may include the text of a resolution that may properly be moved and is intended to be moved at the meeting (in case if the resolution is to be proposed as a special resolution, the written request should include the text of the resolution and specify the intention to propose the resolution as a special resolution);
- (ii) must be signed by the requisitionist(s); and
- (iii) may either be deposited at the registered office of the Company at Level 19, 28 Hennessy Road, Hong Kong in hard copy form or sent in electronic form by email at co.sec@swhyhk.com.

The Board must call an extraordinary general meeting within 21 days after the date on which they become subject to the requirement and the extraordinary general meeting so called must be held on a date not more than 28 days after the date of the notice convening the extraordinary general meeting.

If the Board does not proceed to convene the extraordinary general meeting as aforesaid, the requisitionist(s), or any of them representing more than one half of the total voting rights of all of them, may themselves call an extraordinary general meeting, provided that any extraordinary general meeting so convened is held within 3 months after the date on which the Board becomes subject to the requirement to call an extraordinary general meeting. Any reasonable expenses incurred by the requisitionist(s) by reason of the failure of the Board duly to call an extraordinary general meeting must be reimbursed by the Company.

(b) The procedures by which enquiries may be put to the board and sufficient contact details to enable these enquiries to be properly directed

Shareholders and other stakeholders may send their enquiries and concerns to the Board by addressing them to Company Secretary, whose contacts are listed below:

Registered office: Level 19, 28 Hennessy Road, Hong Kong

Email: co.sec@swhyhk.com

(c) The procedures and sufficient contact details for putting forward proposals at shareholders' meetings

Any shareholder(s) satisfying the following conditions can request in writing to move a resolution at an annual general meeting:

- shareholder(s) representing at least 2.5% of the total voting rights of all the shareholders who have a right to vote on the resolution at the annual general meeting to which the requests relate; or
- (ii) at least 50 shareholders who have a right to vote on the resolution at the annual general meeting to which the requests relate.

The written request:

- (i) must identify the resolution of which the notice is to be given;
- (ii) must be signed by the requisitionist(s); and
- (iii) may either be deposited at the registered office of the Company at Level 19, 28 Hennessy Road, Hong Kong in hard copy form or sent in electronic form by email at co.sec@swhyhk.com, not later than 6 weeks before the annual general meeting to which the requests relate; or if later, the time at which notice is given of that annual general meeting.
- (d) The procedures for shareholders to propose a person for election as a director

Pursuant to Article 108 of the Articles of Association of the Company, if a shareholder wish to propose a person other than a retiring director for election as a director at a general meeting, notice in writing of the intention to propose that person for election as a director and notice in writing by that person of his willingness to be elected shall have been given to the Company during a period of not less than seven days commencing no earlier than the day after the despatch of the notice of the meeting appointed for such election and ending no later than seven days prior to the date appointed for the meeting.

During the year, there were no significant changes in the Company's constitutional documents. The Articles of Association of the Company is available on the HKEx's and Company's websites.

### **E.2** Voting by Poll

Principle: The issuer should ensure that shareholders are familiar with the detailed procedures for conducting a poll.

Since the amendment of the Listing Rules with effect from 1 January 2009, all resolutions set out in the notice of general meetings of the Company have been conducted by poll.

To ensure that shareholders are familiar with the poll procedures at the annual general meeting held in 2021, the Chairman (through the Company Secretary) explained the detailed procedures of poll voting.

After the conclusion of the annual general meeting and extraordinary general meetings, the poll results were published on the website of HKEx at http://www.hkexnews.hk and the Company's website at http://www.swhyhk.com.

#### F. Company Secretary

Principle: The company secretary plays an important role in supporting the board by ensuring good information flow within the board and that board policy and procedures are followed. The company secretary is responsible for advising the board through the chairman and/or the chief executive on governance matters and should also facilitate induction and professional development of directors.

Mr. Wong Che Keung Leslie is the Chief Operating Officer and Company Secretary of the Group and has day-to-day knowledge of the Company's affairs. He reports to the Chairman and/or the Chief Executive Officer.

The appointment and removal of the Company Secretary is subject to the Board approval in accordance with the Articles of Association of the Company. Directors have access to the advice and services of the Company Secretary to ensure that board procedures, and all applicable rules and regulations, are followed.

Mr. Wong confirmed that he has taken no less than 15 hours of relevant professional training for the year ended 31 December 2021 in compliance with Rule 3.29 of the Listing Rules. The biographical details of Mr. Wong are set out on page 79 under the section headed Biographical Details of the Directors of the Company and the Senior Management of the Group.

#### REPORT OF THE DIRECTORS

The directors present their report and the audited financial statements for the year ended 31 December 2021.

#### **PRINCIPAL ACTIVITIES**

The principal activity of the Company is investment holding. Details of the principal activities of the principal subsidiaries are set out in note 1 to the financial statements. There were no significant changes in the nature of the Group's principal activities during the year.

#### **RESULTS AND DIVIDENDS**

The Group's profit for the year ended 31 December 2021 and the Company's and the Group's financial position at that date are set out in the audited financial statements.

The Company's existing Dividend Policy allows its shareholders to participate in the Company's profits on one hand, while retaining adequate reserves for future business development on the other. In general, the dividend payout ratio should be in the range between 40% and 60% of the Group's consolidated net profit after tax for the then financial year. In addition, the Board may also declare special dividends in addition to such dividends as it considers appropriate.

The directors resolved not to recommend the payment of a final dividend for the year ended 31 December 2021.

#### **BUSINESS REVIEW**

The business review of the Group for the year ended 31 December 2021 is set out under the sections headed Chairman's Statement, Management Discussion & Analysis, Environmental, Social and Governance Report and Corporate Governance Report on pages 3 to 6, pages 7 to 16, pages 17 to 43 and pages 44 to 71 respectively of this annual report.

	3,852,033	4,036,040	3,916,691	2,205,483	2,160,894		

The above summary does not form part of the audited financial statements.

#### TAX RELIEF AND EXEMPTION

The Company is not aware of any relief from taxation available to shareholders by reason of their holding of the Company's listed securities.

#### **SHARE CAPITAL**

There were no movements in the issued share capital of the Company during the year.

#### **DEBENTURES ISSUED**

On 27 January 2022, the Company issued unsecured and unguaranteed bonds in principal amount of US\$200 million which is listed on The Stock Exchange of Hong Kong Limited. The bond carries a fixed interest rate of 1.5% per annum with a maturity period of 364 days. The principal will be full repayable on the maturity date on 26 January 2023.

Please refer to the Company's announcements on 21 January 2022, 27 January 2022 and 28 January 2022 for details of the issuance of bonds.

#### **EQUITY-LINKED AGREEMENTS**

No equity-linked agreements were entered into by the Company, or existed during the year.

#### PURCHASE, REDEMPTION OR SALE OF LISTED SECURITIES OF THE COMPANY

Neither the Company, nor any of its subsidiaries purchased, redeemed or sold any of the Company's listed securities during the year.

#### **DISTRIBUTABLE RESERVES**

At 31 December 2021, the Company's reserves available for distribution, calculated in accordance with the provisions of sections 291, 297 and 299 of the Hong Kong Companies Ordinance (Cap. 622), amounted to HK\$7,432,000.

#### **CHARITABLE CONTRIBUTIONS**

No charitable contribution was made by the Group during the year.

#### **MAJOR CUSTOMERS AND SUPPLIERS**

In the year under review, sales to the Group's five largest customers accounted for less than 30% of the total sales for the year.

None of the directors of the Company or any of their associates or any shareholders (which, to the best knowledge of the directors, own more than 5% of the Company's issued shares) had any beneficial interest in the Group's five largest customers.

The Group is a provider of financial services. In the opinion of the directors, it is therefore of no value to disclose details of the Group's suppliers.

#### **DIRECTORS**

The directors of the Company during the year were:

Executive directors:
Fang Qingli (Chairman) (resigned on 26 October 2021)
Wu Meng (Chairman)
Guo Chun (Deputy Chairman)
Zhang Jian
Qiu Yizhou (Chief Executive Officer) (resigned on 12 June 2021)
Liang Jun (Chief Executive Officer) (appointed on 12 June 2021)

Non-executive director:

Zhang Lei

Independent non-executive directors: Ng Wing Hang Patrick Kwok Lam Kwong Larry Chen Liqiang

In accordance with Articles 95 and 104(A) of the Company's Articles of Association and in compliance with Code Provision B.2.3 of the Corporate Governance Code set out in Appendix 14 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules"), Mr. Liang Jun, Mr. Zhang Jian, Mr. Zhang Lei, Mr. Ng Wing Hang Patrick, Mr. Kwok Lam Kwong Larry and Mr. Chen Liqiang will retire at the forthcoming annual general meeting and, being eligible, will offer themselves for re-election.

The Company has received annual confirmations of independence pursuant to Rule 3.13 of the Listing Rules from Mr. Ng Wing Hang Patrick, Mr. Kwok Lam Kwong Larry and Mr. Chen Liqiang and as at the date of this report, still considers them to be independent.

A list of names of all the directors who have served on the boards of the subsidiaries of the Company for the period from 1 January 2021 to the date of this report is available on the Company's website at www.swhyhk.com.

# BIOGRAPHICAL DETAILS OF THE DIRECTORS OF THE COMPANY AND THE SENIOR MANAGEMENT OF THE GROUP

#### **DIRECTORS' SERVICE CONTRACTS**

No director proposed for re-election at the forthcoming annual general meeting has a service contract with the Company which is not determinable by the Company within one year without payment of compensation, other than statutory compensation.

#### **DIRECTORS' REMUNERATION**

The directors' fees are subject to shareholders' approval at general meetings. Other emoluments are determined by the Board of the Company with reference to directors' duties, responsibilities and performance and the results of the Group.

#### DIRECTORS' MATERIAL INTERESTS IN TRANSACTIONS, ARRANGEMENTS OR CONTRACTS

No director or a connected entity of a director had a significant beneficial interest, either directly or indirectly, in any transactions, arrangements or contracts of significance to the business of the Group to which the Company, or any of its holding companies, subsidiaries and fellow subsidiaries was a party during the year.

#### PERMITTED INDEMNITY PROVISION

The Articles of Association of the Company provides that every Director of the Company shall be entitled to be indemnified out of the assets of the Company against all losses or liabilities which he may sustain or incur in or about the execution of the duties of his office or otherwise in relation thereto.

The Company has taken out and maintained appropriate directors' liability insurance in respect of relevant legal actions against its directors.

#### **DIRECTOR'S INTEREST IN SHARES**

As at 31 December 2021, none of the directors and the chief executive of the Company was taken to be interested or deemed to have any interest or short position in the shares, underlying shares or debentures of the Company or any of its associated corporations (within the meaning of Part XV of the Securities and Futures Ordinance (the "SFO")) as recorded in the register required to be kept by the Company pursuant to Section 352 of the SFO, or as otherwise notified to the Company and The Stock Exchange of Hong Kong Limited (the "Stock Exchange") pursuant to the Model Code for Securities Transactions by Directors of Listed Issuers as set out in the Appendix 10 of the Listing Rules.

#### **DIRECTORS' RIGHTS TO ACQUIRE SHARES OR DEBENTURES**

At no time during the year were rights to acquire benefits by means of the acquisition of shares in or debentures of the Company granted to any director or their respective spouse or minor children, or were any such rights exercised by them; or was the Company, or any of its holding companies, subsidiaries or fellow subsidiaries a party to any arrangement to enable the directors to acquire such rights in any other body corporate.

