Visit our website and choose the right download for your computer.
Currently we support the following download versions:

Windows / MAC-x64 / MAC-ARM64

Step 1: User Registration

1. Enter your mobile phone number;
2. Click "Get SMS OTP", then enter the 6-digit verification code received by SMS;

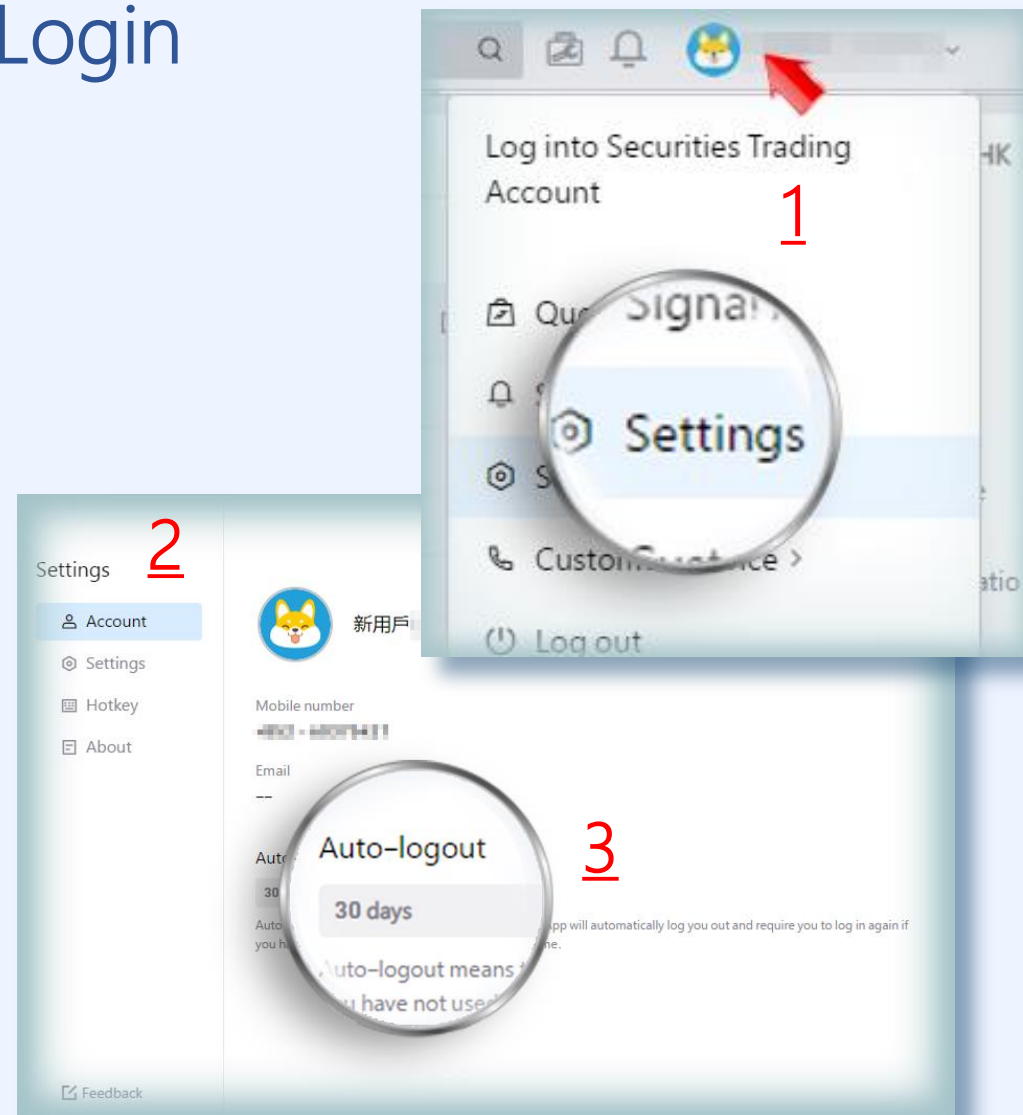

3. Tick "Auto Login"
(optional) and "I have
read and agreed to
Service Agreement,
Privacy Policy, 3rd-Party
SDK Data Collection
Statement";

