

Dear valued customers:

HKEx will **launch Hang Seng TECH Index Options on 18 January 2021**, while HKEx had introduced futures contracts based on the Hang Seng TECH Index at the end of last year. The Hang Seng TECH Index Options is the exchange-traded derivatives contracts to track the index, complementing HKEx's flagship Hang Seng Index and Hang Seng China Enterprises Index products.

The Hang Seng TECH Index was launched in July 2020, and tracks the 30 largest technology companies listed in Hong Kong. According to the data from Hang Seng Indexes Company, the Hang Seng TECH Index has provided a 36% return for 2019 and a 60% return for 2020, as at the end of October 2020.

In addition to the four Hang Seng TECH Index ETFs are already trading on HKEx's markets, the introduction of the proposed options will bring new exposure management tools to the market, giving greater product coverage of the technology sector in Hong Kong and further enhance product offering on the Hang Seng TECH Index.