#### SUBSTANTIAL SHAREHOLDERS' INTERESTS IN SHARES

As at 31 December 2021, the interests of substantial shareholders, other than directors or chief executive of the Company, who had interests or short positions of 5% or more of the issued shares or underlying shares of the Company as recorded in the register required to be kept by the Company pursuant to section 336 of the SFO, or as otherwise notified to the Company, were as follows:

#### Long positions in the ordinary shares of the Company

Name	Capacity and nature of interests	Number of ordinary shares interested (Note)	Percentage of the Company's issued shares
Shenwan Hongyuan Holdings (B.V.I.) Limited ("SWHYHBVI")	Directly beneficially owned	402,502,312(1)	25.78
Shenwan Hongyuan (International) Holdings Limited	Through controlled corporation	402,502,312(1)	25.78
	Directly beneficially owned	768,306,257(2)	49.22
Shenwan Hongyuan Securities Co., Ltd.	Through controlled corporation	1,170,808,569(1)(2)	75.00
Shenwan Hongyuan Group Co., Ltd.	Through controlled corporation	1,170,808,569(1)(2)	75.00

#### Notes:

- (1) SWHYHBVI is held directly as to 60.82% by Shenwan Hongyuan (International) Holdings Limited. Shenwan Hongyuan (International) Holdings Limited is wholly-owned by Shenwan Hongyuan Securities Co., Ltd. which is in turn a wholly-owned subsidiary of Shenwan Hongyuan Group Co., Ltd.. Hence, Shenwan Hongyuan (International) Holdings Limited, Shenwan Hongyuan Securities Co., Ltd. and Shenwan Hongyuan Group Co., Ltd. are deemed to be interested in the same parcel of 402,502,312 shares held by SWHYHBVI under the SFO.
- (2) Shenwan Hongyuan (International) Holdings Limited also held directly 768,306,257 shares of the Company. Hence, Shenwan Hongyuan Securities Co., Ltd. and Shenwan Hongyuan Group Co., Ltd. are also deemed to be interested in the same parcel of 768,306,257 shares held by Shenwan Hongyuan (International) Holdings Limited under the SFO.

Save as disclosed above, as at 31 December 2021, the Company had not been notified of any person who had interests or short positions in the shares or underlying shares of the Company, which were required to be recorded in the register required to be kept by the Company pursuant to section 336 of the SFO.

#### CONNECTED TRANSACTIONS AND CONTINUING CONNECTED TRANSACTIONS

The connected transactions and continuing connected transactions of the Company and the Group during the year are disclosed in compliance with the requirements of Chapter 14A of the Listing Rules.

#### **Continuing Connected Transaction(s)**

(a) Continuing Connected Transaction in relation to the Licence Agreement

On 18 August 2021, Shenwan Hongyuan Enterprises (H.K.) Limited (a direct wholly-owned subsidiary of the Company) ("SWHY Enterprises") and Shenwan Hongyuan (International) Holdings Limited ("SWHY International") entered into the licence agreement (the "Licence Agreement") pursuant to which SWHY Enterprises agreed to license a designated area within Level 4 of Three Pacific Place, 1 Queen's Road East, Hong Kong specified in the Licence Agreement (the "Premises") to SWHY International for a term commencing from 18 August 2021 to 6 May 2024 (both dates inclusive).

As at the signing date of the Licence Agreement, SWHY International directly and indirectly holds approximately 75% of the Company's issued shares and is the controlling shareholder of the Company. Therefore, SWHY International is regarded as a connected person of the Company and the entering into of the Licence Agreement constitutes a continuing connected transaction of the Company under the Chapter 14A of the Listing Rules.

Previously, SWHY Enterprises and SWHY International entered into a licence agreement (the "Previous De Minimis Agreement") for the licensing of the Premises for a period commencing from 7 May 2021 to 17 August 2021 (both dates inclusive). The maximum aggregate amount payable by SWHY International to SWHY Enterprises pursuant to the provisions of the Previous De Minimis Agreement would not exceed HK\$2,080,000.

As one or more of the applicable percentage ratios as defined in the Listing Rules calculated with reference to the annual caps, whether on a standalone basis or on an aggregated basis with the transactions contemplated under the Previous De Minimis Agreement, is/are more than 0.1% but less than 5%, the entering into of the Licence Agreement (whether calculated on a standalone basis or on an aggregated basis with the Previous De Minimis Agreement) is only subject to the reporting, announcement and annual review requirements, and is exempt from the circular (including independent financial advice) and the independent Shareholders' approval requirements under Chapter 14A of the Listing Rules.

Further details of the transaction are set out in the announcement of the Company dated 18 August 2021.

#### CONNECTED TRANSACTIONS AND CONTINUING CONNECTED TRANSACTIONS (Cont'd)

#### **Continuing Connected Transaction(s)** (Cont'd)

(b) The Independent Non-executive Directors of the Company have reviewed the continuing connected transactions as set out in note 33(a)(i–vi) to the financial statements and confirmed that these transactions were entered into (i) in the ordinary and usual course of business of the Group; (ii) on normal commercial terms or better; and (iii) in according to the agreements governing them on terms that are fair and reasonable and in the interests of the shareholders of the Company as a whole.

KPMG, the Company's auditors, were engaged to report on the Group's continuing connected transactions in accordance with Hong Kong Standard on Assurance Engagements 3000 (Revised) Assurance Engagements Other than Audits or Reviews of Historical Financial Information and with reference to Practice Note 740 Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules issued by the Hong Kong Institute of Certified Public Accountants. KPMG have issued their unqualified letter containing their findings and conclusions in respect of the continuing connected transactions disclosed above by the Group in accordance with Rule 14A.56 of the Listing Rules. A copy of the auditors' letter will be provided by the Company to the Stock Exchange.

#### SUFFICIENCY OF PUBLIC FLOAT

Based on information that is publicly available to the Company and within the knowledge of the directors, at least 25% of the Company's total number of issued shares were held by the public as at the date of this report.

#### **DIRECTORS' INTERESTS IN A COMPETING BUSINESS**

During the year and up to the date of this report, the following directors are considered to have interests in businesses which compete or are likely to compete, either directly or indirectly, with the businesses of the Group, as defined in the Listing Rules, as set out below:

Ms. Wu Meng (Executive Director and Chairman of the Board of the Company) is:

- a member of the executive committee, a general manager of the international business division of Shenwan Hongyuan Securities Co., Ltd. which is involved in securities business;
- a director of SWS Research Co., Ltd. which is involved in securities research and consulting business;
- a director of Shenwan Hongyuan Financing Services Co., Ltd. which is involved in securities underwriting, sponsoring and financial advisory businesses; and
- a chairman and a general manager of Shenwan Hongyuan (International) Holdings Limited, which is an investment holding company and through its wholly-owned subsidiary, Shenwan Hongyuan Singapore Private Limited, engages in securities brokerage business and fund management.

#### **DIRECTORS' INTERESTS IN A COMPETING BUSINESS** (Cont'd)

Mr. Guo Chun (Executive Director and Deputy Chairman of the Board of the Company) is a director of Shenwan Hongyuan Singapore Private Limited, a wholly-owned subsidiary of Shenwan Hongyuan (International) Holdings Limited, which is engaged in securities brokerage business and fund management.

Mr. Zhang Jian (Executive Director of the Company) is:

- a deputy general manager of Shenwan Hongyuan Securities Co., Ltd. which is involved in securities business;
- a chairman of Shenwan Hongyuan Financing Services Co., Ltd. which is involved in securities underwriting, sponsoring and financial advisory businesses; and
- a director of Shenwan Hongyuan (International) Holdings Limited, which is an investment holding company and through its wholly-owned subsidiary, Shenwan Hongyuan Singapore Private Limited, engages in securities brokerage business and fund management.

Mr. Liang Jun (Executive Director and Chief Executive Officer of the Company) is a deputy general manager of Shenwan Hongyuan (International) Holdings Limited, which is an investment holding company and through its wholly-owned subsidiary, Shenwan Hongyuan Singapore Private Limited, engages in securities brokerage business and fund management.

Mr. Zhang Lei (Non-executive Director of the Company) is a director and responsible officer of SIIC Asset Management Company Limited which is involved in the provision of asset management services.

Any director(s) who is/are or deemed to be interested in any proposed transaction(s) will have his/their interest fully disclosed and will abstain from voting at the relevant resolution(s) in accordance with the applicable requirements of the Articles of Associations of the Company, the Group is capable of carrying on its businesses independently of, and at arm's length from, the businesses of such companies/entities.

#### **AUDITORS**

The consolidated financial statements of the Group for the year ended 31 December 2021 have been audited by KPMG, Certified Public Accountants and Public Interest Entity Auditor registered in accordance with the Financial Reporting Council Ordinance, who will retire, being eligible, and offer themselves for the re-appointment at the forthcoming annual general meeting of the Company.

ON BEHALF OF THE BOARD

**Wu Meng** *Chairman* 

Hong Kong 28 March 2022

#### INDEPENDENT AUDITOR'S REPORT

Independent auditor's report to the members of Shenwan Hongyuan (H.K.) Limited (Incorporated in Hong Kong with limited liability)

#### **OPINION**

We have audited the consolidated financial statements of Shenwan Hongyuan (H.K.) Limited ("the Company") and its subsidiaries (together "the Group") set out on pages 92 to 186, which comprise the consolidated statement of financial position as at 31 December 2021, the consolidated statement of profit or loss, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2021 and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the Hong Kong Companies Ordinance.

#### **BASIS FOR OPINION**

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the *Auditor's responsibilities* for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the HKICPA's *Code of Ethics for Professional Accountants* ("the Code") and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **KEY AUDIT MATTERS**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements for the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### **KEY AUDIT MATTERS** (Cont'd)

#### Assessment of the fair value of financial instruments

Refer to note 2.5(b), 2.5(g)(iii), 18, 19, 20, 25 and 36 to the consolidated financial statements.

#### **The Key Audit Matter**

# As at 31 December 2021, financial instruments carried at fair value account for a significant portion of the Group's assets and liabilities. The fair value of the Group's financial assets was HK\$9,937 million of which HK\$8,239 million and HK\$695 million were classified as level 2 and level 3 financial instruments respectively. The fair value of the Group's financial liabilities was HK\$5,400 million of which HK\$4,841 million and HK\$21 million were classified as level 2 and level 3 financial instruments respectively.

The valuation of the Group's financial instruments which are stated at their fair values is based on a combination of market data and valuation models which often require a considerable number of inputs. Many of these inputs are obtained from readily available data for liquid markets. Where such observable data is not readily available, estimates need to be developed which can involve significant judgement.

The Group employed various valuation methodology in valuing these level 2 and level 3 financial instruments, including the use of third party models and external valuation specialists, which involves significant management judgement.

During the year, the increased market volatility resulted in higher estimation uncertainty in management's assessment of the marketability and valuation of financial instruments held.

We identified assessment of the fair value of financial instruments as a key audit matter because of the degree of complexity involved in valuing certain financial instruments and because of the degree of judgement exercised by management in developing its own models and in determining the inputs used in the valuation models.

#### How the matter was addressed in our audit

Our audit procedures to assess the fair value of financial instruments included the following:

- assessing the design, implementation and operating effectiveness of key internal controls for financial instruments;
- evaluating the fair values of financial instruments with quoted price by comparing the fair values applied by the Group with publicly available market data;
- engaging our valuation specialists to perform, on a sample basis, independent valuations of level 2 and level 3 financial instruments and comparing these valuations with the Group's valuations. Our valuation specialists either compared prices from independent sources to those used by management to assess pricing for certain financial instruments or evaluated management's methodology and obtained independent inputs in order to reperform our own valuation; and
- assessing whether the disclosures in the consolidated financial statements appropriately reflected the Group's exposure to financial instrument valuation risk with reference to the requirements of the prevailing accounting standards.

#### **KEY AUDIT MATTERS** (Cont'd)

#### Allowance for expected credit loss of debt securities

Refer to note 2.5(h)(i), 19 to the consolidated financial statements.