4. Click "Login".

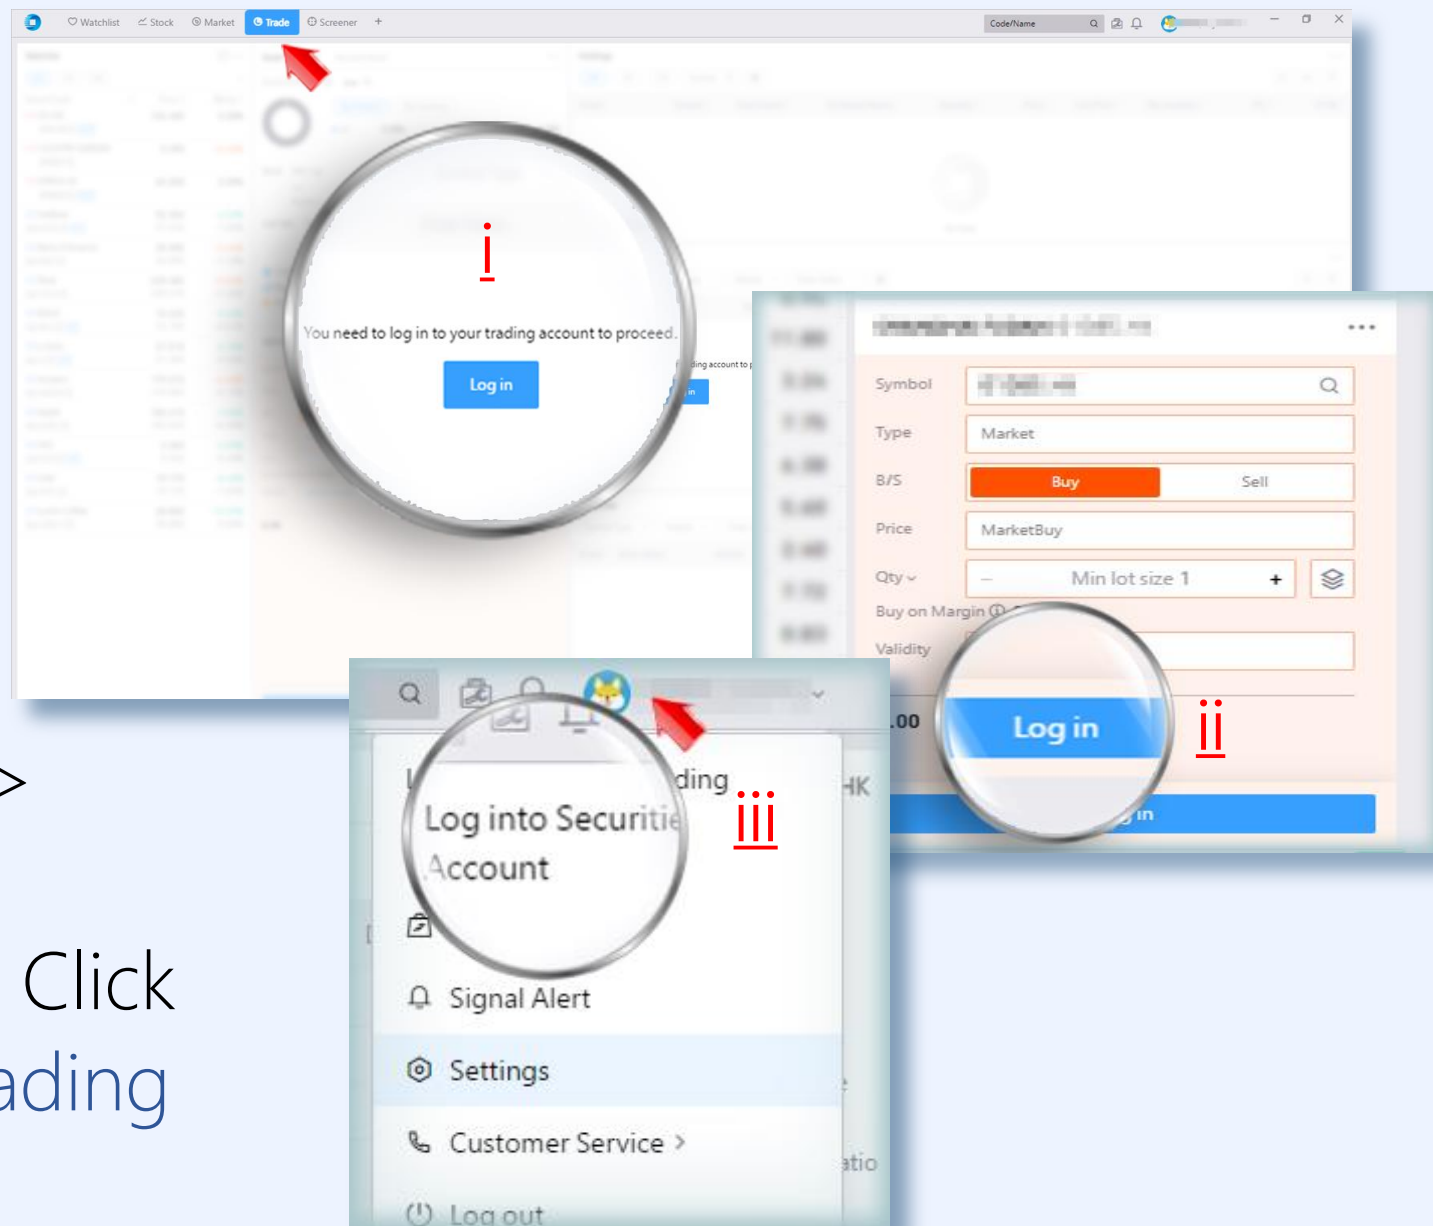

How to Set Up Verification-Code-Free Login

1. After login, click your user name at the top right corner of the page to enter "Settings";
2. Select "Account";
3. Locate "Auto-logout", and set your "preferred duration", for which no verification code will be needed when accessing non-trading pages.