#### **The Key Audit Matter**

# As at 31 December 2021, debt securities measured at amortised cost and at fair value through other comprehensive income amounted to HK\$577 million and HK\$1,248 million, representing 2.5% and 5.4% of the Group's total assets respectively. Total allowance for expected credit losses ("ECLs") was HK\$211 million as at 31 December 2021.

The COVID-19 pandemic and growing worries about defaults from China's property sector have led to additional challenges in assessing impairment provisions. The increased market volatility resulted in higher estimation uncertainty in management's assessment and therefore more judgement is required.

The Group applies its ECL model to assess allowance for ECL of debt securities measured at amortised cost and fair value through other comprehensive income in accordance with HKFRS 9, Financial Instrument. The determination of ECLs using the ECL model is subject to a number of key parameters and assumptions, including the identification of loss stages, estimates of probability of default, loss given default, exposures at default and discount rate, adjustments for forwarding-looking information and other adjustment factors. Management judgement is involved in the selection of the parameters and the application of the assumptions.

#### How the matter was addressed in our audit

Our audit procedures to assess ECL for debt securities measured at amortised cost and debt securities at fair value through other comprehensive income included the following:

- understanding and assessing the design, implementation and operating effectiveness of key internal controls of financial reporting over the calculation, approval and recording of allowance for ECL;
- assessing the reliability of the ECL model used by management in determining loss allowances with the assistance of our internal specialists, including assessing the appropriateness of the key parameters and assumptions in the ECL model, including the identification of loss stages, probability of default, loss given default, exposure at default, discount rate, adjustments for forward-looking information and other management adjustments;
- assessing the completeness and accuracy of data used for the key parameters in the ECL model. For key parameters derived from external data, we selected samples to inspect the accuracy of such data by comparing them with public resources;
- for key parameters involving judgement, critically assessing input parameters by seeking evidence from external sources. As part of these procedures, we challenged the reasons for modifications to estimates and input parameters compared with prior period and considered the consistency of judgement. We compared the economic factors used in the models with market information to assess whether they were aligned with market and economic development.

#### **KEY AUDIT MATTERS** (Cont'd)

#### Allowance for expected credit loss of debt securities (Cont'd)

Refer to note 2.5(h)(i), 19 to the consolidated financial statements.

#### The Key Audit Matter

#### How the matter was addressed in our audit

We identified the allowance for ECL of debt securities as a key audit matter because of the inherent uncertainty and management judgment involved. Our audit procedures to assess ECL for debt securities measured at amortised cost and debt securities at fair value through other comprehensive income included the following:

- evaluating the validity of management's assessment on whether the credit risk of debt securities measured at amortised cost and financial assets at fair value through other comprehensive income has, or has not, increased significantly since initial recognition and whether they are credit-impaired by selecting risk-based samples. We checked and compared the credit rating as at initial recognition and that at reporting date;
- recalculating the amount of credit loss allowance for 12 month and life time credit losses using the ECL model based on the above parameters and assumptions for a sample of financial assets where the credit risk has, or has not, increased significantly since initial recognition, respectively; and
- evaluating whether the disclosures on the provision of expected credit loss meet the disclosure requirements in the prevailing accounting standards.

# INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND OUR AUDITOR'S REPORT THEREON

The directors are responsible for the other information. The other information comprises all the information included in the annual report, other than the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

#### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, in accordance with section 405 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

# **AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS** (Cont'd)

 Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements.
 We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Fong Hoi Wan.

Certified Public Accountants 8th Floor, Prince's Building 10 Chater Road Central, Hong Kong

Incorporated in the British Virgin Islands

The above table lists the subsidiaries of the Company which, in the opinion of the directors, principally affected the results for the year or formed a substantial portion of the net assets of the Group. To give details of other subsidiaries would, in the opinion of the directors, result in particulars of excessive length. The financial statements not audited by KPMG reflect total net assets and total profit before taxation constituting HK\$5,371,000 and HK\$145,000 (2020: HK\$5,207,000 and HK\$4,686,000)) of consolidated totals.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.1 STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSs") (which collective term includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards ("HKASs") and Interpretations) issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA"), accounting principles generally accepted in Hong Kong and requirements of the Hong Kong Companies Ordinance. These financial statements also comply with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited ("Listing Rules"). A summary of the significant accounting policies adopted by the Group is set out in note 2.5.

The HKICPA has issued certain amendments HKFRSs that are first effective or available for early adoption for the current accounting period of the Group. Note 2.3 provides information on any changes in accounting policies resulting from initial application of these developments to the extent that they are relevant to the Group for the current and prior accounting periods reflected in these financial statements.

#### 2.2 BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS

The consolidated financial statements for the year ended 31 December 2021 comprise the Company and its subsidiaries.

The measurement basis used in the preparation of the financial statements is the historical cost basis except the following assets are stated at their fair value as explained in the accounting policies set out below.

- Financial assets at fair value through profit or loss (see note 2.5(g))
- Financial assets at fair value through other comprehensive income (see note 2.5(g))
- Certain loans and advances to margin clients (see note 2.5(g))
- Advances to cash clients (see note 2.5(g))

The preparation of financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.2 BASIS OF PREPARATION OF THE FINANCIAL STATEMENTS (Cont'd)

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of HKFRSs that have significant effect on the financial statements and major sources of estimation uncertainty are discussed in note 3.

#### 2.3 CHANGES IN ACCOUNTING POLICY

The HKICPA has issued following amendments to HKFRSs that are first effective for the current accounting period of the Group:

- Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16, Interest rate benchmark reform phase 2
- Amendment to HKFRS 16, Covid-19-related rent concessions beyond 30 June 2021

Other than the amendment to HKFRS 16, the Group has not applied any new standard or interpretation that is not yet effective for the current accounting period. Impacts of the adoption of the amended HKFRSs are discussed below:

# Amendments to HKFRS 9, HKAS 39, HKFRS 7, HKFRS 4 and HKFRS 16, *Interest rate benchmark* reform — phase 2

The amendments provide targeted reliefs from (i) accounting for changes in the basis for determining contractual cash flows of financial assets, financial liabilities and lease liabilities as modifications, and (ii) discontinuing hedge accounting when an interest rate benchmark is replaced by an alternative benchmark rate as a result of the reform of interbank offered rates ("IBOR reform"). The amendments do not have a significant impact on the consolidated financial statements.

# Amendment to HKFRS 16, Covid-19-related rent concessions beyond 30 June 2021 (2021 amendment)

The amendment provides a practical expedient that allows a lessee to by-pass the need to evaluate whether certain qualifying rent concessions occurring as a direct consequence of the COVID-19 pandemic ("COVID-19-related rent concessions") are lease modifications and, instead, account for those rent concessions as if they were not lease modifications. The 2021 amendment extends this time limit from 30 June 2021 to 30 June 2022. The amendments do not have a significant impact on the consolidated financial statements.

(Expressed in Hong Kong dollars unless otherwise indicated)

**Effective for** 

#### 2.4 POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED **BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 31 DECEMBER 2021**

Up to the date of issue of these financial statements, the HKICPA has issued a number of amendments and a new standard, HKFRS 17, Insurance contracts, which are not yet effective for the year ended 31 December 2021 and which have not been adopted in these financial statements. These developments include the following which may be relevant to the Group.

	accounting periods beginning on or after
Amendments to HKFRS 3, Reference to the Conceptual Framework	1 January 2022
Amendments to HKAS 16, Property, Plant and Equipment: Proceeds before Intended Use	1 January 2022
Amendments to HKAS 37, Onerous Contracts — Cost of Fulfilling a Contract	1 January 2022
Annual Improvements to HKFRSs 2018–2020 Cycle	1 January 2022
Amendments to HKAS 1, Classification of liabilities as current or non-current	1 January 2023
Amendments to HKAS 1 and HKFRS Practice Statement 2, Disclosure of accounting policies	1 January 2023
Amendments to HKAS 8, Definition of accounting estimates	1 January 2023
Amendments to HKAS 12, Deferred tax related to assets and liabilities arising from a single transaction	1 January 2023

The Group is in the process of making an assessment of what the impact of these developments is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the consolidated financial statements.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### (a) Subsidiaries and non-controlling interests

Subsidiaries are entities controlled by the Group. The Group controls an entity when it is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. When assessing whether the Group has power, only substantive rights (held by the Group and other parties) are considered.

An investment in a subsidiary is consolidated into the consolidated financial statements from the date that control commences until the date that control ceases. Intra-group balances, transactions and cash flows and any unrealised profits arising from intra-group transactions are eliminated in full in preparing the consolidated financial statements. Unrealised losses resulting from intra-group transactions are eliminated in the same way as unrealised gains but only to the extent that there is no evidence of impairment.

Non-controlling interests represent the equity in a subsidiary not attributable directly or indirectly to the Company, and in respect of which the Group has not agreed any additional terms with the holders of those interests which would result in the Group as a whole having a contractual obligation in respect of those interests that meets the definition of a financial liability. For each business combination, the Group can elect to measure any non-controlling interests either at fair value or at the non-controlling interests' proportionate share of the subsidiary's net identifiable assets.

Non-controlling interests are presented in the consolidated statement of financial position within equity, separately from equity attributable to the equity shareholders of the Company. Non-controlling interests in the results of the Group are presented on the face of the consolidated statement of profit or loss and the consolidated statement of profit or loss and other comprehensive income as an allocation of the total profit or loss and total comprehensive income for the year between non-controlling interests and the equity shareholders of the Company.

Changes in the Group's interests in a subsidiary that do not result in a loss of control are accounted for as equity transactions, whereby adjustments are made to the amounts of controlling and non-controlling interests within consolidated equity to reflect the change in relative interests, but no adjustments are made to goodwill and no gain or loss is recognised.

When the Group loses control of a subsidiary, it is accounted for as a disposal of the entire interest in that subsidiary, with a resulting gain or loss being recognised in profit or loss. Any interest retained in that former subsidiary at the date when control is lost is recognised at fair value and this amount is regarded as the fair value on initial recognition of a financial asset (see note 2.5(g)) or, when appropriate, the cost on initial recognition of an investment in an associate or joint venture.

In the Company's statement of financial position, an investment in a subsidiary is stated at cost less impairment losses (see note 2.5(h)).

(Expressed in Hong Kong dollars unless otherwise indicated)

#### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### Fair value measurement **(b)**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy with reference to the observability and significance of the inputs that are used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date
- Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available
- Level 3 valuations: Fair value measured using significant unobservable inputs

For assets and liabilities that are measured at fair value and recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorisation at the end of each reporting period.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### (c) Related parties

- (a) A person, or a close member of that person's family, is related to the Group if that person:
  - (i) has control or joint control over the Group;
  - (ii) has significant influence over the Group; or
  - (iii) is a member of the key management personnel of the Group or the Group's parent.
- (b) An entity is related to the Group if any of the following conditions applies:
  - (i) The entity and the Group are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
  - (ii) One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
  - (iii) Both entities are joint ventures of the same third party.
  - (iv) One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
  - (v) The entity is a post-employment benefit plan for the benefit of employees of either the Group or an entity related to the Group.
  - (vi) The entity is controlled or jointly controlled by a person identified in (a).
  - (vii) A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).
  - (viii) The entity, or any member of a group of which it is a part, provides key management personnel services to the Group or to the Group's parent.

Close members of the family of a person are those family members who may be expected to influence, or be influenced by, that person in their dealings with the entity.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### (d) Property, plant and equipment and depreciation

Property, plant and equipment are stated at cost less accumulated depreciation and any impairment losses. The cost of an item of property, plant and equipment comprises its purchase price and any directly attributable costs of bringing the asset to its working condition and location for its intended use.

Expenditure incurred after items of property, plant and equipment have been put into operation, such as repairs and maintenance, is normally charged to the statement of profit or loss in the period in which it is incurred. In situations where the recognition criteria are satisfied, the expenditure for a major inspection is capitalised in the carrying amount of the asset as a replacement. Where significant parts of property, plant and equipment are required to be replaced at intervals, the Group recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Depreciation is calculated on the straight-line basis to write off the cost of each item of property, plant and equipment to its residual value over its estimated useful life. The principal annual rates used for this purpose are as follows:

- Buildings 4%

 Leasehold improvements Over the lease terms

- Furniture, fixtures and equipment  $15\% - 33^{1}/_{3}\%$ 

— Motor vehicles 25%

Where parts of an item of property, plant and equipment have different useful lives, the cost of that item is allocated on a reasonable basis among the parts and each part is depreciated separately. Residual values, useful lives and the depreciation method are reviewed, and adjusted if appropriate, at least at each financial year end.

An item of property, plant and equipment including any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on disposal or retirement recognised in the consolidated statement of profit or loss in the year the asset is derecognised is the difference between the net sale proceeds and the carrying amount of the relevant asset.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### (e) Intangible assets (other than goodwill)

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is the fair value at the date of acquisition. The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are subsequently amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

Intangible assets with indefinite useful lives are tested for impairment annually either individually or at the cash-generating unit level. Such intangible assets are not amortised. The useful life of an intangible asset with an indefinite life is reviewed annually to determine whether the indefinite life assessment continues to be supportable. If not, the change in the useful life assessment from indefinite to finite is accounted for on a prospective basis.

Intangible assets, which consist of the Stock and Futures Exchange trading rights, being the eligibility rights to trade on or through The Stock Exchange of Hong Kong Limited and Hong Kong Futures Exchange Limited with indefinite useful lives, are tested for impairment annually either individually or at the cash-generating unit level. Such intangible assets are not amortised. The useful life of the Stock and Futures Exchange trading rights is reviewed annually to determine whether the indefinite life assessment continues to be supportable. If not, the change in the useful life assessment from indefinite to finite is accounted for on a prospective basis.

#### (f) Leases

At inception of a contract, the Group assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

Where the contract contains lease component(s) and non-lease component(s), the Group has elected to separate non-lease components and accounts for each lease component.

At the lease commencement date, the Group recognises a right-of-use asset and a lease liability, except for short-term leases that have a lease term of 12 months or less and leases of low-value assets. When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### **(f) Leases** (Cont'd)

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received. The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses (see notes 2.5(h)).

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the Group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The lease liability is also remeasured when there is a change in the scope of a lease or the consideration for a lease that is not originally provided for in the lease contract ("lease modification") that is not accounted for as a separate lease. In this case the lease liability is remeasured based on the revised lease payments and lease term using a revised discount rate at the effective date of the modification.

In the consolidated statement of financial position, the current portion of long-term lease liabilities is determined as the present value of contractual payments that are due to be settled within twelve months after the reporting period.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### (g) Financial assets and financial liabilities

#### (i) Recognition and initial measurement

The Group classifies its financial assets into the following measurement categories: amortised cost; fair value through other comprehensive income ("FVOCI"); and fair value through profit or loss ("FVPL"). When financial assets are recognised initially, they are measured at fair value plus transaction costs that are attributable to the acquisition of the financial assets, except in the case of financial assets recorded at fair value through profit or loss for which transaction costs are recognised directly in profit or loss.

All regular way purchases and sales of financial assets are recognised on the trade date, that is, the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

All financial liabilities are recognised initially at its fair value net of directly attributable transaction costs except in the case of financial liabilities measured at FVPL, for which transaction costs are recognised directly in profit or loss.

#### (ii) Classification

On initial recognition, a financial asset is classified as measured at: amortised cost, FVOCI or FVPL.

#### Financial asset measured at amortised cost or at FVOCI

A financial asset is measured at amortised cost if it has contractual terms that give rise to cash flows that are solely payments of principal and interest ("SPPI characteristics"). Principal is the fair value of the financial asset at initial recognition but this may change over the life of the instrument as amounts are repaid. Interest consists of consideration for the time value of money, for the credit risk associated with the principal amount outstanding during a particular period and for other basic lending risks and costs, as well as profit margin.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### **Financial assets and financial liabilities** (Cont'd)

Classification (Cont'd)

#### Financial asset measured at amortised cost or at FVOCI (Cont'd)

Whether financial assets are held at amortised cost or at FVOCI depend on the objectives of the business models under which the assets are held. A business model refers to how the Group manages financial assets to generate cash flows. The Group makes an assessment of the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and its strategy for how those risks are managed;
- how managers of the business are compensated (e.g. whether compensation is based on the fair value of the assets managed or the contractual cash flows collected); and
- the frequency, volume and timing of sales in prior periods, the reasons for such sales and its expectations about future sales activity. However, information about sales activity is not considered in isolation, but as part of an overall assessment of how the Group's stated objective for managing the financial assets is achieved and how cash flows are realized.

Financial assets which have SPPI characteristics and that are held within a business model whose objective is to hold financial assets to collect contractual cash flows ("hold to collect") are recorded at amortised cost. Conversely, financial assets which have SPPI characteristics but are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets ("hold to collect and sell") are classified as held at FVOCI.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### (g) Financial assets and financial liabilities (Cont'd)

(ii) Classification (Cont'd)

# Assessment of whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs (e.g. liquidity risk and administrative costs), as well as profit margin. In assessing whether the contractual cash flows are SPPI, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making the assessment, the Group considers:

- contingent events that would change the amount and timing of cash flows;
- leverage features;
- prepayment and extension terms;
- terms that limit the Group's claim to cash flows from specified assets; and
- features that modify consideration of the time value of money (e.g. periodical reset of interest rate).

#### Financial asset measured at FVPL

Financial assets which are not held at amortised cost or not held at fair value through other comprehensive income are held at fair value through profit or loss. Financial assets and financial liabilities held at fair value through profit or loss are either mandatorily classified as fair value through profit or loss or irrevocably designated at fair value through profit or loss at initial recognition.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### **Financial assets and financial liabilities** (Cont'd)

Classification (Cont'd)

#### Financial asset measured at FVPL (Cont'd)

Financial assets and financial liabilities which are mandatorily held at fair value through profit or loss are split between two sub-categories as follows:

- Trading, including financial assets and liabilities held for trading, which are those acquired principally for the purpose of selling in the short term and derivatives.
- Non-trading mandatorily at fair value through profit or loss, including instruments (other than trading or derivatives) in a business which has a fair value business model, hybrid financial assets that contain one or more embedded derivatives, financial asset that would otherwise be measured at amortised cost of FVOCI but which do not have SPPI characteristics and equity instruments that have not been designated as held at FVOCI.

Financial assets and financial liabilities may be designated at fair value through profit or loss when the designation eliminates or significantly reduces measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities on a different basis.

Financial liabilities that are not financial guarantees or loan commitments and that are not classified as financial liabilities held at fair value through profit or loss are classified as financial liabilities held at amortised cost.

The Group's financial liabilities include accounts payable, other payables and certain accruals and interest-bearing bank borrowings. The Group classified its financial liabilities as subsequently measured at amortised cost.

#### Reclassifications

Financial assets are not reclassified subsequent to their initial recognition, except in the period after the Group changes its business model for managing financial assets.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### (g) Financial assets and financial liabilities (Cont'd)

#### (iii) Subsequent measurement

Financial assets and financial liabilities held at amortised cost are subsequently carried at amortised cost using the effective interest method.

Financial assets and liabilities mandatorily held at fair value through profit or loss and financial assets designated at fair value through profit or loss are subsequently carried at fair value, with gains and losses arising from changes in fair value recorded in revenue from other sources line in the statement of profit or loss unless the instrument is part of a cash flow hedging relationship. Contractual interest income on financial assets held at fair value through profit or loss is recognised as realised and unrealised gain/(loss) in the statement of profit or loss.

#### (iv) Derecognition

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in OCI is recognised in profit or loss.

The Group enters into transactions whereby it transfers assets recognised on its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets or a portion of them. In such cases, the transferred assets are not derecognised. Examples of such transactions are securities lending and sale-and-repurchase transactions.

In transactions in which the Group neither retains nor transfers substantially all of the risks and rewards of ownership of a financial asset and it retains control over the asset, the Group continues to recognise the asset to the extent of its continuing involvement, determined by the extent to which it is exposed to changes in the value of the transferred asset.

The Group derecognises a financial liability when its contractual obligations are discharged or expired.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### (h) Credit losses and impairment of assets

Credit losses from financial assets measured at amortised cost and FVOCI

Expected credit losses ("ECLs") are determined for all financial instruments that are classified at amortised cost or at FVOCI, undrawn commitments and financial guarantees. Financial assets measured at FVPL are not subject to the ECL assessment. The Group recognises a loss allowances for ECL on accounts receivable, bank balances, debt securities measured at amortised cost and FVOCI and reverse repurchase agreement.

#### Measurement of ECLs

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all expected cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive).

For undrawn loan commitments, expected cash shortfalls are measured as the difference between (i) the contractual cash flows that would be due to the Group if the holder of the loan commitment draws down on the loan and (ii) the cash flows that the Group expects to receive if the loan is drawn down.

The expected cash shortfalls are discounted using the following discount rates where the effect of discounting is material:

- fixed-rate financial assets: effective interest rate determined at initial recognition or an approximation thereof;
- variable-rate financial assets: current effective interest rate;
- lease receivables: discount rate used in the measurement of the lease receivable; and
- loan commitments: current risk-free rate adjusted for risks specific to the cash flows

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

In measuring ECLs, the Group takes into accounts reasonable and supportable information that is available without undue cost or effort. This includes information about past events, current conditions and forecasts of future economic conditions.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### (h) Credit losses and impairment of assets (Cont'd)

(i) Credit losses from financial assets measured at amortised cost and FVOCI (Cont'd)

#### **Measurement of ECLs** (Cont'd)

ECLs are measured on either of the following bases:

- 12-month ECLs: these are losses that are expected to result from possible default events within the 12 months after the reporting date; and
- Lifetime ECLs: these are losses that are expected to result from all possible default events over the expected lives of the items to which the ECL model applies.
- Stage 1 Financial instruments for which credit risk has not increased significantly since initial recognition and for which the loss allowance is measured at an amount equal to 12-month ECLs
- Stage 2 Financial instruments for which credit risk has increased significantly since initial recognition but that are not credit-impaired financial assets and for which the loss allowance is measured at an amount equal to lifetime ECLs
- Stage 3 Financial assets that are credit-impaired at the reporting date (but that are not purchased or originated credit-impaired) and for which the loss allowance is measured at an amount equal to lifetime ECLs.

Loss allowances for accounts receivable arising from corporate finance, advisory and other services are always measured at an amount equal to lifetime ECLs. ECLs on these financial assets are estimated based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors and an assessment of both the current and forecast general economic conditions at the reporting date.

For all other financial instruments (including loan commitments issued), the Group recognises a loss allowance equal to 12-month ECLs unless there has been a significant increase in credit risk of the financial instrument since initial recognition, in which case the loss allowance is measured at an amount equal to lifetime ECLs.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### (h) Credit losses and impairment of assets (Cont'd)

Credit losses from financial assets measured at amortised cost and FVOCI (Cont'd)

#### Significant increases in credit risk

In assessing whether the credit risk of a financial instrument has increased significantly since initial recognition, the Group compares the risk of default occurring on the financial instrument assessed at the reporting date with that assessed at the date of initial recognition. In making this reassessment, the Group considers that a default event occurs when (i) the debtor is unlikely to pay its credit obligations to the Group in full, without recourse by the Group to actions such as realising security (if any is held); or (ii) the financial asset is past due over 90 days. The Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- failure to make payments of principal or interest on their contractually due dates;
- an actual or expected significant deterioration in a financial instrument's external or internal credit rating (if available);
- an actual or expected significant deterioration in the operating results of the debtor; and
- existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Group.