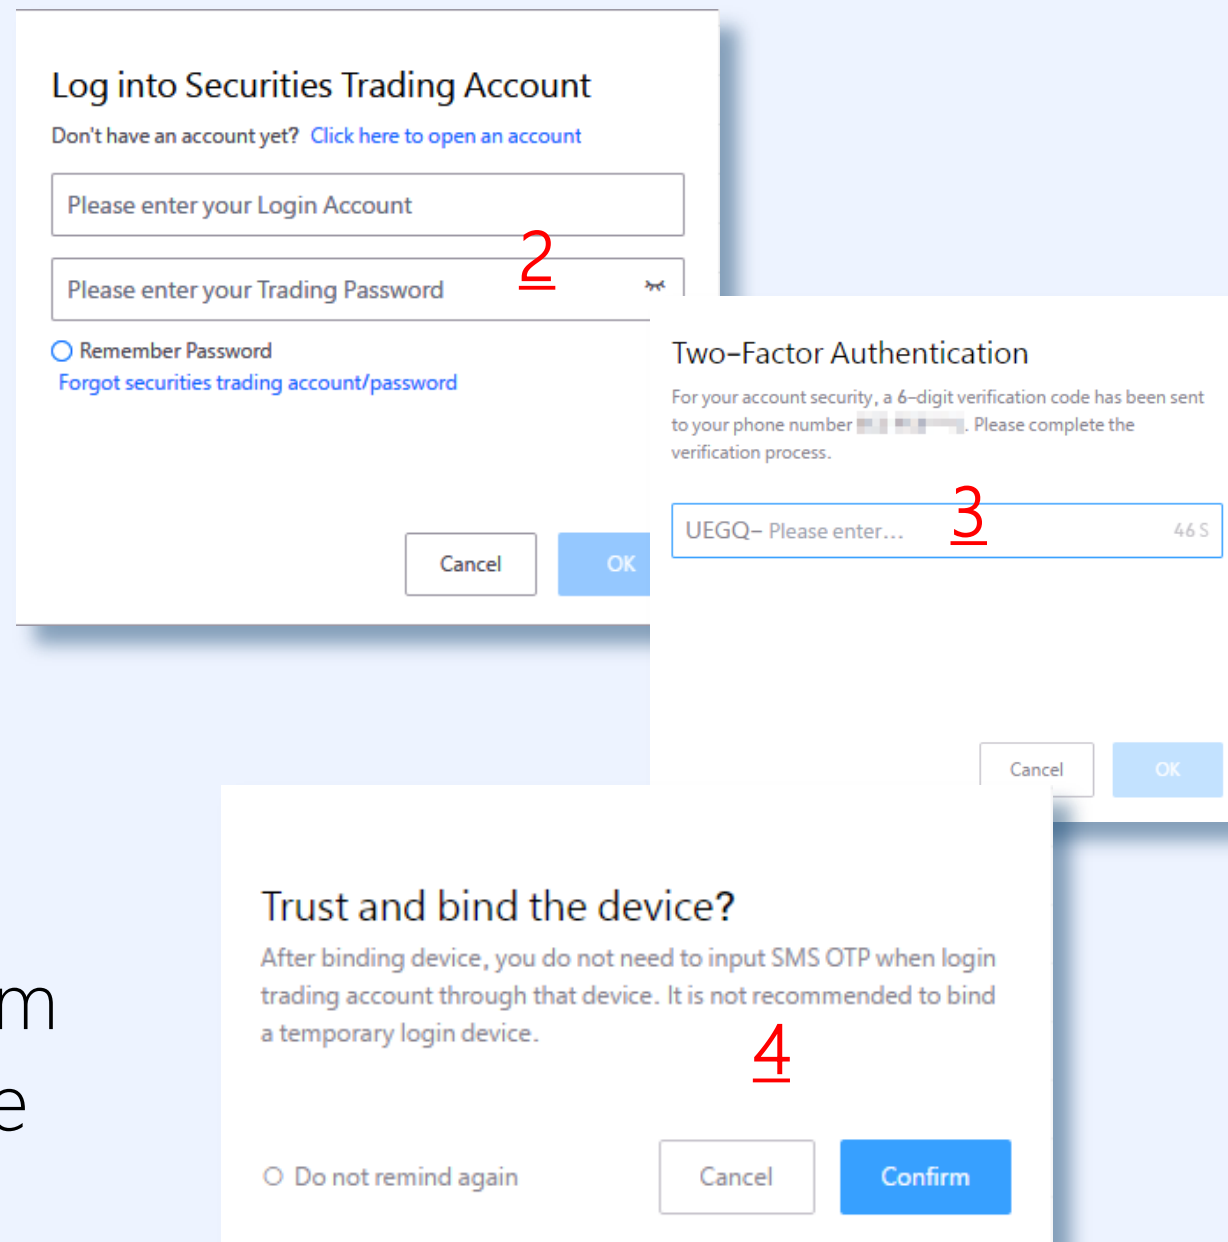

Step 2: Login to Trading Account

1. Multiple login paths:
 - i/ "Trade" Page > Click "Login"; or
 - ii/ "Order Component" > Click "Login"; or
 - iii/ "Personal Settings" > Click "Log into Securities Trading Account";

2. Enter Account Name and Trading Password, click "OK";
3. Input the verification code received by SMS, click "OK";
4. Upon successful login, system will prompt a "Trust and bind the device" message (for PC Download Version only), confirm to bypass SMS verification code for next login; or

The image displays three sequential screenshots of a web-based login interface for a Securities Trading Account.

The first screenshot, titled "Log into Securities Trading Account", shows a login form with two input fields: "Please enter your Login Account" and "Please enter your Trading Password". A red number "2" is positioned to the right of the password field. Below the fields are radio buttons for "Remember Password" and a link for "Forgot securities trading account/password". "Cancel" and "OK" buttons are at the bottom right.

The second screenshot, titled "Two-Factor Authentication", shows a verification code input field with the placeholder "UEGQ- Please enter...". A red number "3" is to the right of the field. A timer "46 S" is visible on the right side of the input field. "Cancel" and "OK" buttons are at the bottom right.

The third screenshot, titled "Trust and bind the device?", contains explanatory text about device binding and a radio button option "Do not remind again". A red number "4" is positioned to the right of the text. "Cancel" and "Confirm" buttons are at the bottom right.