Depending on the nature of the financial instruments, the assessment of a significant increase in credit risk is performed on either an individual basis or a collective basis. When the assessment is performed on a collective basis, the financial instruments are grouped based on shared credit risk characteristics, such as past due status and credit risk ratings.

ECLs are remeasured at each reporting date to reflect changes in the financial instrument's credit risk since initial recognition. Any change in the ECL amount is recognised as an impairment gain or loss in profit or loss. The Group recognises an impairment gain or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt securities that are measured at FVOCI of which the impairment loss is accumulated in the fair value reserve (recycling).

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### (h) Credit losses and impairment of assets (Cont'd)

Credit losses from financial assets measured at amortised cost and FVOCI (Cont'd)

#### Basis of calculation of interest income

Interest income recognised in accordance with note 2.5(p) is calculated based on the gross carrying amount of the financial asset unless the financial asset is credit-impaired, in which case interest income is calculated based on the amortised cost (i.e. the gross carrying amount less loss allowance) of the financial asset.

At each reporting date, the Group assesses whether a financial asset is credit-impaired. A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired includes the following observable events:

- significant financial difficulties of the debtor;
- a breach of contract, such as a default or delinquency in interest or principal payments;
- it becoming probable that the borrower will enter into bankruptcy or other financial reorganisation;
- significant changes in the technological, market, economic or legal environment that have an adverse effect on the debtor; or
- the disappearance of an active market for a security because of financial difficulties of the issuer.

#### Write-off policy

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off.

Subsequent recoveries of an asset that was previously written off are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (Cont'd)

#### (h) Credit losses and impairment of assets (Cont'd)

#### Impairment of other non-financial assets

Internal and external sources of information are reviewed at the end of each reporting period to identify indications that the following assets may be impaired or, except in the case of goodwill, an impairment loss previously recognised no longer exists or may have decreased:

- property, plant and equipment, including right-of-use assets;
- intangible assets (other than goodwill); and
- investments in subsidiaries, in Company's statement of financial position.

If any such indication exists, the asset's recoverable amount is estimated. In addition, for intangible assets that are not yet available for use and intangible assets that have indefinite useful lives, the recoverable amount is estimated annually whether or not there is any indication of impairment.

#### Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the smallest group of assets that generates cash inflows independently (i.e. a cash-generating unit).

### **Recognition of impairment losses**

An impairment loss is recognised in profit or loss if the carrying amount of an asset, or the cash-generating unit to which it belongs, exceeds its recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the cash-generating unit (or group of units) and then, to reduce the carrying amount of the other assets in the unit (or group of units) on a pro rata basis, except that the carrying value of an asset will not be reduced below its individual fair value less costs of disposal (if measurable) or value in use (if determinable).

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### (h) Credit losses and impairment of assets (Cont'd)

(ii) Impairment of other non-financial assets (Cont'd)

#### Reversals of impairment losses

In respect of assets other than goodwill, an impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. An impairment loss in respect of goodwill is not reversed.

A reversal of an impairment loss is limited to the asset's carrying amount that would have been determined had no impairment loss been recognised in prior years. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

#### (i) Contract assets and contract liabilities

A contract asset is recognised when the Group recognises revenue (see note 2.5(p)) before being unconditionally entitled to the consideration under the payment terms set out in the contract. Contract assets are assessed for expected credit losses in accordance with the policy set out in note 2.5(h) and are reclassified to receivables when the right to the consideration has become unconditional.

A contract liability is recognised when the customer pays non-refundable consideration before the Group recognises the related revenue (see note 2.5(p)). A contract liability would also be recognised if the Group has an unconditional right to receive non-refundable consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised.

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis. When the contract includes a significant financing component, the contract balance includes interest accrued under the effective interest method.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### Offsetting of financial instruments (i)

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

#### Accounts and other receivables

A receivable is recognised when the Group has an unconditional right to receive consideration. A right to receive consideration is unconditional if only the passage of time is required before payment of that consideration is due. If revenue has been recognised before the Group has an unconditional right to receive consideration, the amount is presented as a contract asset (see note 2.5(i)).

Receivables are stated at amortised cost using the effective interest method less allowance for credit losses (see note 2.5(h)).

#### **(l)** Cash and bank balances

For the purpose of the consolidated statement of cash flows, cash and bank balances comprise cash on hand and demand deposits, and short term highly liquid investments that are readily convertible into known amounts of cash, are subject to an insignificant risk of changes in value, and have a short maturity of generally within three months when acquired, less bank overdrafts which are repayable on demand and form an integral part of the Group's cash management.

For the purpose of the consolidated statement of financial position, cash and bank balances comprise cash on hand and at banks, including term deposits, and assets similar in nature to cash, which are not restricted as to use.

Cash and cash equivalents are assessed for expected credit losses in accordance with the policy set out in note 2.5(h)(i).

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### (m) Bank balances held on behalf of clients

The Group has classified clients' monies as bank balances held on behalf of clients under the current assets section of the consolidated statement of financial position and recognised a corresponding accounts payable to respective clients on grounds that the Group is liable for any loss or misappropriation of clients' monies. Bank balance held on behalf of clients are assessed for expected credit losses in accordance with the policy set out in note 2.5(h)(i).

#### (n) Provisions

A provision is recognised when a present obligation (legal or constructive) has arisen as a result of a past event and it is probable that a future outflow of resources will be required to settle the obligation, provided that a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, the amount recognised for a provision is the present value at the end of the reporting period of the future expenditures expected to be required to settle the obligation. The increase in the discounted present value amount arising from the passage of time is included in finance costs in the consolidated statement of profit or loss.

#### (o) Income tax

Income tax for the year comprises current tax and movements in deferred tax assets and liabilities. Current tax and movements in deferred tax assets and liabilities are recognised in profit or loss except to the extent that they relate to items recognised in other comprehensive income or directly in equity, in which case the relevant amounts of tax are recognised in other comprehensive income or directly in equity, respectively.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the end of the reporting period, and any adjustment to tax payable in respect of previous years.

Deferred tax assets and liabilities arise from deductible and taxable temporary differences respectively, being the differences between the carrying amounts of assets and liabilities for financial reporting purposes and their tax bases. Deferred tax assets also arise from unused tax losses and unused tax credits.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### **Income tax** (Cont'd) (0)

Apart from certain limited exceptions, all deferred tax liabilities, and all deferred tax assets to the extent that it is probable that future taxable profits will be available against which the asset can be utilised, are recognised. Future taxable profits that may support the recognition of deferred tax assets arising from deductible temporary differences include those that will arise from the reversal of existing taxable temporary differences, provided those differences relate to the same taxation authority and the same taxable entity, and are expected to reverse either in the same period as the expected reversal of the deductible temporary difference or in periods into which a tax loss arising from the deferred tax asset can be carried back or forward. The same criteria are adopted when determining whether existing taxable temporary differences support the recognition of deferred tax assets arising from unused tax losses and credits, that is, those differences are taken into account if they relate to the same taxation authority and the same taxable entity, and are expected to reverse in a period, or periods, in which the tax loss or credit can be utilised.

The carrying amount of a deferred tax asset is reviewed at the end of each reporting period and is reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the related tax benefit to be utilised. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profits will be available.

Current tax balances and deferred tax balances, and movements therein, are presented separately from each other and are not offset. Current tax assets are offset against current tax liabilities, and deferred tax assets against deferred tax liabilities, if the Company or the Group has the legally enforceable right to set off current tax assets against current tax liabilities and the following additional conditions are met:

- in the case of current tax assets and liabilities, the Company or the Group intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously; or
- in the case of deferred tax assets and liabilities, if they relate to income taxes levied by the same taxation authority on either:
  - the same taxable entity; or
  - different taxable entities, which, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered, intend to realise the current tax assets and settle the current tax liabilities on a net basis or realise and settle simultaneously.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### (p) Revenue and other income

Income is classified by the Group as revenue when it arises from the provision of services.

Revenue is recognised when control over service is transferred to the customer at the amount of promised consideration to which the Group is expected to be entitled, excluding those amounts collected on behalf of third parties.

Where the contract contains a variable consideration, the Group estimates the amount of consideration to which it will be entitled in exchange for transferring the promised goods or services to a customer and includes in the transaction price some or all of the variable consideration estimated, such that revenue is only recognised to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur.

Where the contract contains a financing component which provides a significant financing benefit to the customer for more than 12 months, revenue is measured at the present value of the amount receivable, discounted using the discount rate that would be reflected in a separate financing transaction with the customer, and interest income is accrued separately under the effective interest method. Where the contract contains a financing component which provides a significant financing benefit to the Group, revenue recognised under that contract includes the interest expense accreted on the contract liability under the effective interest method. The Group takes advantage of the practical expedient of in paragraph 63 of HKFRS 15 and does not adjust the consideration for any effects of a significant financing component if the period of financing is 12 months or less.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### **Revenue and other income** (Cont'd)

Further details of the Group's revenue and other income recognition policies are as follows:

#### Brokerage business income

Brokerage commission income is recognised on a trade date basis when the relevant transactions are executed. Handling and settlement fee income arising from brokerage business is recognised when the related services are rendered.

#### (b) Corporate finance business income

#### **Underwriting fee income** (i)

Underwriting fee income is recognised when the Group has fulfilled its obligations under the underwriting contract.

#### Sponsorship fee income and financial and compliance advisory fee income

Depending on the nature and the contract terms, the income is recognised progressively over time using a method that depicts the Group's performance, or at a point in time when the advisory service is completed.

#### Asset management fee income

Asset management fee income includes periodic management fees calculated based on assets under management and performance-based fees. The income is recognised progressively over time using a method that depicts the Group's performance, to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### (p) Revenue and other income (Cont'd)

#### (d) Interest income

Interest income is recognised as it accrues using the effective interest method. For financial assets measured at amortised cost or FVOCI (recycling) that are not creditimpaired, the effective interest rate is applied to the gross carrying amount of the asset. For credit impaired financial assets, the effective interest rate is applied to the amortised cost (i.e. gross carrying amount net of loss allowance) of the asset (see note 2.5(h)(i)).

#### (e) Dividend income

Dividend income from unlisted investments is recognised when the shareholder's right to receive payment is established.

Dividend income from listed investments is recognised when the share price of the investment goes ex-dividend.

#### (f) Investment income

Investment income, including realised fair value gains or losses on listed and unlisted investments trading, recognised on trade date and unrealised fair value gains or losses on changes in fair value recognised at the end of the reporting period.

### (g) Other income

Other income is recognised on an accrual basis.

#### (q) Interest-bearing borrowings

Interest-bearing borrowings are measured initially at fair value less transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method. Interest expense is recognised in accordance with the Group's accounting policy for borrowing costs.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### **Employee benefits** (r)

Short term employee benefits and contributions to defined contribution retirement plans

Salaries, annual bonuses, paid annual leave, contributions to defined contribution retirement plans and the cost of non-monetary benefits are accrued in the year in which the associated services are rendered by employees.

The Group operates a defined contribution Mandatory Provident Fund retirement benefit scheme (the "MPF Scheme") under the Mandatory Provident Fund Schemes Ordinance for all of its employees. The Group also retains its previous retirement scheme (the "ORSO Scheme") registered under the Occupational Retirement Scheme Ordinance as a top-up benefit for its employees.