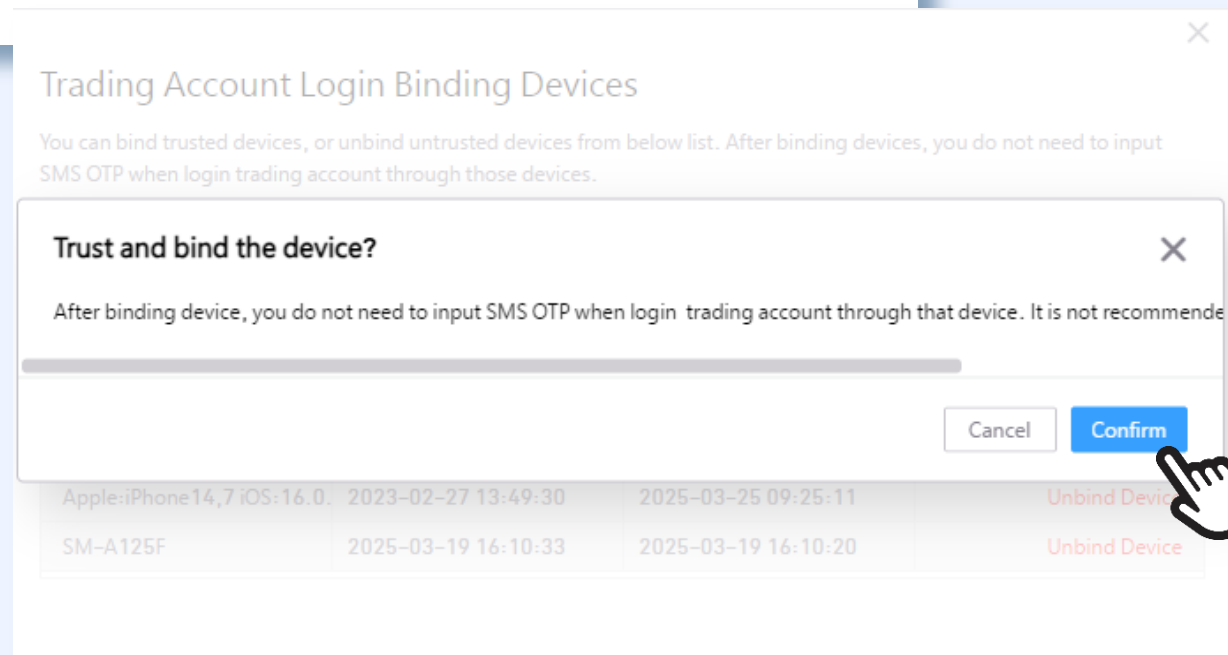

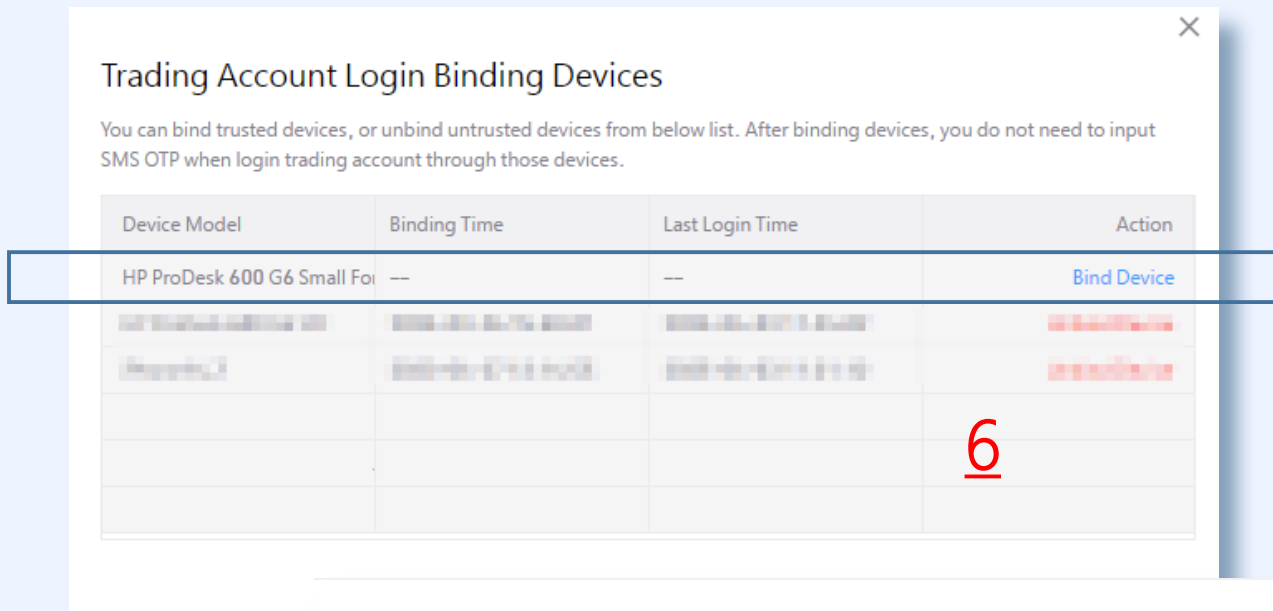

Bind the device

- After successful login to your Trading Account, click your account name at the top right corner, enter "Personal Settings", click "Trading Account Settings", choose "Trading Account Login Binding Devices" to proceed;

Bind the device

6. At "Trading Account Login Binding Devices", choose "Bind Device", and click "Confirm".

Thank you.