Contributions are made based on a percentage of the employees' relevant income or basic salaries, whichever is greater, and are charged to the consolidated statement of profit or loss as they become payable in accordance with the rules of the MPF Scheme and the ORSO Scheme. For the ORSO Scheme, when the contribution exceeds the statutory maximum requirements, the excess contribution is credited as the employer's voluntary contribution to the ORSO Scheme. The employer's mandatory contributions to the MPF Scheme vest fully with the employees when contributed into the MPF Scheme. The employer's voluntary contributions to the ORSO Scheme vest with the employees according to the vesting scale of the ORSO Scheme. Forfeited contributions in respect of employees who leave the Group before their contributions fully vest are available to the Group to offset its future voluntary contributions.

The assets of the MPF Scheme and the ORSO Scheme are held separately from those of the Group in independently administered funds.

#### Termination benefits

Termination benefits are recognised at the earlier of when the Group can no longer withdraw the offer of those benefits and when it recognises restructuring costs involving the payment of termination benefits.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

### (s) Foreign currencies

These financial statements are presented in Hong Kong dollars, which is the Company's functional currency. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. Foreign currency transactions recorded by the entities in the Group are initially recorded using their respective functional currency rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency rates of exchange ruling at the end of the reporting period. Differences arising on settlement or translation of monetary items are recognised in the consolidated statement of profit or loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at ruling at the transaction dates. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured. The gain or loss arising on translation of a non-monetary item measured at fair value is treated in line with the recognition of the gain or loss on change in fair value of the item (i.e., translation difference on the item whose fair value gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss, respectively).

When the functional currencies of overseas subsidiaries are currencies other than the Hong Kong dollar, as at the end of the reporting period, the assets and liabilities of these entities are translated into Hong Kong dollars at the exchange rates prevailing at the end of the reporting period and their statements of profit or loss are translated into Hong Kong dollars at the average exchange rates for the year. The resulting exchange differences are recognised in other comprehensive income and accumulated in the exchange fluctuation reserve. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the consolidated statement of profit or loss.

For the purpose of the consolidated statement of cash flows, the cash flows of overseas subsidiaries are translated into Hong Kong dollars at the exchange rates ruling at the dates of the cash flows. Frequently recurring cash flows of overseas subsidiaries which arise throughout the year are translated into Hong Kong dollars at the weighted average exchange rates for the year.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

#### (t) **Segment reporting**

Operating segments, and the amounts of each segment item reported in the financial statements, are identified from the financial information provided regularly to the Group's most senior executive management for the purposes of allocating resources to, and assessing the performance of, the Group's various lines of business and geographical locations.

Individually material operating segments are not aggregated for financial reporting purposes unless the segments have similar economic characteristics and are similar in respect of the nature of products and services, the nature of production processes, the type or class of customers, the methods used to distribute the products or provide the services, and the nature of the regulatory environment. Operating segments which are not individually material may be aggregated if they share a majority of these criteria.

#### 3 SIGNIFICANT JUDGEMENT AND ACCOUNTING ESTIMATES

The preparation of the Group's financial statements in conformity with HKFRSs requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and their accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amounts of the assets or liabilities affected in the future.

#### **Estimation uncertainty**

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### SIGNIFICANT JUDGEMENT AND ACCOUNTING ESTIMATES (Cont'd)

#### **Estimation uncertainty** (Cont'd)

#### Measurement of ECL

Impairment assessment under ECL for financial assets at FVOCI and financial assets at amortised cost.

The impairment assessment under ECL is an area that requires the use of models and assumptions about future economic conditions and the credit risk of the respective financial instrument.

#### Inputs, assumptions and estimation techniques

ECL is the discounted product of expected future cash flows by using the Probability of Default ("PD"), Loss Given Default ("LGD") and Exposure at Default ("EAD"), of which PD and LGD are estimates based on significant management judgement. For credit-impaired financial assets, the management considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

#### Forward-looking information

In measuring ECL in accordance with HKFRS 9, it should consider forward-looking information. The calculation of ECL incorporates forward-looking information through the use of publicly available economic data and forecasts based on assumptions and management judgement to reflect the qualitative factors and through the use of multiple probability weighted scenarios.

#### Fair value measurement of financial instruments

Financial assets at FVOCI and FVPL and financial liabilities at FVPL are measured at fair values with fair values determined using various valuation techniques. Judgement and estimation are required in establishing the relevant valuation techniques and the relevant inputs thereof. Changes in assumptions relating to these factors could affect the reported fair values of these instruments. See note 36 for further disclosures.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### **OPERATING SEGMENT INFORMATION**

For management purposes, the Group is organised into business units based on their services and has five reportable operating segments as disclosed in the below table.

Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/(loss), which is a measure of adjusted profit/(loss) before tax. There is no measure of total assets and liabilities for reportable segments regularly provided to the chief operating decision maker.

### (b) Revenue expected to be recognised in the future arising from contracts with customers in existence at the reporting date

For corporate finance business contracts in existence as at 31 December 2021, the Group will recognise the expected revenue in future when the remaining performance obligations under the contracts are satisfied (see note 2.5(p)). The Group has applied the practical expedient in paragraph 121 of HKFRS 15, as the Group has a right to invoice, which corresponds directly to the value to the customer of the Group's performance completed to date.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### **OTHER EXPENSES**

### Net charges/(reversal) for expected credit losses

	2021 HK\$'000	2020 HK\$'000

	4	4

<sup>\*</sup> The amount in 2020 was restated upon completion of evaluation of the performance of the employees in 2021.

<sup>\*\*</sup> The evaluation of the performance of the employees has not yet been completed. Thus, the amount of bonuses has not been determined and the final amount will be disclosed in due course.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### **INCOME TAX**

#### Taxation in the consolidated statement of profit or loss represents:

	2021 HK\$'000	2020 HK\$'000
Current tax — Hong Kong Profits Tax		
Provision for the year	77,431	33,427
Under-/(Over-) provision in respect of prior years	10,799	(1,825)
	88,230	31,602
Current tax — Elsewhere	8	733
Deferred tax (note 17)	(110,656)	999
	(22,418)	33,334

Hong Kong Profits Tax has been provided at the rate of 16.5% (2020: 16.5%) on the estimated assessable profits arising in Hong Kong during the year. Taxes on profits assessable elsewhere have been calculated at the appropriate current rates of tax prevailing in the jurisdictions in which the Group operates.

#### Reconciliation between tax (credit)/expense and accounting profit at applicable tax rates:

A reconciliation of the tax (credit)/expense applicable to profit before taxation at the statutory rate for the jurisdiction in which the Company and the majority of its subsidiaries are domiciled to the tax (credit)/expense for the year at the effective tax rate is as follows:

	2021 HK\$'000	2020 HK\$'000
(Loss)/profit before taxation	(118,168)	208,960
Tax at the statutory tax rate of 16.5% (2020: 16.5%)	(19,498)	34,478
Under-/(Over-)provision in respect of prior years	10,799	(1,825)
Tax effect of non-taxable income	(18,569)	(53,231)
Tax effect of non-deductible expenses	16,492	36,587
Effect of different tax rates of companies operating in		
other jurisdictions	22	22
Tax effect of tax losses not recognised	1,869	19,546
Recognition of deferred tax assets on prior year tax losses	(17,670)	(7,879)
Others	4,137	5,636
Tour (and dis)/announce for the constant of the Constant of the stire and		
Tax (credit)/expense for the year at the Group's effective rate	(22,440)	22.224
(2021: 19.0%; 2020: 16.0%)	(22,418)	33,334

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 11 DIVIDEND

#### (a) Dividends payable to equity shareholders of the Company attributable to the year

	2021 HK\$'000	2020 HK\$'000
Final dividend proposed after the end of the reporting period of HKnil cents (2020: HK4 cents)		
per ordinary share	_	62,446

The final dividend proposed after the end of the reporting period has not been recognised as a liability at the end of the reporting period.

# (b) Dividends payable to equity shareholders of the Company attributable to the previous financial year, approved and paid during the year

	2021 HK\$'000	2020 HK\$'000
Final dividend in respect of the previous financial year, approved and paid during the year, of HK4 cents		
(2020: HK3 cents) per ordinary share	62,446	46,834

# 12 (LOSS)/EARNINGS PER SHARE ATTRIBUTABLE TO ORDINARY EQUITY HOLDERS OF THE COMPANY

Basic (loss)/earnings per share is calculated by dividing the (loss)/profit for the year attributable to ordinary equity holders of the Company by the weighted average number of ordinary shares in issue during the year. The Group had no potentially dilutive ordinary shares in issue during those years. As at 31 December 2021, the total number of the issued ordinary shares was 1,561,138,689 shares (2020: 1,561,138,689 shares).

	2021	2020
Earnings (Loss)/profit for the year attributable to ordinary equity holders		
of the Company (HK\$'000)	(95,750)	175,626
Number of shares Weighted average number of ordinary shares in issue (in thousands)	1,561,139	1,561,139
(Loss)/earnings per share, basic and diluted (HK cents per share)	(6.13)	11.25

(Expressed in Hong Kong dollars unless otherwise indicated)

	,
At 31 December 2020	38,119

(Expressed in Hong Kong dollars unless otherwise indicated)

#### **14 RIGHT-OF-USE ASSETS** (Cont'd)

The analysis of expense items in relation to leases recognised in profit or loss is as follows:

	2021 HK\$'000	2020 HK\$'000
Depreciation charge of right-of-use assets by class		
of underlying asset: Other properties leased for own use	42,971	33,258
·	· · · · · · · · · · · · · · · · · · ·	,
Plant, machinery and equipment	219	227
	43,190	33,485
Interest on lease liabilities (note 24(b))	2,456	2,073
Expense relating to short-term leases	3,412	1,973
Expense relating to low-value assets	1,150	1,413

During the year, additions to right-of-use assets were HK\$\$156,537,000. This amount primarily related to the capitalised lease payments payable under new tenancy agreements.

Details of total cash outflow for leases, the maturity analysis of lease liabilities and the future cash outflows arising from leases that are not yet commenced are set out in notes 24(c), 29 and 32 respectively.

#### 15 STOCK AND FUTURES EXCHANGE TRADING RIGHTS

	2021 HK\$'000	2020 HK\$'000
Cost and carrying amount as at 1 January and 31 December	4,212	4,212

## 16 OTHER ASSETS

	2021 HK\$'000	2020 HK\$'000
Deposits with exchanges and clearing houses Unlisted club debentures Other deposits and prepayments	18,594 2,470 2,061	20,866 2,470 7,251
	23,125	30,587

None of the above assets is either past due or impaired.

(Expressed in Hong Kong dollars unless otherwise indicated)

### **DEFERRED TAX**

The movements in deferred tax assets and liability during the year are as follows:

	Losses available for offsetting against future taxable profits HK\$'000	Deductible temporary differences HK\$'000	Credit Loss Allowance HK\$'000	Fair value movement of financial assets at FVOCI HK\$'000	<b>Total</b> HK\$'000
Deferred tax assets					
At 1 January 2020	3,258	39	2,093	_	5,390
Deferred tax (charged)/credited to the					
consolidated statement of profit or loss					
during the year (note 10)	(3,258)	8	1,076	738	(1,436)
At 31 December 2020 and 1 January 2021	_	47	3,169	738	3,954
Deferred tax credited to the consolidated statement of profit or loss	405.460		,		
during the year (note 10)	105,462	_	5,421	_	110,883
Deferred tax credited to				4.000	4.000
the reserves during the year	_			1,809	1,809
At 31 December 2021	105,462	47	8,590	2,547	116,646

(Expressed in Hong Kong dollars unless otherwise indicated)

#### **17 DEFERRED TAX** (Cont'd)

	Accelerated tax depreciation
	HK\$'000
Deferred tax liabilities	
At 1 January 2020	1,013
Deferred tax credited to the consolidated statement of profit or loss	
during the year (note 10)	(437)
At 31 December 2020 and 1 January 2021	576
Deferred tax charged to the consolidated statement of profit or loss	
during the year (note 10)	227
At 31 December 2021	803

Other than the losses available for offsetting against future taxable profits for which deferred tax assets are recognised as at 31 December 2021, the Group has unrecognised tax losses arising in Hong Kong of HK\$189,979,000 (2020: HK\$285,746,000), subject to agreement by the Inland Revenue Department, that are available indefinitely for offsetting against future taxable profits of the companies in which the losses arose. Deferred tax assets have not been recognised in respect of these losses as it is uncertain whether sufficient future taxable profits will be available from these group companies against which the tax losses can be utilised. At 31 December 2021, there was no significant unrecognised deferred tax liability (2020: Nil) for taxes that would be payable on the unremitted earnings of certain of the Group's subsidiaries.

There are no income tax consequences attaching to the payment of dividends by the Company to its shareholders.

(Expressed in Hong Kong dollars unless otherwise indicated)

# 18 FINANCIAL ASSETS AT FAIR VALUE THROUGH PROFIT OR LOSS

	2021 HK\$'000	2020 HK\$'000
Financial assets at fair value through profit or loss

#### **ACCOUNTS RECEIVABLE** (Cont'd)

### Ageing analysis of accounts receivable

An ageing analysis of accounts receivable from cash clients and advances to cash clients based on the trade date is as follows:

	2021 HK\$'000	2020 HK\$'000
Within 1 month	2,660,210	1,400,079
1 to 2 months	2,921	4,100
2 to 3 months	1,102	246
Over 3 months	13,477	6,190
	2,677,710	1,410,615

The ageing of accounts receivable from clearing houses, brokers and dealers are within one month and are not past due. They represent (1) pending trades arising from business of dealing in securities, which are normally due within a few days after the trade date, (2) deposits at clearing houses arising from the business of dealing in securities, futures and options contracts and (3) cash and deposits balances at brokers and dealers.

The ageing of accounts receivable from corporate clients arising from corporate finance, advisory and other services are mostly within one month. As at 31 December 2021, balances of HK\$Nil (2020: HK\$1,403,000) were over 3 months past due, balance of HK\$328,000 (2020: HK\$709,000) were 1 to 3 months past due, balance of HK\$50,000 (2020: HK\$70,000) were less than 1 month past due, and balances of HK\$33,894,000 (2020: HK\$12,370,000) were not past due.

Save for the credit period allowed by the Group, the accounts receivable from cash clients shall be due on the settlement dates of the respective securities and futures contract transactions. In view of the fact that the Group's accounts receivable relate to a large number of diversified customers, there is no significant concentration of credit risk. Although the Group does not hold any collaterals or other credit enhancements over its accounts receivable from cash clients, the Group is allowed to dispose of the securities deposited by the customers with the Group to settle any overdue amounts. Advances to cash clients of HK\$27,110,000 (2020: HK\$27,790,000) bear interest at interest rates mainly with reference to the Hong Kong dollar prime rate. Advances to cash clients is covered by securities deposited with the Group of total market value HK\$2,517,206,000 (2020: HK\$2,384,689,000).

(Expressed in Hong Kong dollars unless otherwise indicated)

#### **ACCOUNTS RECEIVABLE** (Cont'd)

## (b) Ageing analysis of accounts receivable (Cont'd)

The ageing analysis of the accounts receivable from cash clients and advances to cash clients that are not individually nor collectively considered to be impaired, i.e. based on the settlement date, is as follows:

	2021 HK\$'000	2020 HK\$'000
Not past due	2,485,469	988,552
Less than 1 month past due	174,888	411,628
1 to 3 months past due	3,925	4,276
Over 3 months past due	13,428	6,159
	2,677,710	1,410,615

Receivables that were neither past due nor impaired relate to a large number of diversified customers for whom there was no recent history of default and are covered by securities deposited with the Group.

Receivables that were past due but not impaired relate to a large number of diversified cash clients. Based on past experience, the directors of the Company are of the opinion that no provision for impairment is necessary in respect of these balances as they are covered by securities deposited with the Group and there has not been a significant change in credit quality. The balances are therefore considered to be fully recoverable.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### LOANS AND ADVANCES

	2021 HK\$'000	2020 HK\$'000
Loans and advances to customers:  — at FVPL — at amortised cost	2,556,416 -	2,355,796 537,242
	2,556,416	2,893,038

Loan and advances represent loans and advances to margin clients amounted to HK\$2,556,416,000 (2020: HK\$2,355,796,000) which are stated at fair value at the reporting date, and IPO loan amounted to HK\$Nil (2020: HK\$537,242,000) which are stated at amortised cost.

Customers are required to provide collateral to the Group for the loans and advances granted. As at 31 December 2021, the total market value of the securities pledged by customers to the Group as collateral in respect of the above loans and advances to customers was HK\$9,766,205,000 (2020: HK\$9,849,838,000), of which a total market value of HK\$Nil (2020: HK\$ Nil) of such collateral was pledged with banks to secure the Group's utilised bank loans (note 28) and unutilised bank facilities as at 31 December 2021.

The Group is allowed to dispose of the collateral in settlement of the customers' obligation to maintain the agreed level of margin and any other liability of the customers due to the Group. The Group is allowed to deposit the collateral with an authorised institution as collateral for financial accommodation provided to the Group according to the applicable legislations and regulations.

In view of the fact that the Group's loans and advances relate to a large number of diversified customers, there is no significant concentration of credit risk. Loans and advances to margin clients of HK\$2,556,416,000 (2020: HK\$2,355,796,000) bear interest at interest rates mainly with reference to the Hong Kong dollar prime rate.

The Group's loans and advances to customers were repayable on demand at the end of the reporting period.

(Expressed in Hong Kong dollars unless otherwise indicated)

### PREPAYMENTS, DEPOSITS AND OTHER RECEIVABLES

	2021 HK\$'000	2020 HK\$'000
Prepayments Deposits and other receivables	23,463 1,135,400	30,193 515,097
	1,158,863	545,290

None of the above assets is either past due or impaired. The financial assets included in the above balances relate to receivables for which there was no recent history of default.

#### BANK BALANCES HELD ON BEHALF OF CLIENTS **23**

The Group maintains segregated trust accounts with authorized banks to hold clients' monies in accordance with the relevant legislation. The Group is allowed to retain some or all of the interest on the clients' monies. The Group is not allowed to use the clients' monies to settle its own obligations.

As at 31 December 2021, allowance for expected credit losses of HK\$335,000 was recognised (2020: HK\$335,000) for bank balances held on behalf of clients.

#### CASH AND BANK BALANCES AND OTHER CASH FLOW INFORMATION

#### Cash and bank balances: (a)

As at 31 December 2021, the cash and bank balances of the Group denominated in Renminbi ("RMB") amounted to HK\$115,805,000 (2020: HK\$47,597,000).

Cash at bank balances earn interest at floating rates based on daily bank deposit rates. Shortterm time deposit is made for one week, and earns interest at the respective short-term time deposit rates. The cash and bank balances are deposited with creditworthy banks with no recent history of default.

(Expressed in Hong Kong dollars unless otherwise indicated)

to PRC market paid to the subsidiaries of			
the ultimate holding company	(iii)	6,695	3,866
Consultancy fee for supporting services in relation			
to Hong Kong and overseas markets paid by			
the subsidiaries of the ultimate			- 040
holding company	(iv)	22,558	7,810
Consultancy fee for supporting services in			
connection with corporate finance business paid			
to the subsidiary of the ultimate holding company	(v)	-	41
Principal-to-principal trading of financial product			
with the subsidiaries of the ultimate holding		40 700	1 00 6 00 1
company	(vi)	48,703	1,036,081
		78,451	1,058,000

#### Notes:

- (i) The commission expenses paid to a wholly-owned subsidiary of the ultimate holding company were calculated based on the prescribed percentage stated in the signed cooperation agreement for clients' transaction amount in Shenzhen and Shanghai B shares.
- The research fee paid to a subsidiary of the ultimate holding company was charged at a fixed amount in accordance with the signed agreement with reference to actual cost incurred.
- (iii) The consultancy fee for supporting service in relation to PRC market paid to the subsidiaries of the ultimate holding company was charged at a fixed amount in accordance with the signed agreement with reference to actual cost incurred.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### **RELATED PARTY TRANSACTIONS** (Cont'd)

### **Material related party transactions** (Cont'd)

Notes: (Cont'd)

- The consultancy fee for supporting service in relation to Hong Kong and overseas markets paid by a whollyowned subsidiary of the ultimate holding company was calculated based on a fixed percentage of the relevant commission earned by the wholly-owned subsidiary of the ultimate holding company. The amount is included in the accounts receivable balance as at 31 December 2021 and is unsecured, interest-free and repayable on demand.
- The consultancy fee for supporting services in connection with corporate finance business paid to the subsidiary of the ultimate holding company were charged at a fixed amount in accordance with the signed agreement with reference to actual cost incurred. The amount is included in the accounts payable balance as at 31 December 2021 and is unsecured, interest-free and repayable on demand.
- The principal-to-principal trading is between the Group and the subsidiaries of the ultimate holding company. The amount for the year ended 31 December 2021 represents the net mark-to-market fair value changes related to the trading of total return swaps which included the net gain or loss attributable to the clients and the interest income derived from the leverage financing arrangements provided by the Group to its clients while the amount for the year ended 31 December 2020 represents the settlement amounts for the trading of debt securities on the primary and secondary debt markets on behalf of the Group's ultimate holding company. Hence, the comparative information is not directly comparable.
- Included in the accounts receivable balance as at 31 December 2021 was a receivable due from a whollyowned subsidiary of the ultimate holding company of HK\$1,690,000 (2020: HK\$27,052,000) arising from brokerage services relating to the PRC capital markets. This balance is unsecured, interest-free and repayable on the settlement date of the relevant transactions.
- (viii) Included in the other receivable balance as at 31 December 2021 was consultancy fee receivable due from a wholly-owned subsidiary of the ultimate holding company of HK\$15,178,000 (2020: HK\$9,899,000) arising from supporting services relating to Hong Kong and overseas markets. This balance is unsecured, interest-free and repayable on the settlement date of the relevant transactions.
- Included in the accounts payable balance as at 31 December 2021 was a payable to a wholly-owned subsidiary of the ultimate holding company of the Company of HK\$664,000 (2020: HK\$16,000) arising from brokerage services relating to the PRC capital markets. This balance is unsecured, interest-free and payable on the settlement date of the relevant transactions.
- Included in the other payables and accruals balance as at 31 December 2021 was a consultancy fee payable to a wholly-owned subsidiary of the ultimate holding company of the Company of HK\$Nil (2020: HK\$11,845,000) arising from supporting services for PRC market. This balance is unsecured, interest-free and payable on demand.
- Included in the corporate finance business revenue was a compliance advisory fee earned from the ultimate holding company of HK\$178,000 (2020: HK\$600,000) arising from compliance advisory services for IPO project in Hong Kong market, which was charged at a fixed amount according to signed agreements.
- Included in the accounts receivable as at 31 December 2021 was consultancy fee receivable due from the ultimate holding company of HK\$Nil (2020: HK\$108,000) arising from compliance advisory services for IPO project in Hong Kong market, which charged based on prescribed allocation arrangement stated in the signed underwriting agreements for underwriting and other relevant services.

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 33 RELATED PARTY TRANSACTIONS (Cont'd)

### (a) Material related party transactions (Cont'd)

Notes: (Cont'd)

- (xiii) Included in the other gains was the gain on disposal of a subsidiary of the Company from a wholly-owned subsidiary of the ultimate holding company of the Company of HK\$Nil (2020: HK\$4,604,000).
- (xiv) Included in the accounts receivable as at 31 December 2021 was receivable due from a wholly-owned subsidiary of the ultimate holding company of the Company of HK\$Nil (2020: HK\$4,459,000) arising from disposal of a subsidiary of the Company.
- (xv) Included in the brokerage business revenue was a commission rebate paid to a subsidiary of the ultimate holding company of the Company of HK\$12,224,000 (2020: HK\$973,000), which charged at fixed percentage of commission income based on the signed agreement.
- (xvi) Included in the accounts payable balance as at 31 December 2021 was the amount of segregated client money held on behalf of an intermediate holding company of the Company of HK\$32,463,000 (2020: HK\$2,205,000). This balance is unsecured, bears interest at the bank deposit rate and is payable on demand.

## (b) Compensation of key management personnel of the Group:

	2021 HK\$′000	2020 HK\$'000 (restated*)
Short-term employee benefits	69,435**	94,262
Post-employment benefits	4,554	3,474
	73,989	97,736

<sup>\*</sup> The compensations for key management personnel were restated as the bonus was revised upon completion of evaluation of performance of key management personnel.

Further details of directors' emoluments are included in note 8 to the financial statements.

The related party transactions in respect of items (a)(i-vi) above also constitute continuing connected transactions to be disclosed in annual report as defined in Chapter 14A of the Listing Rules.

<sup>\*\*</sup> The evaluation of the performance of the key management personnel has not yet been completed. Thus, the amount of short-term employee benefits not been determined and the final amount will be disclosed in due course

(Expressed in Hong Kong dollars unless otherwise indicated)

### FINANCIAL INSTRUMENTS BY CATEGORY

The carrying amounts of each of the categories of financial instruments as at the end of the reporting period are as follows:

#### OFFSETTING FINANCIAL ASSETS AND FINANCIAL LIABILITIES

The Group currently has a legally enforceable right to set off the Continuous Net Settlement ("CNS") money obligations receivable and trade payables with Hong Kong Securities Clearing Company Limited ("HKSCC"), which are included in "accounts receivable" and "accounts payable" as presented in the consolidated statement of financial position, respectively. It intends to settle on a net basis as accounts receivable from or accounts payable to the Stock Exchange. The net amount of CNS money obligations receivable or payable with HKSCC and guarantee fund placed in HKSCC do not meet the criteria for offsetting against each other in the financial statements and the Group does not intend to settle the balances on a net basis.

#### **FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS**

#### Fair value hierarchy (a)

The following tables present the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, Fair value measurement. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique (see note 2.5(b)).

The following tables illustrate the fair value measurement hierarchy of the Group's financial instruments:

	Locald			
	Level 1 (Unadjusted quoted prices in active markets) HK\$'000	Level 2 (Significant observable inputs) HK\$'000	Level 3 (Significant unobservable inputs) HK\$'000	Total HK\$′000

(Expressed in Hong Kong dollars unless otherwise indicated)

#### FAIR VALUE HIERARCHY OF FINANCIAL INSTRUMENTS (Cont'd)

## (b) Valuation techniques and inputs used in Level 2 and 3 fair value measurements

The Group measures Level 2 and 3 fair values using the following method and there is no change to the valuation technique:

- Level 2 Valuation techniques based on observable input. This category includes debt securities, derivatives financial instruments, funding notes and structured notes issued valued using:
- Quoted market prices in active market for similar instruments;
- Quoted prices for similar instruments in market that are considered less than frequent; or
- Other valuation techniques where all significant inputs are directly or indirectly observable from market data
- Level 3 Valuation techniques based on significant unobservable inputs. This category includes debt securities, derivative financial instruments, unlisted funds and financial guarantee contract valued using:
- Discounted cash flow method
- Net asset value of fund provided by external counterparty
- Market approach where the unobservable input of option-adjusted spread is measured using quantile based approach

#### 37 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's operating segments include brokerage business, corporate finance business, asset management business, financing and loans business, investment business and other business.

The main risks arising from the Group's normal course of business and its financial instruments are interest rate risk, foreign currency risk, credit risk, liquidity risk and price risk. The board of directors reviews and agrees policies for managing each of these risks and they are summarised below.

#### Interest rate risk

The Group's borrowings from banks during the year are for the provision of financing and loans to customers. The bank borrowings bear interest at interest rates with reference to the HIBOR whereas loans to customers bear interest at interest rates with reference to the Hong Kong dollar prime rate. As the Hong Kong dollar prime rate basically changes in line with the HIBOR, the Group's exposure to the risk of changes in market interest rates is minimal.

The following table demonstrates the sensitivity to a reasonably possible change in Hong Kong dollar interest rate, with all other variables held constant, of the Group's (loss)/profit before taxation (through the impact on floating rate borrowings, interest-bearing accounts receivable, cash and bank balances, financial assets at FVOCI and loans and advances) and the Group's equity.

	Increase/ (decrease) in basis points	Increase/ (decrease) in (loss)/ profit before taxation HK\$'000	Increase/ (decrease) in equity* HK\$'000
2021

2020			
Hong Kong dollar Hong Kong dollar	25 (25)	159 (159)	759 (759)

Excluding retained profits

(Expressed in Hong Kong dollars unless otherwise indicated)

#### FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Cont'd)

# Foreign currency risk

The Group's exposure to fluctuations in exchange rates arises from its dealings in overseas share markets. Such dealings are entered into on behalf of clients of the Group and accounted for a small portion of the Group's revenue. A material portion of such overseas transactions is denominated in United States dollars and RMB. The pegged exchange rate between United States dollars and Hong Kong dollars kept the Group's exchange risk exposure to a minimum and thus, no hedging was required. Exchange gains and/or losses are dealt with in the consolidated statement of profit or loss. The Group has endeavored to closely monitor its foreign currency positions and take necessary measures when the situations so justify. The Group's revenue denominated in RMB constituted approximately 5% (2020: 3%) of the total revenue.

The following table demonstrates the sensitivity of the Group's major financial assets and financial liabilities at the end of the reporting period denominated in RMB to a reasonably possible change in the RMB exchange rate, with all other variables held constant, of the Group's (loss)/profit before taxation and the Group's equity.

	Increase/ (decrease) in RMB rate %	Increase/ (decrease) in (loss)/ profit before taxation HK\$'000	Increase in equity* HK\$'000

If the Hong Kong dollar strengthens against the RMB	(8)	(14,650)	_

Excluding retained profits

(Expressed in Hong Kong dollars unless otherwise indicated)

#### 37 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Cont'd)

#### Credit risk

The Group has put in place a well-established credit policy governing the granting of credit limit to customers. Customers are generally required to deposit their securities with the Group as collateral to their borrowings. The credit department is responsible for assisting the directors in formulating the credit policy of the Group, monitoring the credit risks of customers with reference to the realisable values of the collateral, managing the concentration of credit risk by customer and recommending measures to the directors for granting credit facilities which exceed the authority limit of the credit department. There are no significant concentrations of credit risk within the Group as it relates to a large number of diversified customers.

The credit risk of the Group's financial assets, which comprise cash and bank balances, bank balances held on behalf of clients, investments in debt securities, other assets, deposits and other receivables, loans and advances and accounts receivable, arises from default of the counterparties, with a maximum exposure equal to the carrying amounts of these instruments.

Further quantitative data in respect of the Group's exposure to credit risk arising from accounts receivable and loans and advances are disclosed in notes 20 and 21 to the financial statements, respectively.

# Liquidity risk

There is a constant need of funding for the settlement of securities transactions and for the provision of financing and loans to the customers. The source of funding is either from the Group's own capital or borrowings from financial institutions, if necessary.

The Group monitors its risk to a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of both of its financial instruments and financial assets (e.g., accounts receivable) and projected cash flows from operations.

The Group's borrowings from banks during the year are for the provision of financing and loans to customers for their purchases and continuous holding of securities. The maturity of bank borrowings of the Group ranges from overnight to within one year, where the borrowings are either rolled over or repaid by the Group's own funding. In addition, for those clients who are unable to settle their settlement obligations or margin deficits, the Group may dispose of the securities collateral pledged by the customers to the Group. The Group always ensures that the securities collateral pledged by customers is able to be realised in the market within a reasonable period of time.

(Expressed in Hong Kong dollars unless otherwise indicated)

## FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Cont'd)

# **Liquidity risk** (Cont'd)

The maturity profile of the Group's financial liabilities as at the end of the reporting period, based on the contractual undiscounted payments, is as follows:

	On demand HK\$'000	Less than 1 year HK\$'000	Over 1 year HK\$'000	<b>Total</b> HK\$'000
2021				
Accounts payable Financial liabilities included in	6,403,261*	1,930,693	-	8,333,954*
other payables and accruals	_	770,633	_	770,633
Interest-bearing bank borrowings	3,500,796#	_	_	3,500,796#
Financial liabilities at FVPL	_	5,400,052	_	5,400,052
	9,904,057	8,106,378	-	18,005,435
2020				
Accounts payable Financial liabilities included in	4,601,897*	1,657,719	_	6,259,616
other payables and accruals	_	245,880	_	245,880
Interest-bearing bank borrowings	4,275,256#	_	_	4,275,256#
Financial liabilities at FVPL	_	935,247	456,448	1,391,695
	8,877,153	2,838,846	456,448	12,172,447

Balance includes bank balances held on behalf of clients (note 23) under the current asset section of the consolidated statement of financial position of HK\$4,675,752,000 (2020: HK\$4,756,813,000).

Had the banks not called in the loan, the scheduled repayment dates of interest bearing bank borrowing were less than 1 year from the end of the reporting period (2020: less than 1 year from the end of the reporting period).

Included in interest-bearing bank borrowings were certain of the Group's bank loans in the amount of HK\$3,500,796,000 (2020: HK\$4,271,923,000), of which the loan agreements contain repayment on demand clauses giving the banks the unconditional right to call in the loans at any time. Therefore, for the purpose of the above maturity profile, the amounts are classified as "on demand".

(Expressed in Hong Kong dollars unless otherwise indicated)

## 37 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Cont'd)

### **Price risk**

Price risk is the risk that the fair values or future cash flows due to changes in market prices. The Group was exposed to price risk through its financial instruments at fair value through profit or loss (notes 18 and 25) and financial instruments at fair value through other comprehensive income (note 19) as at 31 December 2021.

The following table demonstrates the sensitivity to every 1% change in the fair values of the investments, with all other variables held constant and before any impact on tax, based on their carrying amounts at the end of the reporting period.

	Increase/ (decrease) in fair value %	Increase/ (decrease) in loss before taxation HK\$'000	Increase/ (decrease) in equity* HK\$'000

#### 37 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Cont'd)

## Capital management

The primary objectives of the Group's capital management are to safeguard the Group's ability to continue as a going concern and to maintain healthy capital ratios in order to support its business and maximise shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes for managing capital during the years ended 31 December 2021 and 2020. Certain subsidiaries of the Group are regulated by the Securities and Futures Commission (the "SFC") and are required to comply with certain minimum capital requirements according to the rules of the SFC. These externally imposed capital requirements have been complied with the relevant subsidiaries of the Group for the year ended 31 December 2021 and 2020.

The Group monitors capital using a gearing ratio, which is interest-bearing bank borrowings divided by total equity. The gearing ratio is reviewed and assessed regularly by the board of directors. The gearing ratios as at the end of the reporting periods were as follows:

	2021 HK\$'000	2020 HK\$'000
Interest-bearing bank borrowings	3,500,796	4,271,923
Total equity	3,854,659	4,038,666
Gearing ratio	90.8%	105.8%

The increase in gearing ratio was attributable to the increased interest-bearing bank borrowing as the Group's strategy is to expand its business including wealth management and institutional service and trading.
